

Spring Announcement.

Like a bold champion I assume the lists,
Nor ask advice of any other thought,
But faithfulness and courage.

The winter frost and snow have lent their aid in harvesting the product of the forest. The logs are now gaily bounding through the open rivers on their way to meet the onslaught of Circular and Gang Saw. The result will be Lumber in galore and of the best.

The clean atmosphere, high winds and warm sun of Notre Dame Bay have united to provide the seasoning process in perfection, so that our 1910 stocks arrive here clean, bright and dry. Already several large cargoes have been landed at our wharves, St. John's, in spite of a late spring. Others are in course of transit. We call upon our friends in St. John's and through the length and breadth of the country to send us their orders.

Horwood Lumber Co. LTD.
Saw Mills and Planing Mills.

Skinner's Monumental Art Works

HEADQUARTERS HILL, Duckworth St., St. John's, Nfld.
If you want to buy a nice Headstone or Monument for your catalogue of photos and price lists with full information for mail orders. We are now booking orders for spring delivery.

Amatite Roofing!

You'll Never Need a Paint Brush.

When you lay Amatite on the roof you're through with it. You don't have to paint it every year to keep it from leaking. It has a real mineral surface which does not need painting. Most of the old-fashioned, 'smooth surfaced' or Rubber Roofing, which requires painting, costs more than Amatite and you have all the extra cost of paint. It looks tasy now to give your roof an occasional coating in the future. But do you realize that in 1913 you must paint it, and in 1914 you must paint it, and in 1915 you must paint it, and in 1916 you must paint it, and in 1917 you must paint it, and in 1918 you must paint it, and in 1919 you must paint it, and in 1920 you must still be painting that confounded old Rubber Roof. Why, a new Amatite Roof will cost less than the paint alone. Send us for free samples and booklet explaining all about it. Ask your dealer for Amatite Roofing.

Colin Campbell, Agent.

"More bread and better bread"

Perpetual Yeast

It is Something Like The Widow's Curse, If Properly Handled

Bread is one of the things that women still like to have made in their own houses, and happy are they who are in a position to gratify this preference, for home made bread is a luxury which the commercial product seldom succeeds in equalling.

No good bread, of course, can be made without good yeast, and house-keepers who have been having trouble with their bread may find it worth while to try "perpetual yeast." It is perfectly easy to make, and it properly handled secures a perpetual supply of good yeast.

The ingredients required are two cupsful or one pint of warm potato water—that is, water in which potatoes have been boiled; half a cake of compressed yeast and half a cupful of sugar. Put these into a glass preserving can, quart size, and set it on a shelf above the fire or in some warm place, where it can begin quickly to work. Let the yeast stand for three or four hours until full of rapidly rising bubbles, which form a foam on top. Then cover it and set it away in the cellar.

This mixture is called the "starter" and will keep indefinitely. It can be prepared just before using or several days or even weeks before. Of course it should be kept in a cool place covered securely, so that it will not turn sour or stale.

When bread is to be made bring the starter up from the cellar about four or five hours before it has to be used. Add two more cupsful of potato water and half a cupful of sugar, or a less quantity, if preferred, and allow the yeast to work as before. Leave the cover off the jar, and set it into the pan to catch the froth as it runs over the edge. If this is done a little after midday, the bread can be started about 6.30 or 7 o'clock in the evening. Measure out two cupsful for this purpose, after stirring thoroughly, and set the rest away for a new starter. Bring continually removed from week to week, the yeast becomes literally "perpetual." Like any other yeast, however, it will lose its virtue if not handled properly. It should never be left in a warm place after it has worked, and bread should be made from it while it is working.

The subscription price of The Guardian to the United States is reduced to \$1.10 per year.

Prohibition Issue Stirs Maine Anew

Bangor, Me., July 18.—After twenty-seven years experience with constitutional prohibition of the liquor traffic Maine on September 11 will hold a special election to determine whether the people wish to retain prohibition as a part of the organic law of the State or to cast it aside as a proven failure and an obstacle in the pathway of reform. While the prohibition men are confidently predicting a sweeping victory, they are plainly worried as to the outcome, for the Women's Christian Temperance Union led by Mrs. L. M. Stevens, of Portland, national president, and many other organizations, including church and Sunday school societies, are putting forth the most earnest exertions to insure the retention of the famous fifth amendment, which was adopted by vote of the people in September, 1854.

