

TWELVE PAGES—WEDNESDAY MORNING MAY 19 1897—TWELVE PAGES

THE GREAT SUIT EVENT

Commencing to-day will be a grand carnival of economy. Every announcement in these columns will ring with stories of price reductions. On our tables to-day we have over 3000 Suits, all choice fabrics, most of which came across the sea. The lowest figure on any of them heretofore was \$6.00, and from that up to \$16.00. Even at these prices the values couldn't be duplicated in Toronto.

BUT NOW IT'S DIFFERENT.

We don't want to carry any Suits over. We don't want to lay off our tailors, and we think it will help us to scatter these bargains among the people.

What Do You Say To

Men's Scotch, English and Domestic Tweeds, checks, stripes, plaids and plain patterns, stylish cut, single stitched edges, serge and farmer satin lined, fancy stripe satin sleeve linings, square or round corner sacque coat, pants and vest trimmed and finished to match in every detail; worth \$5 to \$10

4.98

Men's Fine Double and Twisted Suits, medium and light shades, as fawn (pin-head checks), grey and black mixed effects, etc., single breasted, 4-button round-cornered sacque coats, heavy twilled serge lining, strongly sewn and stylishly finished, collar on vest, pants new cut, good pockets and trimmings, all sizes, 36 to 44 chest measure, were \$5 to \$6.50; Special Suit event price.

2.75

Men's English Tweed Suits, all wool, new patterns, new colorings, single-breasted sacque coats, Italian and serge linings, horn buttons, sewn with silk, cut and finished for this season's trade, complete range of sizes, 36 to 44; worth \$7 to \$8

3.50

Boys' 3-Piece Suits, smooth finished all-wool tweed, Oxford grey shade, single stitched edge, sacque coats, fine stripe satin lining in sleeves and vest, pants strongly lined and trimmed, were \$4 to \$6, sizes 26 to 32

1.98

There they are—there's what you can buy them for to-day AND WHILE THEY LAST—and we say to you now that you can safely buy for next year—or the next—at these prices. Nothing sacrificed but the price. Every suit bears the impress of our high standard of excellence. The trimmings are there as good as ever, and the cutting is up to the top notch of perfection.

At eight o'clock this morning we will be ready for you, and we'll stay as long as there's a suit left. Nothing like this ever seen in any clothing establishment in Canada before. GET IN EARLY FOR YOUR CHOICE. FIRST COME FIRST SERVED.

If you cannot call at the Store, send in your mail order, accompanied by the cash. We will guarantee to please you.

PHILIP JAMIESON, THE ROUNDED CORNER, Queen and Yonge Sts.

A welcome sale for the economical. A fortunate sale for everybody.

THE GREAT YUKON COUNTRY Government Decides on a Vigorous Policy.

A SURVEYOR APPOINTED. With Seven Assistants He Has Started for His New Field.

It is believed the Mining Laws Will have to be Amended to Meet This Case—The Bill of Incorporation Evoked a Lively Discussion in the Railway Committee—Sir Charles Tupper Supports the Chartered Railway Sale Taken Up Also by the Railway Committee.

Ottawa, May 18.—(Special.)—The Government has evidently determined on a vigorous administrative policy in the Yukon country. Mr. Thomas Fawcett, Dominion Topographical Surveyor, has been appointed the first regular gold commissioner in that country, and with a staff of assistants, numbering seven, has started for his new field of labor. The party goes direct to Dawson City, at the junction of the Klondyke and the Yukon, and their time of duty extends over a period of two years.

The duties of gold commissioner have until now been performed by Inspector Constantine, who is in charge of the Northwest Mounted Police, but they have of late become so multifarious that the departments, of necessity, had to be separated. To carry out the work as at present proposed it is believed the mining laws will have to be amended. Mr. William Ogilvie of the Department of the Interior will start for home when Mr. Fawcett arrives at his destination, but other Eastern officials will be on hand shortly to engage in other departmental work. Among these will be a few surveyors whom the Government proposes sending out to make a survey of the feasible waterways into the country.

Railway Committee Took It Up. There was a lively discussion in the Railway Committee (that is, the one over the bill to incorporate the British Yukon Chartered Company, a company whose promoters to-day decide to open the proposed administrative changes in the bill, and confine its rec to trading and transportation powers.)

