LOCAL LODGE WON THE PRIZE IN COMPETITION FOR K. OF P. TEAM WORK

Business Transacted at the
Sittings Held Yesterday
Afternoon.

(From Thursday's Daily.)
The team competition, which was won
by the local lodge Far West No. 1, was
the work of last evening's session of
the grand lodge of K. of P. and kept
the gathering well on to 1 a. m. this
morning before the contest was brought
to a completion. The scores of the
contest were Far West lodge No. 1, 178
points; Mt. Pleasant lodge No. 11, 178
points; Nelson No. 25, 177½; Victoria
No. 17, 175½, and Nanaimo No. 4, 150½.
The result was greeted with cheers and
great enthusiasm. The small margin
covering all the competitors shows that
the contest was a very close one and
from the narrow margin of a quarter
of a point separating the first and
second teams shows that the winners
had to do good work to win. The Far
West lodge gets first prize of \$100,
while the second of \$50 goes to Mt.
Pleasant team, which was assisted
by its now famous drill team and gave
a fine exhibition of floor work with
musical accompaniment. The Far West
team had the assistance of the lime-
light gaining many fine color effects.
The judges who were in charge of the
event were E. S. H. Winn, Rossland;
C. E. Strickland, Enderby; Noble Binns,
Trail; C. F. Nelson, New Denver, and
J. Mahoney, New Westminster.

At the continued session of the grand
lodge of the great domain of British
Columbia Knights of Pythias, held yester-
day afternoon, the members who at-
tended the conference were kept busy
right up till the time of adjournment
at 8 p. m. and transacted business that
has an important bearing on the work
of the lodge of which the division of
the province into seven districts and
the decision to appoint seven deputy
grand chancellors to supervise the dis-
tricts and lighten the work of the
grand chancellor; the question of dis-
missing certificates and the empower-
ing of the grand chancellor to insti-
tute new lodges wherever he may deem
it advisable, were the most important
matters dealt with.

At the commencement of the work
four P. C.'s were honored by having
the grand lodge rank conferred upon them.
Bro. Maclellan and Bro. Hawkins, re-
presenting the insurance department,
then addressed the members present
on that matter. Their addresses were
fully comprehensive of the workings of
the insurance department and speech
was made by them of the new
fifth class ratings. The addresses
were given in an eloquent manner and
greatly appreciated by those present
who, at the conclusion of the address,
tendered the speakers a hearty vote
of thanks.

G. K. R. S. Bro. Pfender was in-
structed to send a suitable reply to
Jacob D. Block, grand chancellor of the
order at Mobile, Alabama, in response
to the following telegram received yester-
day afternoon and applauded en-
thusiastically as read:

"Mobile, Ala., May 13.
"To the Grand Chancellor of the K. of
P. Victoria, B. C.

"Alabama Knights send fraternal
greetings to your brothers in the far
north, hoping that your deliberations
may benefit not only your own do-
main, but the order universal."
The meeting defeated the resolution
of the grand chancellor that the elec-
tion of officers take place on the first
day of the grand session. The election
will therefore take place to-day.
A resolution in favor of having a
code and a key for the unwritten
work of the ritual for use of members,
was carried. After an animated dis-
cussion on the dismissal certificates, a
resolution favoring the supreme repre-
sentative working to have the supreme
lodge leave the whole matter of fees to
the subordinate lodges was carried.
The question of uniform medical
examination for use among the lodges
was thoroughly discussed and a resolu-
tion to leave the matter entirely in
the hands of the subordinate lodges
carried.

It was resolved that the grand chan-
cellor, at the time being in office, be
instructed to file the supreme lodge at
its meeting in Boston during next
August, testifying to the appreciation
of British Columbia on the honor con-
ferred upon Bro. Binns, of Trail, in
making him supreme master at arms.
The convention adopted a resolution
to support the grand chancellor in any
action he may take in instituting new
lodges wherever he may deem advis-
able.

