ources of the Nile and the rather Placide de Saint-cincipal of the monastery of order of St. Francis, by The report does not men

MAN STREET SCHOOL -- Traveller find the street scenes in German towns peculiar and noticeable. Single cows en are harnessed and worked e horses. One is surprised at the go size and physical strength of the men, who seem to perform the prinportion of the physical labor; those of their husbands not per-ly engaged in smoking and beer nking, are either soldiers or police.

M. Girls and dogs are harnessed to-ther into milk carts, and horses are gether into milk carts, and horses are harnessed to a single pole, in place of being between two shafts. The women, as a rule, are not becautiful, nor even comely. Undoubtedly there are pretty Marguesites, hidden away somewhere, with their long braids of blonde hair, but they certainly do not much abound. On the other hand, there are to be found very lew beggars or drunken people. As air of thrift arranged one on all sides.

EFFECE OF LIGHTSING ON A TELE-EFFECT OF LIGHTSHIE ON A TREF-FROME.—On Sunday morning, when the sudden flash of lightning was seen, and was followed by a sharp peal of thunder, Dr. John A. Stevens was using the tele-phone artunding from his bome on High-street to the drug store in the Hotel Capitol. The clerk at the drug store and his seen at the tube, listening for had his ear at the tube listening for a communication from the doctor, when, ALLEN'S simultaneously with the peal of thunder, he received a severe shock in the ear, the report sounding like the discharge of a gun. His power of hearing was more or less affected all day. Dr. Stevens saw a flash of electricity play about his end of the instrument, and on ex-amination, it was found that the delicate insulated wire had been entirely troyed by the lightning. Had the last been speaking at the take at the have been dangerously injured. The owners of the telephone were planning to put lightning arresters on this week, and Sunday's warning will no doubt hasten the precautionary measures.-Hartford Beening Post, March 4.

WHITEWASH FOR POULTRY. - Without a free use of whitewash no poultry bree-der can expect to keep his fowls healthy for any length of time, and to a neglect of this can be attributed many of the disappointments and much of the loss experienced by amateurs, who do not realise, until they have paid dearly for their experiences, that cleanliness is one of the first principles of success in poultry keeping, and that lime, in dif-ferent forms, is an invaluable agent in promoting cleanliness in poultry houses and amongst fowl. Where it can be done, without too much expense, we would advise persons, in building their poultry houses to use planed boards— at least, planed on the inside—in pre-ference to rough ones, for it is far easier smooth boards are used, while the lice and other vermin cannot so readily find a lodging-place. As a preventive is cheapes and better than a oure, we would advise those who build a poultry house to give it a good whitewashing, both inside and out, before the fowls are let inside. To make the whitewash still more distasteful to the vermin which have such a fancy for poultry, mix a small quantity of carbonic acid with the wash, stir it well till it disactives, and then apply. It is not injurious to the fowls, but is to vermin, and at the same time is a deodorizer and desinfectant. N. Y Independent.

THE NEW LONDON FASHIONS, -- A very new handsome shape for dresses is called the Queen Elizabeth bodies. It is very high at the back, forming a high collar at the neck; in front it is very low, and square; the sleeves are puffed, and some down to the elbow; the bodice reminds one much of the dresses worn in Charles IX.'s time, or of the costumes of the Holbein portraits. A chemisette of crape lisse, or talle, or embroidered muslin is worn with this new bodice; a new ornament at the side of the cut-out bodice is a small humming bird, arranged with lace.

The linen drapers show a great many novelties in dinner-napkins and table cloths; the borders are embroidered, and then fringed, either with imitations of coloured Russian embroidery, or English open-work embroidery; for af-English open-work embroidery; for afternoon or evening tea, or for breakfast, these fancy lines novelties look very well. I find, that the first dinner-clotha used by the Romans were made of wool, under the Emperors of Rome; linen, and also silk, embroidesed with gold and silver, were the fashion, so-cording to "La Mosaique." It was only after Augustus, that the host offered naphins to the guests; before his time, the invited company brought their naphins with them. The chief reason for changing this enstonn was, that the alsaves who took them back were aften suspected of stealing, and carrying off valuables with the soiled linen. Refore the use of naphins at feasts, in Rome, a wet sponge was peased round after eating and bread-crumbs were used for drying the fingers; these latter were thrown to the dogs. STRUCTURE. Medical.

St. John. N. B., Sept. 11, '77. TO THE

FARMERS OF MIRAMICHI. We have been Manufacturing IRON FRAME MOWERS fer the last four years, and are now offering to the

BEST MOWER combining greater 'excellence of mechanical simplicity together with greater durability and entire reliability for all the requirements of the field, than any other Mower extant.—In construction they are similar to the celebrated Watter A. Wood's Iron American Machines. Of the former there are over 200,000 in use, and the Extraordinary number of 20,000 were manufactured and sold last season, by the Wood Company of United States. We have over 500 of our manufacture now in use, every one of which (no exceptions) stands as a monument of the grand and unprecedented success of home manufacture and our enterprise. A flat of our Agents in this section of the Province will be found appended, and farmers are requested to sak information of thesis relative to our stowers in use in their; respective localities, which will establish beyond doubt their unquestionable superprity over any other mower to be had in our market.

The facility of procuring all parts or pieces within a nominal length of time must show beyond the shadow of a doubt the claims such an enterprise has upon the farmers of the Maritime Provinces.

For the coming harvest of 1877 we will manufacture LARGELLY in excess of our numbers of 1885 season, and trust that our grow-Public Notice is hereby given that appliestion will be made at the next Session of the Legislature of this Province, for the passage of an Act to vest in the Trustees of Sains Andrew's Church, Richibucto, in connection with "The Presbyterian Church in Canacia." Certain hands in the Parish of Welford, in the County of Kent, herstofore granted to the Trustees of said Saint Andrew's Church, when in connection with the Established Church of Scotland, and to anthorize the safe thereof, and the disposition of the proceeds a rising from such sale by the present Trustees or their successors, in such manner as the said Trustees may deem advisable. has upon the farmers of the Maritime Provinces.
For the coming harvest of 1877 we will manufacture LARGELY in excess of our numbers of least sesson, and trust that our growing enterprise may find such inducements held out to it as will be commensurate with its merits.

Let it be remembered we bave no hesitation at all times, in entering into a friendly competition in the field with any other machine in our market.
WEGUARANTES OUR MOWERS TO BE INFE-BIOR TO NONE. Farmers would do well to enquire prices and terms before purchasing elsewhere.
