SUSSEX, N. B., July 23.-Robert D.

Robinson, late editor of the Kings Co. Record, died at his residence this afternoon. He was born in 1834 at Eigin, Albert Co., N. B. He was a son of John Robinson, a native of Lancaster England, and when a young man he qualified as a school teacher, which he followed for some years. Afterwards he engaged in mercantile pursuits at Eigin, but gave this up for school teaching again. He was appointed inspector of schools for Albert county when the free school system was first established, and held the position until 1881, when he went with J. and W. F. Harrison as manager of their store at Eigin. In 1883 he came to Kings county, locating at the Piccidally spool works near Penobsquis, which were owned by the Messrs. Harrison, which he managed until 1891. In the latter year he removed to Sussex, where he purchased the Susex Record. Shortly afterwards he established the Maritime Farmer. He had been in failing health for about four years, the last three of which compelled him to retire from active work. He was a member of the Methodist church. His wife, who was a Miss Stiles, daugher of Robert Stiles of Mapleton, Albert Co., survives him, as does also a daughter, Laura B., and a son, Howard P. The funeral takes place at 10.30 a. m. on Friday next, the interment being in Kirk Hill cemetery, Sussex. Robinson, late editor of the Kings Co ecord, died at his residence this af-

# ROYAL VISITORS.

Citizens Planned This Morning for Their Reception

A Number of Suggestions Were Made - A Levee in the Evening Will Probably Be the Principal

At the citizens' meeting in the mayor's office this morning to plan for the reception of the Duke and Duchess of Cornwall and York, there were present among others: Lt. Col. Markham, D. R. Jack, Lt. Col. Tucker, M. P., W. M. Jarvis, A. H. Hannington, G. Sidney Smith, Heber Vroom, Geo. Blake, Ald. W. W. White, Ald. Mc-Mulkin, C. Flood, Hon. H. A. Mc-Keown, Ald. Robinson, Sheriff Sturdee, Hon. Wm. Pugsley, Lt. Col. Jones, Edward Sears, P. S. McNutt, Major Sturdee, W. Wallace, Ald. Waring, Jarvis Wilson, A. O. Skinner; G. S. Mayes, R. W. W. Frink, Col. Cunard, C. A. Clarke, Hon. A. T. Dunn, Ald. Armstrong.

C. A. Clarke, Hon. A. T. Dunn, Ald. Armstrong.

Mayor Daniel explained that he had called the meeting for the purpose of talking over the plans for the reception of the royal visitors. It would be a very important event for the city. Forty years ago the Prince of Wales visited St. John, but this would perhaps be attended with more state and ceremonial than the former occasion on account of the circumstances which surrounded the event. His worship wished those present to express their views and then to appoint a committee to act with that already appointed. Hon. W. Pugsley said that the information now at hand would be that the royal party would sail from Hallthe royal party would sail from Hali-fax on the 21st of October. They would

Hon. Mr. McKeown said that the party would probably arrive on the 17th or 18th, and stay here a day and a half. They would come at moon and leave on the evening of the following

day.

Mayor Daniel said that one thing all would be agreed upon would be a thorough decoration of the city. While the corporation would do a great deal itself, the merchants might combine to erect arches and decorate their buildings.

A. O. Skinner was then appointed secretary of the meeting.

Lt. Col. Tucker thought it would be well, considering that the reception would cost a good deal of money, to ascertain how much the government would contribute.

would cost a good deal of money, to ascertain how much the government would contribute.

Hon. W. Pugsley said that the feeling of the government was that they should look after the entertainment of the visitors and if there was time to bear the expense of showing the visitors the river St. John. He wished to know if any portion of the expense would be borne by the dominion government. However, the city could feel that the local government would assist. So far as decorating, fire works and So far as decorating, fire works and the like, they would fall properly un-der the sphere of the city's work. Mayor Daniel, in reply to E. Sears' question, stated that the local govern-

ment had appointed a committee to sary to have a committee from the

citizens sub-divided to look after the various parts of the entertainment. The appointment of the committee should be the first thing done. W. M. Jarvis believed that it was hardly possible to go into details now, and he favored Mr. Sears' suggestion. St. George's Society had appointed two members to give any assistance needed. He moved that 'a citizens' committee be appointed to act with that from the local government and the common council.

common council.

Hon. Wm. Pugsley suggested that, as the meeting was not large, it might be as well to appoint a small nominating committee.

The suggestion was adopted by Mr. Jarvis.

Jarvis.

Mayor Daniel said that the committee which would be appointed would be called together immediately, as there was no time to be lost. He thought that a splendid fire works exhibition could be given at Lily Lake. He wished, however, that suggestions be given by all.

satisfied unlies a revee be field, and however beautiful an illumination of the city might be, it should be made subsidiary to the central feature. The long room at the custom house might be properly filled up as a reception room. Should the royal party remain a second evening the large display of fireworks might be made.

A. O. Skinner thought that if there were a levee St. Andrew's rink would be more central and generally better fitted for a reception room. It would have the advantage of accommodating more people, and the same amount of money spent on it that would be necessary to fit up the long room, would make it a handsome place for holding the reception. At its close an exhibition of fireworks might be made on the Barrack Square. If, however, the fireworks were the main feature the lake and park would be the best place.

Col. Markham agreed with Ald. White that a levee should be made a central feature.

Mayor Daniel suggested that time must be taken for the presentation of medals to the South African soldiers.

A. H. Hanington said that if a display were to be made at the park the Association would like to know as soon as possible, in order that they might do the necessary clearing up.

Edward Sears suggested that the reception might be held at mid-day instead of the evening. The number of people who could attend in evening dress would not be commensurate with the aumber who would desire to pay their respects. He also believed that the park commissioners should hand

Mayor Daniel asked the military men present as to the best place for presenting the war medals.

Maj. Sturdee said the presentation would be a purely military function, and would probably take place in the open air. He suggested the Barrack Square. A grand stand might be erected to hold one or two thousand people.

Mayor Daniel read a letter from Senator Ellis regretting his inability to attend, and assuring his worship of his assistance in every way possible. The meeting then adjourned. Mayor Daniel will appoint the nominating committee immediately.

South Africa.

The presentation of the freedom of the city of London to Lord Milner, of Cape Town at the Guild hall Tuesday, was made the occasion of a demonstration in favor of the policy of the government in South Africa. Jos. Chamberlain, colonial secretary, the Duke of Devonshire, president of the council, and other cabinet ministers; Lord Cromer, British consul general in Egypt, and Sir Claude MacDonald, former British minister to China were among those on the platform.

Lord Milner, in a speech, said the compromising of the settlement of the South African situation by injudicious concessions must not be thought of, nor should the risk of a popular ris-

### THE STEEL STRIKE

(American Lumberman.)

It has been estimated that if the steel strike is a success the loss to the country in wages alone will be little short of \$2.000.000 a day. This costs more than would a war with a first class European nation. And what great principle is there involved in this strike? None, unless it be as to whether the steel magnates of the Amalganated association run the steel business of the country.