Following on the carrying of the resolu-
tion for the division of districts, the
dividing districts were named: Van-
couver Island, the Lower Mainland,
Okanagan, Spokane, the Kootenai district,
Boundary and East Kootenay. The
convention then adjourned until 9 a. m.
this morning. During the afternoon a
short intermission was taken for re-
freshments at the invitation of the en-
tertainment committee and for the
purpose of being photographed.

flavor.

FISHERY OVERSEERS.

Provincial Government Has Made Ap-
pointments to Carry Out Its
Regulations.

(From Thursday's Daily.)
The provincial government yester-
day appointed officials to supervise the
new regulations to be put in force
with respect to the Provincial Fish-
eries Act. The officials appointed were
as follows: Samuel North, ex-chief of
police of Vancouver, whose headquarters
will be at the Terminal City and gen-
eral supervision of the Fraser river
district; T. G. Wynn, of Vancouver,
who will act in the same capacity
among the fishermen and canneries of
the Skeena, S. S. Barnes, of Nanaimo,
who will cover the Fraser inlet section,
and Charles Hickman, of Atlin, who
will act as fisheries overseer on the
Nasas River. Each of those mentioned
will have the powers of provincial con-
stables. The chief constables at Na-
naimo, Alberni and Alert bay will also
act in a similar capacity.

All provincial constables will be in-
structed to carry out these officials in
every way possible.
It was agreed also to have a strong
effort made to see that the liquor law
was enforced so as to meet the wishes
of the canneries owners.
The new officials will enter on their
duties at once.

MURDEROUS ATTACK.

Vancouver, May 13.—Lola Radre, a
Portuguese, this morning carved up a
Portuguese woman named Sanda.
Radre used a razor and cut the woman
in a dozen places.
Screaming and covered with blood
from head to foot, she ran from her
house. Before the police arrived Radre
had cut his own throat and will prob-
ably die. The woman will recover.

CEDDIO MURDER CASE.

Nelson, May 13.—Mr. Justice Clement
has concluded the Assizes here, and
to-day heard the only case on the list
at Rossland. On the 28th Justice
Clement will open the Assizes at Green-
wich where the Ceddio murder case
will come up, and on the same date
the Fernie Assizes will open, it is said,
before Justice Irving, when the Mullen
murder trial will commence.

USED RIFLE BECAUSE INTERRUPTED COURTING

Joseph Buice on Trial for
Causing Death of Phillip
Massender.

Vancouver, May 13.—Cupid on the
veranda of 444 Barnard street was the
cause of the random shooting last
February which caused the death of
Phillip Massender, for which offence
Joseph Buice was placed upon trial to-
day. The crown at adjournment had
closed its case. The case will go to the
jury this afternoon.

The most interesting witness for the
crown was Henry Geilbhoft, Buice's
rival for the hand of Viola Martin.
"I came home with Viola that night
from a Salvation Army meeting, and
cording to the evidence, died
said Henry difficult English, being
a Norwegian not long out from his
native land.

"Buice came to the door and said he
was a 'Skidoo, or I'll blow your brains
out.'"

A few minutes later Buice had re-
appeared with a rifle, and as Henry
fled, Joseph followed.

Reaching Jackson avenue a young
man came out of the Massender house
and cried "Help, help, some one has
shot my father."
The witness said he had responded
to the call, lending what assistance he
could. The bullet had gone through
the house striking Massender, who, ac-
cording to the medical evidence, died
from hemorrhage following the shock.
"Were you making any improve-
ment to the girl?" asked Mr. A. J.
Russell, counsel for Buice, tall, thin and
dark, bearing the appearance of a
French-Canadian.

"No, I was not. Unless if the evidence
is relevant," objected the court, "but
I fail to see the relevancy of this."
"I am taking this course after full
consideration," returned counsel.
"You take your risk," replied the
court.

"I don't know; I don't remember,"
was the answer of the witness.

"How many times have you been
to the house?"

"Did you not tell the Martins that
this was the third time in your career?"

"Not that I remember."

"Did you not try to induce this
young lady to go with you to Edmon-
ton, and later to the United States?"

"No, not that I remember."

"Did you ever hit Buice?"

"No."

