Wall Street Closing a Factor —

With Few Exceptions Prices

Were Only Steady.

New York's closing yesterday was against trading in some local securities and the Toronto market was dull. Price changes were not material and the only feature was the introduction of a few shares of Quebec Italiway, which sold as high as 33 1.4. Very little interest has been taken in the shares here and the transactions were likely put thru for Montreal reasons. Baroelonia was strong at 14 2-4. Speculators are figuring that the price is sufficiently low to warrant some advance and are buying accordingly. Cement and Brazilian were slightly firmer, but except for those mentioned the other issues dealt in were only steady. The market is somewhat dependent on New York, and unless prices are stimulated from that point this impression is that the trading will be narrow until the holiday season is over.

TRADING WAS LIMITED

ON MONTREAL MARKET

Three Stocks, Detroit, Carriage

Trading was allowed and a was allowed the other issues dealt in were only stightly over 25 and 32 1-2 and Molntyre was about steady at 167. Senumeher changed hands at 58 and Teck-Hughes soid between 22 1-2 and Molntyre was about steady at 167. Senumeher changed hands at 58 and Teck-Hughes soid between 25 1-2 and Molntyre was about steady at 167. Senumeher changed hands at 58 and Teck-Hughes soid between 26 1-2 and 20 preferred with price of trading, selling up seven points from the preceding day's high point and changed at a 14 2-3 and 32 1-2 and molntyre of trading, selling up seven points from the preceding day's high point and changed at the control of trading, selling up seven points from the preceding day's high point and changed at the control of trading, selling up seven points from the preceding day's high point and changed at the control of trading, selling up seven points from the preceding day's high point and changed at the control of trading, selling up seven points from the preceding day's high point and changed at the control of trading, selling up seven points from the preceding day

Factories and Quebec Railway Absorbed Attention.

22,000, or 0.6 per cent. In March, and £18,-22,000, or 0.6 per cent. In February. The consistent drop has been due in the main to the reduction of the mini-mums, and their elimination entirely in July promises to bring a further decline of considerable size.

LONDON STOCK MARKET. LONDON, July 4 .- Money and discount rates were easy.

The tone of the market on the stock exchange was good and firmly maintained, gilt-edge stocks and home rails being the features on the reinstatement of dividends, while low-level stocks, which recently shedded their minimums, also proved attractive to investors. proved attractive to investors.

Russian shipping shares and Argentine rails were in good demand, together with Marconis and oil shares, which were very

Rubber shares were weak.
The American section was neglected,
owing to the holiday.

MONTREAL EXTREMELY DULL.

Heron & Co. had the following at the MONTREAL, July 4.—Outside of som MONTREAL, July 4.—Outside of some movement in specialties, the local market was extremely dull. Quebec Railway and Detroit United were the active features. Quebec Railway is tipped for higher prices, and a dividend in September is freely predicted. The market for this stock is being well taken care of, and the same might be said of Carriage Co. and Detroit United.

For the third week of June the earnings of the Twin City Rapid Transit Company were \$198,275, a gain

LABOR LEADERS HOPE TO PREVENT A WAR

Representatives in U.S. and Mexico Are Looking for Success.

WASHINGTON, July 4.- Labor eaders of the United States and Mesico today believed they had started a popular movement to prevent war between the two nations by assisting each to understand the difficulties of the other. The movement was launched by the issuanceof a statement sign. ed by officers of the American Federation of Labor and five representatives of crganized labor in Mexico, urging people of both nations to make attenuous efforts to prevent war.

The labor men propose that the government of each nation appoint "a commission, to be composed of highminded citizens, fully representative of our nations, to consider differences that have brought our nations to the verge of war and to make such recommendations for adjustment as shall fully express the highest ideals of the great rark and file of the citizenship of the world." Messages approving the proposal from local labor leaders in various parts of the United States and other citizens were looked for today. ed by officers of the American Federa-

The oil fields of the Middle West have hardly been scratched. The future for this powerful Independent is almost unlimited. Millions have been made in oil, and millions will be made in oil. The Uncle Sam Oil Company is the great People's Company, now owned by nearly twenty thousand stockholders, representing every congressional district in the United States. It has fought its way through persecution to prosperity. It is really the only big oil stock Company that puts its proposition down in black and white and through the Independent Press takes the public into its confidence.

It is determined to raise \$200,000.

To Investors: This Company now controls over (30,000) thirty thousand acres of lands and leases in the real oil and gas belt. These properties have been carefully selected and are well blocked into many different properties, reaching into twelve different oil counties. We have wells—four to seven of which should be completed during the next two weeks, including several to the deep sands.

This Company may have over two hundred million dollars of oil in these different properties, and is determined to put into operation the balance of forty to fifty drills and keep them going until the Company's production reaches twenty thousand barrels per day.

It controls one great lease of about twelve thousand acres northwest of the first that a once at our choice location on this property. Where a great produce on this property, where a great produce on this property at least than two million dollars, or a gain now of about twelve thousand acres northwest of the consider a cash sale of our combined property at least than two million dollars, or a gain now of about twelve thousand acres in consider a cash sale of our combined property at least than two million dollars, or a gain now of about twelve thousand acres in Stephens County, Oklahoma, several hundred acres of which are in the property where a great produce on this property, where a great produce on the great lease of nearly five thousand acres in Stephens County, Oklahoma, several hundred acres of which are in the property of the p

Since the above notice was written this company has completed a 28,000,000 gas well near the centre of its fourteen quarter sections of leases in Pawnee County, near Jennings, where many well informed oil men expect nearly a second Cushing pool. In 6 to 24 days read oil gushers in this district now seem sure. The drills will go deeper day and night and we have started two new wells in the very heart of this new field on different properties.

We have over five miles of line to protect in this field and may start the balance of forty-two (42) new wells on these valuable leases on completion of wells now drilling, and soon drive this stock in a record-breaking advance of from 20 to 50 times.

As part of the consideration the company reserves the right to approve or reject any subscription to or transfer of its stock. The stock is non-assessable. Remittances will be accepted on the following basis, subject to withdrawal without notice, if mailed not later than July 10, 1916:

2,000 Shares \$ 15.00 5,000 Shares 37.50 10,000 Shares 70.00

Put an X opposite the stock you want and make all remittances payable to The Uncle Sam Oil Company, by cheque, draft or money order. Write your name and address plainly.

(Street, city and state address)

Respectfully submitted.

really the only big oil stock Company that puts its proposition down in black and white and through the Independent Press takes the public into its confidence.

It is determined to raise \$200,000 for quick drilling operations during the immediate future. Good propositions do for the company also owns a substantial property near the centre of the township that contains the great Cushing oil field. In line with a reported 14,000-that ago.

We have our pipe-line completed to this Cushing property and have already developed a rich pool in the shallow sand.

KANSAS CITY, KANSAS
