Cocoon Oil Makes A Splendid Shampoo. If you want to keep your hair in good condition, be careful what you wash it with. Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsified cocoon oil (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair. Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and causes the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage. You can get mulsified cocoon oil at almost any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.