"Ever cut him in the chin?"

"Not that I remember."

"Did not a man once attack you with
a razor?"

"No, it was with a knife."

Geilbhoft denied that he was an un-
welcome visitor, and that he ever tried
to borrow money from Viola, at least
not that he remembered.

But the tenor of the evidence of Mr.
and Mrs. Martin was that the visits of
the son of Norway were not pleasing.
Buice had boarded with the Martins
for two years and his attentions seem-
ed to be very favorable.

The rifle had been jointly purchased
by Mr. Martin and Buice, who intend-
ed to go cruising for land for a ranch
since purchased near Fort Moody. The
father had heard Buice go to the door
with the rifle, saying "I'm going to give
him a scare." Martin did not think
the rifle was loaded, and so made no at-
tempt to follow them. When Buice re-
turned he had said to Mrs. Martin,
"For heaven's sake who loaded the
gun?"

Deputy Attorney-General McLean ap-
peared for the crown.

The following compose the jury:
James W. Berry, Arthur P. Griffin, J.
N. Murchie, William Houston, George
Schifford, John P. May, James Eadie,
Charles H. Cuthbert, John T. Cottingham,
Walter J. Edmonds, H. T. Harvey and
James Hoskin.

EAT ORANGES

IF YOU WANT TO KEEP WELL.

Careful tests have proved beyond
question that orange juice has clearly
defined medicinal virtues. Those who
suffer with indigestion—are compelled
"to diet"—and that after eating oranges
regularly for breakfast there is no dis-
tress, no palpitation.

Where there was a tendency towards
constipation, the eating of oranges
regulated the bowels.

In skin troubles, those who began the
morning meal with an orange were no-
ticeably improved.

There is, however, a quicker way to
get better results. This is to take one
or two "Fruit-a-tives" tablets at bed-
time in addition to the juice of an
orange before breakfast the next morn-
ing. "Fruit-a-tives" are the juices of
oranges, apples, figs and prunes, in
which the medicinal action is many
times intensified by the special way
of combining them. Valuable tonics
are then added.

Take the juice of an orange before
breakfast—take "Fruit-a-tives" at
night—and you will quickly be rid of
Indigestion, Stomach Troubles, Consti-
pation and Biliouness. "Fruit-a-
tives" are sold by all dealers at 50c a
box—six for \$2.50. Sent on receipt of
price by "Fruit-a-tives" Limited,
Ottawa.

ROUTINE WORK BEFORE BOARD

TRUSTEES TO DISCUSS
SCHOOL SITES LATER

Plans Submitted to Meeting for
Two Single Room
Buildings.

(From Thursday's Daily.)

Although there was a fairly large
docket of business before the school
trustees at their annual meeting last
evening few matters of importance
were dealt with. Chairman Jay was
unable to be present and, in his ab-
sence, the chair was occupied by
Trustee Riddell.

A request from a teacher for per-
mission to commence her holiday on
June 15th, instead of a week later, in
order to avail herself of cheap ex-
cursion rates to the east was re-
ceived and provoked some discussion.
The board decided that to give per-
mission in one case would amount to
discrimination if further requests of
a similar nature were not granted, and
decided that teachers must complete
their term work. The request was
therefore refused.

Corporal punishment also occupied
the attention of the board and it was
decided that only one strap would be
allowed in each school and that every
scholar punished by it should be char-
tized by his teacher before the prin-
cipal.

A number of sites were offered to the
board at varying prices to be used for
school purposes, but it was decided to
hold a special meeting at which these
will be discussed.

The board considered the Victoria
Day celebration in its relation to school
holidays and will ask the school board
of education to allow a public
school holiday on the 26th on which
day the continuation of the celebra-
tion will be in.

Lee Chang, a Chinese teacher at the
Presbyterian mission, applied for a
permit to attend school. As he is con-
siderably over school age the board
refused his application.

On behalf of the building and grounds
committee, Trustee McNeil reported
that he and other members of the com-
mittee had made visits to the Victoria
West school, now in process of con-
struction, and found work progressing
satisfactorily. The school would be
ready for use at the opening of the
next term and the main hall could be
used for doing exercises at the end
of this term.

