

The Joy o' Spring

There was a really real flash of spring yesterday in that warm southern breeze that brought a crowd of people to the down-town streets and avenues.

The shabby winter hat was not remarkable by its absence and that's something to be set right.

All our new spring hats are in the show cases—superb designs by Henry Heath and Dunlap of New York, Melville, Christy, Tress, and a hundred others.

VERDICT IS RENDERED RE DEATH OF JOHNSTON

Funeral of Late Mr. Anthony Takes Place To-Day—Assessor Appointed in York.

TORONTO JUNCTION, March 26.—“Don't aim at too many things at once. Try to help somebody in some way or other. Find a sphere of usefulness. Live within your means and spend less than you earn. Develop self-control and avoid affectation.” These were some of the words of wisdom handed out by Rev. Dr. Hazlewood to-night at his lecture entitled “A Modern Excelsior—Some Lessons in Climbing.” There was a large attendance. The chairman of the evening was F. J. Johnson, B.A., and he explained that the purpose of the meeting was to raise money for the organ which will be installed in the new church now rapidly nearing completion. The members of the choir, Annesley Guild and Brotherhood of St. Paul have been appointed a committee to raise subscriptions for the organ.

Pleased With Committee.

Trustee Hall stated to The World to-night that the school board is greatly pleased at the action of the private bills committee in granting the town permission to issue debentures to the extent of \$25,000, the cash proceeds of which will amount to about \$17,000 or \$18,000. “Such an amount would provide for a school about the size of that on Western-avenue,” said Mr. Hall. “Who is the principal of the new school will be as yet of course a matter of conjecture. Neither has the location of the site been decided upon, but it probably will be on the Elizabeth-street lot, although some of the trustees favor its location in a more southerly part of the town.”

PHYSIOGNOMY.

The science can be traced as far back as the time of Pythagoras, who is said to have examined carefully the faces of his would-be pupils before admitting them to his school. Hippocrates, 450 B. C., refers to the science, and Cicero has many references to it. The first systematic treatise on the subject that has come down to us is that attributed to Aristotle. The sixteenth century was particularly rich in literature on physiognomy, and the eighteenth shows a still greater interest in the science. Lavater's book seeming to be the final word on the subject.

Monolithic Concrete.

In the use of monolithic concrete there is no rule by which it may be determined at what time it is entirely safe to remove the timber which supports the mass while it is setting, but an authority on the subject says: To formulate a comprehensive rule covering these variable conditions may be difficult, but it is easy to demand that concrete not frozen shall be set sufficiently so that if tested by driving a 23-penny wire spike into it with an ordinary carpenter's hammer, the spike shall double up after penetrating approximately one inch; and if the concrete is not sufficiently good to withstand this test after having had ample time to set, it is not good enough to remain and do business in a structure that may be deemed safe.

PORK IMPORTATIONS.

Some Interesting Figures Presented in House.

OTTAWA, March 26.—(Special.)—In the house to-day W. F. Maclean (Ontario) was told by Mr. Paterson that the quantity and value of fresh pork, cured or salted, and all other fresh meats imported for home consumption into Canada since Dec. 1, 1907, up to March 1, 1908, were: Pork, barrels in brine, 2,053,448 lbs., valued at \$166,109; bacon, hams, shoulders and sides, 1,516,283 lbs., \$154,622. Mutton and lamb, fresh, 545,113 lbs., \$39,025; fresh pork, 2,818 lbs., \$193; other fresh meats, 53,877 lbs., \$6282.

Replying to Mr. McLean (Queen's) Mr. Paterson said the quantity of mess pork, hams and bacon imported into Canada from the United States in November and December, 1907, and January and February, 1908, were: Pork, barrels in brine, 3,046,859 lbs., of value of \$244,528; bacon, hams, shoulders and sides, 2,112,457 lbs., value \$232,808.

Mr. Lancaster presented a petition of the St. Catharines Board of Trade praying that Welland Canal be enlarged.

Mr. Oliver introduced a bill to amend the Immigration Act. It relates to the admission of immigrants, providing that they must come from the country of origin. It had been found it was impossible to deport undesirable coming from a port of another country.

Mr. Foster asked if it was intended to deport a suitable immigrant simply because he bought a ticket at another port.

Sir Wilfrid Laurier said that was the subject. It was impossible to exclude undesirable unless they came from the country of origin.

Mr. Borden read a despatch from Halifax that troops of the garrison

slightly attended. Scenes from Japan and British Columbia, chiefly were shown and described.

The G.T.R. are this week cleaning the tracks and balling the yard at the station, a part of the work being done in the filling in with cinders the spot on the north of the main tracks, which, during the fall and spring, is at times covered with water. As this is part of the yard used for loading and unloading freight the improvement will be a special benefit to home industry.