As a matter of fact, the issue is in doubt. Considering the fact that Maine experienced a political earthquake last fall, electing a democratic Governor and Legislature largely upon the liquor issue, it is pointed out unless the public temper has greatly changed, there should be at least as strong an expression of antiprohibition sentiment this autumn, but so many considerations will govern the voters and the party leaders in this conflict that it is difficult to estimate the forces for and against the repeal of the constitutional amendment. No such complex situation has ever arisen in Maine politics.

No Bull Fights For Toronto

Toronto, July 19.—Flat refusal from Deputy Chief of Police Stark met the plea of Wm. Dunn, a Spanish matador that he be permitted to hold a bull fight in the Islands Stadium during the last two weeks in August. The police commissioners backed up the Deputy Chief to a man.

Mr. Dunn, whose father was Spanish Consul at Malaga, proposed to bring six bulls and six matadors from Mexico and to conduct the fight according to Spanish ethics.

German Force Was Massacred

Livingstone, Rhodesia, July 19.—German District Commissioner Von Frankenberg, two white sergeants, fourteen black police and twenty carriers, have been massacred by the Okavango tribe of Bechuanaland. According to native reports the scene of the massacre was on British territory the presence of the Germans being explained by the fact that the frontier is not clearly defined.

Only a Mask

Many are not being benefited by the summer vacation as they should be. Now, notwithstanding muggy outdoor life, they are little if any stronger than they were. The tan on their faces is darker and makes them look healthier, but it is only a mask. They are still nervous, easily tired, upset by trifles, and they do not eat nor sleep well. What they need is what tones the nerves, perfects digestion, creates appetite, and makes sleep refreshing, and that is Hood's Sassa-parilla. Pupils and teachers generally will find the chief purpose of the vacation best subserved by this great medicine which, as we know, "builds up the whole system."

TO OUR ADVERTISERS.—Copy for change of advertisements must be in our hands by Wednesday at least.

The Ungraded Class

Modern methods in education are sometimes too rigid, and an occasional return to a free scope for the good teacher works wonders. For backward children the old "ungraded" system along with the "graded" system is an advantage, and it is operation of it in London, New York, and elsewhere.

German Baron Sentenced To Prison

Berlin, July 19.—Baron Oswald Von Richthofen who killed Wilhelm Von Gaffon in a duel on May 10, was today sentenced to two years imprisonment in a fortress. Both men were army officers, Gaffon being on the retired list. The Baron is a son of the late Secretary of Foreign Affairs.

A quarrel over money matters led to the duel which took place at dawn in the city.

We will be very grateful if when readers are answering advertisements they would mention The Guardian.

Tuberculosis Death Rate

Chicago Comes Twenty-third in United States List.

Twenty-two cities in the United States of more than 100,000 population have a greater death rate from consumption than Chicago, according to figures tabulated by the municipal tuberculosis commission after a careful study of thirty-seven cities. Denver leads the list with 450 deaths for every 100,000 population. St. Joseph, Mo., shows the lowest death rate, it being 79 on the same basis. Scranton is second with 90 deaths. The Chicago rate is 178.

The secretary of the commission, in giving out the figures gave the following methods of reducing the death rate: Improve factory and working conditions, get meat and milk supplies from healthy cows, extend the system of parks and public playgrounds, and advance the standard of living educating communities.

Remittances for subscriptions should be sent us by Post office or Express Orders or Registered Letter. Canadian subscribers should never send Postal Notes, as these cannot be cashed in Nfld.

The Possibility for Every Man

If you and I and every man that God has made could somehow grasp that tremendous thought that it was possible for each of us in his own place and circle and sphere to live a brave, strong, helpful and happy life, how it would crowd out the narrow boundaries of our existence and give us inspiration and heart and hope. What the most of us need in life is just that faith, just a firm grip on that fact, for fact it is, no matter what life may be or have for any one of us. Life may have temptation, it may have hardship, it may seem narrow and cramping in its opportunities, but there is one opportunity and one possibility that it will always bring to every man and woman and child in all the world and that is the opportunity and possibility of being kind and sweet and hopeful and brave and good. So long as our life touches any other life that opportunity be given us, and so long as God lives will the strength and grace and wisdom whereby every man may measurably live up to it be available. It is not altogether the circumstances or conditions of our life that make for its highest good; it is rather the doing of that thing, the thinking of that thought, the cherishing of that ideal that is for the moment best, and best in accord with life's true purpose. If a man by God's grace does that he is grasping life by the right end and making it, no matter what it may be in outward seeming, serve his highest good both of character and of happiness.