Mr. Morrison thought the bill should stand over until a further report from the members knew about the Yukon country and the manner in which it was proposed to reach it. H. H. Hall, however, recommended that the present act should be amended

company, no matter how influential the promoters were. Sir Charles Tupper commended the bill, believing that if powers were given a strong company like this great benefit must result to the country.

Mr. Maxwell supported Mr. Morrison's contention. Mr. Blair argued in favor of the measure, but Mr. Morrison gained his point for to-day, the bill going over for further consideration.

Meanwhile another syndicate is in the field, asking for a charter for extensive powers in the Yukon country. It is known as the Yukon Trading and Transportation Company, and is incorporated under the laws of West Virginia.

Kingston and Pembroke Railway. The bill providing for the sale of the Kingston and Pembroke Railway was proceeded with before the Railway Committee this morning. Mr. E. B. Oler, C.E., asked for the bill, so that the claims of Mr. Rathburn, who sold \$10,000 worth of coal to the company, might be met.

Mr. Leonard of Kingston opposed the bill in the interests of the majority bondholders. Mr. Nichols, a young Kingston barrister, advocated the passage of the bill as amended by Mr. Oler, in the interests of the bondholders.

Mr. Oler, who is largely interested, was also heard in favor of the bill. It was shown to Mr. Fawcett that Sir Oliver Mowat had a bill before the Senate which would permit of the road being sold without the legislation asked for.

Senator Sullivan defended himself against some remarks made by Mr. Fawcett, after which Mr. Blair said that he did not believe in passing legislation for particular cases. He suggested that the promoters wait until Sir Oliver Mowat's bill could be examined by them, as it would likely meet their case. This suggestion was agreed to.

HOUSE OF INDUSTRY. Report of the Building Committee Must be Endorsed by the Trustees—Tenders for Supplies. The regular monthly board meeting of the House of Industry was held yesterday afternoon, when the following were present: Rev. J. Gillespie, Rev. A. H. Baird, Rev. J. McCann, and Messrs. E. Alton, James Turnbull, John Bain, James Prier, H. J. Browne, and Mr. W. P. Wilson.

raised to three stories in height, and that there should be an extension to the rear of the centre of the present building for an upstairs dining room, which will give an increased accommodation of 100 to 200. It would also give an incalculable benefit to the poor, without the sanction of the trustees, who he claimed, are the support of the poor, without the sanction of the trustees, who he claimed, are the support of the poor, without the sanction of the trustees, who he claimed, are the support of the poor.

When a motion was presented for the adoption of the report, the chairman, Mr. Alton, objected. He claimed that the board had no legal right to take the money for building purposes, intended for the support of the poor, without the sanction of the trustees, who he claimed, are the support of the poor, without the sanction of the trustees, who he claimed, are the support of the poor.

Mr. Alton, who is largely interested, was also heard in favor of the bill. It was shown to Mr. Fawcett that Sir Oliver Mowat had a bill before the Senate which would permit of the road being sold without the legislation asked for.

He suggested that the promoters wait until Sir Oliver Mowat's bill could be examined by them, as it would likely meet their case. This suggestion was agreed to.

NIAGARA FALLS NEWS. No Extension From Welland to Guelph This Year—Charley Kinsey's Tribulations. Niagara Falls, Ont., May 18.—(Special.)—The Guelph Excursion Committee of the Welland County Farmers' Institute met yesterday and decided to dispense with their annual excursion to the Hoop at Guelph. The reason of the Guelph Excursion Committee was the cause of it being dropped.

Charles Kinsey, the best-known and most popular back-driver around Niagara Falls, is in a large trouble with the American authorities. Last year Kinsey, when crossing the lower Suspension Bridge, neglected to report to the American customs officer. Later his hack was seized and sold under the smuggling laws. Kinsey got back to Canada safely and did not again venture into the clutches of Jonathan the wester, until the baseball match of the Niagara University and the Cuban Giants was played. He was discovered and sent to jail in Lockport yesterday.

Work on the power tunnel site has ceased and the workmen have evidently completed the work they will do. All the land has been drained and there apparently developing operations have been dropped.

