Vatican Organ Says Pope Has Berlin Denial Exposed by the Been Persistently Misinterpreted.

Rome, Tuesday, Aug. 28—(Delayed).—
The Osservatore Romano, the organ of the vatican, prints a long article embodying a discussion of the objections

Copenhagen, Aug. 30.—The statement that an offer of a separate peace was made to Russia recently by the German Government is published in the Socialist newspaper Vorwaerts of Berlin. It is hearth and the second bodying a discussion of the objections made to the pope's peace proposals, from which it would appear evident that the pontiff hoped to obtain a favorable answer from the United States. It is intimated by the paper that any step taken by the pope is persistently missing terpreted and subjected to unfair criticism, and that the present proposal is no exception.

Regarding the pope's silence on the Balkan problem, it is pointed out, that the pope cannot offer an immediate concrete solution of a question which has long troubled the statesmen of Europe. The pope, however, in his note, the paper adds, specifically invites the powers to meet and arrive at an equitable agreement.

The Osservatore Romano, discussing the moral basis of the note, says that the holy father, like President Wilson, in his notes, suggests the substitution of the moral force of right for material force, and likewise compares passages in the statements of President Wilson to the papal note regarding the free-local of the high seas as being identification of the high seas as bein

Losses.

London, Aug. 30.—The first of the British Government's standardized merchant steamers to replace tonnage lost through submarines, it is announced, has been commissioned after completing most successful trials. The keel was laid down in February, and the hull was launched in June. It is understood that six different types of vessels, varying in size from 8,000 tons downward, are being built. Many-hundreds of such ships will be constructed.

Watched the rank upon rank of khaki swing by. The troops, New York State's former National Guard, now the 27th Division of the United States Army, marched, before leaving for the preliminary training at Spartamburg, S. C., so that the city might give them a "send off' worthy of their ultimate mission in France. The soldiers called forth roars of cheers that were almost continuous for the more than six hours that it took the division to march from One Hundred and Tenth street to Washington Square. Unless it may be the unpublished number already in France, this division formed the largest number of American troops yet mobilized since the United States entered the war.

OPPOSITION CAUCUS DISCUSSES SERVICE AND C. N. R. BILLS

Consensus of Opinion Was That Conscription Having Passed, Every Support Should Be-Given Its Carrying Out-Early Elections Expected.

(Special to The Advertiser.)

Ottawa, Aug. 30 .- There was a Liberal caucus this morning. It is understood that there was a general discussion of the situation that has been created by the conscription act becoming law. The consensus of opinion was that expressed by Sir Wilfrid Laurier in Parliament yesterday that since conscription has become law the Opposition should do all in its power to see that the law is harmoniously carried out in its application.

There was consideration of the Canadian Northern bill and the position that the Government has taken in putting the measure through the House by the application of closure. The consensus of opinion in the caucus was that the Government will bring on the elections as soon as it can secure the passage of a franchise bill and organize the machinery for taking the vote.
