Nothing but Names.

By H. F. GARDINER, M.A.,

Editor of the *Hamilton Times*.

This handsome volume is an inquiry into the origin of the county and township names of Ontario. It contains more than 560 pages, and may be said to be encyclopædic in its fulness of information. As a book of reference to people and places, it has a special and distinguished value, while the amount of local knowledge packed within its pages would be hard to match in any work of the kind. It has a most comprehensive index, and throws much light on the history of Ontario for the past one hundred years.

Large crown 8vo, cloth, gilt top, \$2.50.