Mr. R. Barnett, proprietor of the Dufferin Cafe, has completed arrangements for the new arch bridge. It will be in running order this week. The work on the new arch will continue in a few days, and on new supports. To-morrow the work of blockading up on the new arch will commence, and as soon as this is completed the old cables will be cut.

Engineer Huch, who superintended the drawing of the plans and construction of the new arch bridge, is now in the employ of the Upper Suspension Bridge Company and preparing plans for a new bridge of similar construction to the one long the largest single span bridge in the world. It is not the intention of the company to build this year, unless the present low price of steel will be worthy of consideration.

Registered at the La Fayette: Senator G. W. LeClerc, W. P. McKee, Dr. W. G. Dewey, C. E. Vawter, J. Bell Blair, J. P. White, J. H. Chavira, J. H. Lacey, London, Eng.

Waterbury, N.Y., May 18.—Private Allan of the 9th U.S. Infantry, was removed from the hospital at Madison Barracks last evening to the Jefferson county jail by order of District Attorney Kellogg. It is understood that the murder of Mary Crouch and Mary Daily, the crime which was committed in the harbor April 16, will be tried by the grand jury.

St. James' Church of London South, in which service has been held for the past 20 years, is undergoing alterations, and on September the congregation will worship in the S. S. building.

THE CONSERVATIVE CANDIDATE for the Legislature. THEORIES ABOUT THE FALLS. Did the Action of the Water on the Rocks Cause the Recession? Niagara Falls, Ont., May 18.—(Special.)—A new and greatly emphasized theory of how Niagara Falls has receded, is taking a great hold on the public, especially over the border. Several days ago a Prof. Gilbert of the United States Geological Survey, lectured in Niagara Falls, N.Y., on the great gorge between the Falls and the Falls. It was the old and generally accepted theory that the recession was caused by the action of the water upon the rocks and he went so far as to say 30,000 years ago the Falls had been at Queenston.

Mr. Level says he has studied the matter carefully and, as a result, is convinced that the Falls are a great liability following this is another idea advanced by John Level, which not only provided for the falling off of the Falls, but offered an explanation for the continual explosions about the Horse Shoe Falls. Mr. Level says he has studied the matter carefully and, as a result, is convinced that the Falls are a great liability following this is another idea advanced by John Level, which not only provided for the falling off of the Falls, but offered an explanation for the continual explosions about the Horse Shoe Falls.

These theories may be feasible, but the third one is asked: one to account for the disappearance of the rock which, according to those advanced, at one time filled the Niagara gorge. Why all the rocks which lay on the beach of Lake Ontario would hardly fill this tremendous canon.

A Patient in the Asylum at Brockville Succeeded in the Cow Barn. Brockville, May 18.—This morning a young man named Thomas Summers, an inmate of the asylum, committed suicide. He went to the barn to assist the farmer and embraced an opportunity to slip off by himself, and when found he was dead, having secured a rope and hanged himself in the cow barn. He was about 21 years of age, and comes from Winchester township. His mania when brought to the asylum was to take his own life, but his condition had greatly improved. Coroner Vaux was in turn communicated the facts to Chief Rose, who at once camped a jury to meet at the asylum at 2:30 p.m.

THE VERDICT OF THE JURY was that "The said patient came to his death by hanging, the result of his own act."

CAPTURED A COB. A Baby Bear Secured by Farmer O'Hara. Beck of Wiaros. Wiaros, Ont., May 18.—Mr. O'Hara, a farmer, driving a lonely heek road a farmer, driving to a mother bear and cub. He soon caught one of the cubs and hurried away with it. He supposed the wozon secured the old one, as she did not attack him. The cub was very smart and large, and was to-day and sold it to Mr. Johns, hotel-keeper, for \$5.

Vegetation is now very rapid and farmers are busy.

A Victoria Park. The W. C. T. U. of Lindsay held a public meeting last evening to discuss the advisability of turning the Market Square into a park, in recognition of Victoria Day.