The trustee made a suggestion to the
effect that members of the buildings
and grounds committee inspect the
schools in the holidays and decide
upon what permanent repairs are need-
ed at each one.

Accounts totalling \$845.72 were pre-
sented by the finance committee and
ordered paid. Trustee Staneland made
a suggestion, prompted by a reference
to some incorrect account, that a no-
tice be published in the newspapers
informing trustees that no account
would be paid unless the order was
signed by the secretary of the board.

Plans for two single-room schools, in
addition to plans for the projected ad-
dition to the Kingston Street school,
were submitted by Messrs. Hooper &
Watkins. The single room schools are
to be used in place of portable
schools. Tenders will be invited for
the construction of the Kingston
Street addition and the two single room
schools the total cost to be not more
than \$6,500 which sum was set aside
by the city council for this work.

It was decided to call for applications
for the position of medical inspector to
the public schools for which position
the council has appropriated a salary
of \$50 a month.

The suggestion advanced by Mrs.
Jenkins that one large concert should
be given this year by the pupils of the
schools on May 22nd instead of the in-
dividual efforts previously in vogue,
was adopted. It is probable that the
drill hall will be used for this concert.

A communication was received from
the superintendent of education grant-
ing the board permission to hold half-
day classes in the lower grades at
Kingston Street school. This step has
been found necessary owing to the
overcrowding of the school.

A number of other matters of minor
importance were also dealt with.

—Last evening the death occurred
at the family residence, 571 Henry
street, of Norma, second daughter of
Henry W. Panny Dodd. The de-
cessant was three years of age. The
funeral will take place at 2:30 o'clock
to-morrow afternoon from the home.

DOUKHOBOERS IN B. C.
Advance Guard Numbering 85, Arrives
at New Colony in Columbia
River District.

Nelson, May 13.—Eighty-five of the
Doukbohors for the new colony at
Waterloo, on the Columbia river, ar-
rived at their destination to-night. A
party of Russian and Polish farmers
under the direction of the B. C. Col-
onization agency have arrived and set-
tled on part of the six thousand acres
purchased by the agency near Fair-
vale, to the south of Nelson. The set-
tlers will in time own their ranches of
B. C. E. R. and the bride a well known
resident of Fairview. Mr. and Mrs.
Hawkins left on the afternoon boat
for a honeymoon trip to Victoria, and
for their return will reside at 85 Four-
teenth Avenue West, Fairview.

COWICHAN LAKE BRANCH LINE

E. & N. MAY BUILD
NORTHERN SHORT LINE

If Timber Men Will Make Use
of Road Construction
Will Begin.

There is now more likelihood of the
Cowichan lake branch of the E. & N.
railway being built. The company is
prepared to undertake the work just
as soon as the lumber companies own-
ing lands in the valley are prepared to
give assurances that they will finish
the line with the carrying of the logs
to the mills at the coast.

At the present time the method of
transportation on the island, and for
the primitive one of floating them down the river
at the time of high water. This way
of doing the work is not regarded as
an economical one. On the contrary, it
is attended with very heavy loss in the
course of the year. A large number of
the logs get stranded and it is an ex-
pensive operation to liberate them.
Donkey engines are even now in use
to set the logs free from becoming em-
bedded in the sand along the course.

In spite of all that is done there is a
heavy loss to the companies. To over-
come this the best system would be to
ship the logs to the mills by rail. This
means for doing this the E. & N. is
prepared to provide. If the timber
companies will use the line the cost
in the opinion of railway officials, it
would be no more than what it is at
present, when the loss is taken into
account.

In other ways there would be ad-
vantages in having the logs carried by
rail. The floating of logs is attended
with heavy loss in connection with the
fish life. The spawning beds are in-
terfered with and the supply of fish
materially curtailed. The C. P. R. is
interested in preserving the Cowichan
fishing grounds and for this reason it
is anxious to have the depletion occa-
sioned by the floating of logs down the
stream done away with.