Wage Fight Against the White Plague

The Dominion Exhibition which opens at Regina at the end of this month will give visitors an opportunity to see what the Union Printers have done in respect to the stamping out of Tuberculosis. Arrangements have been made by the Local Union whereby a miniature exhibit will be shown of the home at Colorado replete with information as to the part being played by the "Men of Type" to alleviate the sufferings of the human race in this and other respects. The results of the experiment made by the Union are open to those interested in the work and are considered by the highest and foremost medical authorities of the day to have been of incalculable value. Research work and experimental work are done great good and to-day this home is looked upon as one of the most important factors in the fight—Regina Leader.

Grenfell's New Schooner

The new auxiliary schooner George B. Cluett, recently built at New York for the Grenfell Association, arrived at Boston on Thursday on her way to Newfoundland. The vessel's hold is filled with provisions, medical supplies and books donated for the settlement. W. R. Stirling, of Chicago, a friend of the Grenfell Association will embark at Boston with his two daughters and two friends. The party will disembark at Foinaven, Labrador, and the vessel will then continue to St. Anthony to unload her cargo. The Cluett was built to replace the old packet Lorna Doone, which has engaged in the trade up to now. She is fitted with two Wolverine engines using gasoline and kerosene for auxiliary power when the sails are useless. Captain C. Mille, who has had considerable experience in Arctic waters, commands the Cluett.—Herald, Aug. 7.

GET THE HABIT—Read Guardian advertisements. It will profit you.

It is almost as difficult for a girl who is poor and plain to get into smart society as it is for a rich man to crawl through the eye of a needle.

Now Cured of Rheumatism

Cost him \$100.00 for medicines which failed—Cured by DR. CHASE'S KIDNEY-LIVER PILLS. Mr. James Clark, Malton, Sask., writes: "I suffered for four years with rheumatism in my shoulders and could not lift my arms above the head. I tried nearly all the advertised remedies but none of them gave me relief. It cost me at least \$100.00 for medicines before I used Dr. Chase's Kidney-Liver Pills. "With the use of this medicine, I soon found relief. I followed up this treatment for six months and was then quite free from rheumatism. While using Dr. Chase's Kidney-Liver Pills I also used Dr. Chase's Backache Plaster when so stiff that I could scarcely bend. They always found the weak spot and gave relief while the internal treatment was bringing about a thorough cure." The success of Dr. Chase's Kidney-Liver Pills has been phenomenal. One pill a dose, 25 cents a box, at all dealers or Edmondson, Bates & Co., Toronto. Dr. Chase's Recipes will be sent free on request.

NEWFOUNDLAND POSTAL TELEGRAPH SERVICE.

POSTAL TELEGRAPH OFFICES are operated throughout the Colony at all the principal places. Messages of ten words, not including address or signature, are forwarded for twenty cents, and two cents for each additional word. A Government cable to Canso, Cape Breton, connects with the Commercial Cable Co.'s system to all parts of the world. There is no more efficient Telegraph Service in existence. A ten word message to Canada, exclusive of signature and address, costs from 85 cents to \$1.00. A ten word message to the United States, exclusive of signature and address, costs from \$1.10 to \$1.50. To Great Britain, France or Germany—25 cents per word. Telegrams are transmitted by means of the Wireless Service during the summer season, and all the year round on Steamers equipped with the wireless apparatus, which are due to pass within the radii of the wireless stations at Cape Race and Cape Ray. Telegraph messages may be obtained at all Post Offices and from Mail Clerks on Trains and Steamers, and if the sender wishes the message may be left with the P. M. to be forwarded by first mail to the nearest Telegraph Office free of postage. H. J. B. WOODS, Postmaster General. General Post Office, St. John's, Nfld., Nov., 1909.
