Stewart, president of Hollingsworth & Company, retail merchants, with branches in Winnipeg, Regina and Calgary. The other directors of the board are W. A. Matheson, president, and W. W. Egan, secretary.

TAKE SALTS IF STOMACH ISN'T ACTING RIGHT

Says Indigestion Results from an Excess of Hydrochloric Acid.

Undigested food delayed in the stomach, or rather ferments, the same as food left in the open air, says a noted authority. He also tells us that indigestion is caused by Hyperacidity meaning there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. This causes the sourness in the stomach which leads to gas, bloating and other troubles.

MAY MEAN GOLD RUSH TO NILE

Precious Metal in King Tut's Coffin Sets Men Thinking

Very Rich Find Made Before But Work Was Not Continued

By W. E. DRAKEFORD
(United Press Special Correspondent)

CAIRO—Disturbed in his sleep of centuries, Tut-Ankh-Amen may have a message for modern civilization that will result in a gold rush across the vast plains stretching from the banks of the Nile.

Visitors who come to view the rich golden coffin of the pharaoh invariably turn to sober reflection as they stand in the Cairo Museum. Minds try to reach back through the hundreds of years and comprehend something of that bygone civilization, but out in the street, and brought back to the hard facts of today, reflections often turn to practical deductions.

CHARGES BURGESS BACKED BY PAPER

Hon. J. G. Gardiner Sees Hand of Toronto Telegram in By-election

Canadians Press

PRINCE ALBERT, Sask., Feb. 10.—Charging the Toronto Telegram and its allied interests with being responsible for the candidature of David L. Burgess, the Independent candidate in the Prince Albert by-election, the Hon. J. G. Gardiner, Minister of Highways in the Saskatchewan Government speaking on behalf of Premier King in Prince Albert last night, alleged that the paper referred to was attempting to kill the Premier in the present by-election with the same methods it pursued in defeating him in the 1926 election.

He further alleged that the campaign against Premier King was also directed against Sir Henry Thornton and Right Hon. Arthur Meighen with a view to finally banishing them from public life because they had publicly opposed the creation of any railway monopoly in Canada.

BURGESS SPEAKS.
The Independent candidates held a meeting in another hall in the city last night. The speaker was W. S. Hancy, M. L. A. of West Lumberton, Ont.

"So the people of this constituency want to act as a pulmotor to a dead politician," was the question proposed.

Mr. Hancy said his own presence in Prince Albert was due to his former comradeship which caught Burgess, whom he regarded as a "united front" of the kind we cannot have too many, and his desire to see the political finish of the Premier.

Mr. Hancy characterized the idea that Mr. King had come to a western seat with a view to furthering the unity of Canada as "unutterable rot" and charged him with widdling a Maslini type of influence.

Claims Stomach Sours Causes Bad Breath

New York City, Mr. Ben Lohde writes—"I was formerly a victim of constant upset stomach, bad taste in the mouth and very disagreeable breath. My bowels were constantly constipated and nothing helped except temporarily. After using Carter's Little Liver Pills I have overcome all my troubles and I am especially happy because of a sweet clean healthy breath."

WAR RELICS ARE GIFT TO MUSEUM

Money of Various Countries Included Among Items

Curios From South America Also Among Recent Donations to Collection

A great variety of relics of the Great War and a number of very fine curios from South America have been presented to the Natural History Society by J. Stewart Smith and have added greatly to the comprehensiveness and interest of the museum collections. The gifts have been most gratefully received and will be objects of special attraction for many of the museum visitors.

Many of the South American curios had been brought from that land by Mr. Smith's father, who was a missionary there for a number of years. The war relics were collected by a Mr. Smith himself, who served in the R. C. H. A. 16th draft, and was with a P battery, R. H. A. at Woolwich.

SOUTH AMERICAN CURIOS.
The South American curios include a small box of Paraguay tea, a carved gourd used by the natives in brewing the tea, a metal tube with a sieve at the end through which Argentine natives drink their tea. One of the most ancient of these curios is the Pre-Inca attelle which is believed to be a smooth stone, used for crushing meat or some similar purpose. A small carved horn cup made by prisoners in South America, a handsome Peruvian shawl, and a wooden spoon used in Peru and a number of tiny samples of Mexican pottery, clay modeling and basket work complete the South American curios.

The war relics include a large number of pieces of paper money, issued by various communities for currency during the war and some examples of the wartime paper towels, sand bags and bandages, which were used by the Germans.

GERMAN PIECES.
There are also a great number of pieces of German uniforms, helmets, forage caps, collars and cuffs, gas masks, military belts, buttons and buttons.