The company is looking forward to
making the Cowichan river one of the
great attractions on the island, and for
this reason seek to do away with any-
thing which will destroy the fish there.

The timber resources of Cowichan
valley are second to none on the island.
R. Marpole, general executive assistant,
who has come into close touch with the
various parts of the coast, says that
the timber of that portion of the island
is unexcelled. Removed from the ef-
fects of the storms which sweep in from
the coast, the growth of the timber
develops to its fullest, free from flaws
which are so often found in trees in
coast limits.

The timber resources of the valley
are sufficient, it is estimated, to pro-
vide freight for the branch line for a
quarter of a century. Under all the cir-
cumstances it is more than likely that
an arrangement will be arrived at
within a short time whereby the branch
to Cowichan lake will be built.

The line would be a great boon in the
way of transit travel. The attractions
which the lake have are at the present
time known only to comparatively few
owing to the fact that the means of
reaching it are too expensive and too
slow. With a railway line in existence
there would be a heavy trade built up.

BOY MEETS SAD DEATH AT METLAKATLA

Thomas Carlton, Capsizing in
Canoe, is Seized With
Cramps and Drowns.

Prince Rupert, B. C., May 10.—A sad
drowning accident occurred on Friday
afternoon at Metlakatla, five miles from
here, when Thomas Carlton, aged 11,
lost his life. While paddling with a
companion near the shore their boat
grounded on a rock. As young Carlton
got out, the boat slipped off, leaving
him stranded and the tide rising. His
companion, a mere child, being unable
to handle the boat and bring it within
his reach, Carlton stripped and made
for the shore, but when half way, took
a cramp and was drowned. An older
brother, 20 years of age, was drowned
in the Skeena a year ago.

MAN'S MOST CRITICAL AGE.

Very often the vital resources are
small at forty-two, but if not then
between fifty-seven and sixty-two years
of age there is a strange slowing down
and loss of vitality. It is important
that this transient period of decay
should be checked; strength must be
imparted to the tired brain, the weak-
ened nerves must be fortified. The wise
man will use Ferrozene whose potency
is particularly applicable to these
critical periods. Ferrozene quickens
the whole being, imparts vigor and
braves back the old and restores vir-
tually in a very manifest way. It's be-
cause Ferrozene gives strength, vital-
ity and vigor that it is useful to old
men, try it. Price 50c.

HONEYMOON IN VICTORIA.

Vancouver, May 13.—Mr. Charles
Hawkins and Miss Elizabeth Snider
were united in marriage yesterday
morning by Rev. J. Hicks. The groom
is a motorman in the employ of the
B. C. E. R. and the bride a well known
resident of Fairview. Mr. and Mrs.
Hawkins left on the afternoon boat
for a honeymoon trip to Victoria, and
for their return will reside at 85 Four-
teenth Avenue West, Fairview.

SEEKING REDUCTION IN EXPRESS RATES

Thomas G. Earl, the Fruit
Grower, is Interesting Him-
self in the Matter.

Thomas G. Earl, of Lytton, one of the
best known fruit men in this province,
is in the city. He is making a tour of
the coast in the interests of a reduction
in the express rates on fruit from British
Columbia points to the prairies. He
contents that the rates are far in ex-
cess of those charged in the United
States. Under the circumstances he
points out that the fruit growers of
British Columbia are severely handi-
capped. Owing to cheaper labor and
other circumstances the growers in the
adjoining states of the union are able
to sell cheaper than the British Colum-
bia producers. With lower express
rates the handicap is still greater. Mr.
Earl will attempt to interest all dealers
and producers in the movement for
better rates.

Speaking of conditions about Lytton
he says that the fruit crop promises
well in common with the conditions
generally prevailing in the province.
His own orchard, which now embraces
forty-five acres, looks remarkably well.
Mr. Earl has been engaged in the
fruit growing industry for well on to
fifty years, and is accordingly one of
the best informed on the subject in the
province. For many years he was a
member of the Provincial Board of
Horticulture.

IRONCLAD OVERALLS

MADE OF STANDARD QUALITY DENIM