Our veteran sportsman, John Gilles, now at the fourscore post, while on a visit to Altona recently, took part in a competition at the gun club there. While not carrying off the highest honors in being scored, his record would easily give him a place on the team.

The strong easterly winds of yesterday made another attack on part of the shore here and took a little more of the banks away. Lake Shore residents have been repeatedly called upon to devise means of protecting their property in recent years, but so far nothing seems promising against the southerly storm. Some of the cement work also has been damaged or overturned this year.

INGLEWOOD AVENUE.

The men of St. Clement's Mission, Inglewood-avenue, held a meeting on Wednesday evening and organized a cricket club. The officers are: Hon. president, Rev. J. Bushell; honorary vice-presidents, E. G. Evans and F. W. Townsend; president, H. A. Bracken; vice-president, W. J. Moore; secretary-treasurer, George H. Morley; 10 Shudell-avenue. Another meeting will be held on Monday evening, March 30, and any men interested in the game and wishing to join the club are requested to come to this meeting or send their names to the secretary at the above address.

NEWTONBROOK.

Another Happy Event, This Time in Newtonbrook.

NEWTONBROOK, March 26.—A very pretty wedding took place at the home of George Goulding, father of the bride, when his eldest daughter, Vera, was united in marriage to George R. Grainger, both of this village.

The bride was attired in a pretty cream silk gown and carried a shower of white roses.

Many beautiful presents were received, the groom being a peer of Miss lace. They will make their home at Dollar.

NORTH TORONTO.

Fred G. Parker of North Toronto Gets Vacant Position.

NORTH TORONTO, March 26.—At 9:10 this morning a northbound Glen-grove car ran into a load of hay opposite the Outlook Hotel. Neither teamster, horse, nor wagon was injured, but the front headlight of the car suffered the loss of a window pane. The young men's club of the Eglington Presbyterian and Methodist Churches gave an entertainment in the school room of the latter church to-night, which was well attended. Besides the local talent taking part in the program Jack Murray, comic, and the Osborn Junior String Quartet assisted. The address to the club was delivered by Victor Cairns of the Y.M.C.A. debater club.

The funeral of the late George S. Gray of the third concession of East York took place to Mount Pleasant Cemetery this afternoon. Deceased was in his 68th year and had been in poor health for some time. He is survived by his widow, three sons and a daughter.

York Township Council, at their special meeting, appointed Fred G. Parker of Whitney-avenue, Doncaster, assessor for York Township, succeeding the late John Burke.

HIGHFIELD.

Daughter of Reeve Gardhouse of Etobicoke Weds.

HIGHFIELD, March 26.—A pretty house wedding took place at the residence of Mr. and Mrs. John Goodhouse, Highfield, on Wednesday last, the contracting parties being the eldest daughter, Ada L. and Arnold J. Davis of Woodstock. The ceremony was performed by Prof. Matthews of McMaster University, Toronto. After the usual wedding repast, the newly married couple left for a trip to Camden, N. J. on their return will take up residence at Woodstock.

EAST TORONTO.

Jury Return Verdict in Case of Alex. Anthony.

EAST TORONTO, March 26.—That Arthur Johnston came to his death on March 18 between the hours of 6 and 10 p.m. from being struck by a G.T.R. train.

This was the verdict given out by the jury empaneled by Coroner Dr. Sisley, after less than an hour's deliberation following the inquest in the town hall to-night.

Lit in the way of material evidence was adduced, throwing light on the matter in which the unfortunate man met his death.

William Harding testified to finding the dog, attracted by the animal's actions, and later the hand, at 12:30, on the morning of March 19 while returning from work.

He communicated with the city police, who in turn, referred him to the G.T.R. officials at York. The latter had in the meantime found the body, near York station.

Dr. Walters gave expert testimony regarding the condition of the body. John Mitchell and Engineer McKibbin gave unimportant testimony.

An emergency meeting of Acaacia Lodge A.F. & A.M. is called for to-morrow (Friday) afternoon at 1:30 to attend the funeral of their late brother, Alex. Anthony. A full attendance is requested.

Uncle Sam's Warships Can Stand Improvements.

WASHINGTON, March 26.—Taking very now before the world, Read-Admiral Evans has sent, in response to an official request, a voluminous report to Secretary Metzler, wherein he recommends wholesale changes for the navy, including raising the armor belt from six inches to one foot; fitting out of only selected battleships as flag-ships; and an alteration in the broad-side guns, which can only be used to advantage in a smooth sea and when steaming at not more than ten knots an hour.