COUNTY AND SUBURBAN NEWS. A Budget of Interesting News Gathered by World Correspondents Over a Wide District. Toronto Junction, May 18.—(Special.)—At the regular meeting of the Public School Board to-night there were present Mr. Raymond (chairman) and Trustees Harry Ball, Shipman, Smith, Rice, Anderson and Hill. Mr. H. Gourlay, B.A., was appointed representative of the board on the Board of Examiners for High School entrance examinations, 1897. The request of Miss Cherry for leave of absence for the balance of the year was granted and provided for the vacant seat left in the hands of the School Management Committee. The use of the Swanson School was granted to the Lakeside Presbyterian Mission for the holding of a concert. Mr. Kaiser's bill for \$1.50 was ordered to be paid without the amount from Mr. and Mrs. King, parents of the child who broke the window. Mr. Perry's offer of \$15 for the brick in the old schoolhouse on Davenport-road was accepted. Mr. Level says he has studied the matter carefully and, as a result, is convinced that the Falls are a great liability following this is another idea advanced by John Level, which not only provided for the falling off of the Falls, but offered an explanation for the continual explosions about the Horse Shoe Falls.

CAPTURED A COB. A Baby Bear Secured by Farmer O'Hara. Beck of Wiaros. Wiaros, Ont., May 18.—Mr. O'Hara, a farmer, driving a lonely heek road a farmer, driving to a mother bear and cub. He soon caught one of the cubs and hurried away with it. He supposed the wozon secured the old one, as she did not attack him. The cub was very smart and large, and was to-day and sold it to Mr. Johns, hotel-keeper, for \$5.

Vegetation is now very rapid and farmers are busy.

A Victoria Park. The W. C. T. U. of Lindsay held a public meeting last evening to discuss the advisability of turning the Market Square into a park, in recognition of Victoria Day.

last meeting, passed a resolution to purchase two road graders for the use of the township, and at a cost of \$1,000. The graders were ordered by the township, and it was decided to purchase two Austin machines.

Mimico. The Epworth League of Christian Endeavor held special services morning and evening, Sunday last, in the Methodist Church. In the morning, Mr. Hinds of Toronto addressed the society on the subject of "A Model League," giving a very interesting and encouraging address, followed by Mr. Furtick, superintendent of the Victoria Industrial School, whose subject was "The Motto of the League—Look Up, Lift Up!" A short address was also given by Mr. Clark. In the evening a very instructive address was delivered by Mr. Bishop, son of Rev. George J. Bishop, Toronto, explaining the working of the several departments of the league—the devotional, missionary, social and literary. A short address was given by the president, and a report read by the secretary, showing the progress made during the year. The league to have had a very successful year. Congregations were large at both services. Music was furnished by the church choir, and the Victoria Industrial Methodists. Rev. C. E. Perry, pastor of the church.

East Toronto. Signor Tessam of the Toronto College of Music visited East Toronto yesterday. The meeting of the ratepayers of the gas question took place last night. Not more than 25 were present. Several short speeches were made. Among those present were Mr. McLaughlin, Schenker and Motherill. A committee was appointed to secure the exact cost of the present lighting. Then a comparison of the cost of gas and oil was presented. It was asserted that a man who owns a lot rated at \$500, will only have to pay 25 cents per annum for gas. The chief cause of opposition is the extra taxation etc.

A Scotch Job. Presiding at a lecture given at Glasgow by "Ian MacLaren," Dr. Donald Macleod told a good story as an illustration of Scotch humor. It was about his brother, Norman, who, when in Dalkeith, had as a member of his Bible class, a poor, half-witted parsonage, who sadly absented himself. Meeting one day, the minister and absentee had the following dialogue: "Ye hain't been at the class, Jannie." "Wee ye ken whaur I'm at?" "An' there'll be nae classes an' nae sermons there, unless 'wee, it'll no' be for the want of ministers."

Waran Spelling for a Fight. Washington, May 18.—The Morgan Cuban resolution was taken up at 2 o'clock. Mr. Mason, senator from Illinois, spoke in its support. Mr. Mason read from a letter which he had taken from Cuba to prove that a state of war exists in Cuba. "If there is not war in Cuba, it is because the Cubans are not with us." He said the Americans in Cuba needed to be defended with bayonets as well as with bread.

Dyspepsia or Indigestion is occasioned by the action of the stomach to secrete the gastric juices, without which digestion cannot go on; also, being the principal cause of indigestion, it is the most common ailment before going to bed for a while, never fails to give relief, and is the best remedy for indigestion. Dr. Williams' Pink Pills are taking the lead against ten other makes which I have tried.

Fever Americana Meets. The Etobicoke Township Council, at its
