HOUSE OF ASSEMBLY.

NOTICE OF MOTION. HON. MINISTER OF FINANCE To move that supply be granted to His Majesty. In the absence of the Hon. Minister of Finance the Hon. the Prime Minister moved that supply be granted His Majesty.

HON. PRIME MINISTER stated that the Railway was being operated by Mr. Russell, and that no commissioners have been appointed; also that it was the intention of the Government to continue this system for the immediate present, and that in advance.

Great Britain, etc., \$1.50 per year, postpaid. All subscriptions payable in advance. no steps had been taken as yet for different system of operating.

HON. THE PRIME MINISTER stated that it was proposed to open on September 1st; he could not say on September 1st; he could not say line for 1st insertion, 5e a line for how many teachers would be englished subsequent insertions. Special prices gaged, probably about the same number as formerly. He informed Mr. Grimes it was not preposed employ or engage teachers outside of Newfoundland. He also said that if the Carnegie Fund of \$15,000.00 was available a junior college could 50 cents per insertion. Notes of the run in connection with the Northanks and Lists of Presents, 50c he run in connection with the Normal School for a further sum of \$4,-000.00 whereas now the cost was about \$6000.00.

THE HON. THE PRIME MIN-ISTER replied that at present it ments must be paid for at the time was not the intention to operate the of insertion. The number of insertions must be specified. Watchful on Bonavista Bay, but as soon as certain repairs which are now being effected on the Govern- Bay Roberts, Friday, Aug. 1, 1924, ment wharf at Port Blandford were empleted the Malakoff would take up the old Clyde route.

MR. SCAMMELL asked the Hon. Minister of Posts and Telegraphs if the S.S. Earl of Devon had been cngaged to undertake certain cable work, and if so, to state (a) for what work in particular she has been engaged (b) at what rate per day

had she been engaged. THE HON. MINISTER OF POSTS AND TELEGRAPHS replied that the S.S. Earl of Devon was Dame Bay and Green Bay, and that

ate of \$450.00 per day. ADDRESS IN REPLY MR. GRIMES spoke to the motion of the Address in Reply to the speech from the throne. He con gratulated the speaker upon the high

office conferred upon him. The Labor bureau at present in existence is not giving setisfaction. This is a situaton that should be remedied by the Government. In connection with the establishment of the industries such as the Gander as to labor. He hoped that economy would be practiced in the right direction. As to amending the Prohibition Act there is no authority to do so without consulting the people who put it on the Statutes and the whole question should be submitted biscite. Dealing with the establishment of new industries; Mr. Grimes, hoped to see herring factories opened not only at the northward but in Placentia and other bays and every assistance given this project as is done in Norway. Great benefit would be derived from

the opening of such factories. MR. DUFF, member for Carbon ear, congratulated the Speaker on his appointment and the Mover and Seconder of the Address in Reply and went on to deal with the necess sity of improved roads in Conception Bay. He pledged his support to the Prime Minister in his efforts co clean up and congratulated the Minister of Finance on his vigorous efforts to institute economy. In connection with the tourist traffic he touched on the enviable position o the island right in the mouth of the gulf of St. Lawrence, and the beauty of the climate in the Summer time. He next brought up the mat-ter of women suffrage. He thought it ridicuolus that half imbeciles should be allowed to vote while intelligent women were deprived of this privilege. Another point which he brought up was in connection with the running of the trains. In Carbonear where the train is supposed to arrive at 10.30 it did not arrive last Sunday night until midnight. When it is considered that people have to move from one train to another at one, two or three o'clock in the morning a serious accident is bound to happen. (To be continued.)

SERIOUS FIRE AT CAPLIN COVE.

Forest fires at Caplin Cove and vi-cinity on Monday last were disastrous to many living at that place. There are several cases where houses, shops, barns and traps be- You must fearlessly fight for it, longing to the same person were totally destroyed. All the victims and very little clothing was saved.

The fires are supposed to have been caused by careless berry-pickers who did not extinguish their fires.

The test of man's merit is troi.
