GLOUCESTER, March 25.—A large school of codfish has struck into Boston bay, and the netters are making the most of their opportunity.

Yesterday was the biggest day of the season, and 60,000 pounds of fresh codfish were landed at Fort wharf, bringing from \$3.40 to \$3.75 per hundredweight. The total catch for the day netted \$2,100, and quite substantial checks were realized by the inshore fishermen.

men.

The high-liner of this fleet yesterday was the little sloop W. H. Clement, manned by Capt. Percy M. Reed and two men, who among them stocked \$425 for their day's work. Others did proportionately well. The Gracie, Capt. Peter Grant, stocked \$900 last week.

No damage has been reported in this section from the recent heavy rails. The river was very high at Kouchi-bouguac for a couple of days. The mail stage was unable to reach the post office, which is situated near the bridge, and the mail bags had to be transferred frim the stage to the office in a boat.

A heavy snow storm prevailed yes terday and the ground is again covered with snow. The main channel is clear of ice. This time last year the river was solid and there was pleaty

of snow on the ground. Nine commercial men came in on

yesterday's train. Wm. Long, who sold his schoon Minnie Long, last fall, has purchased another at Arichat. He left for that

place a few days ago.

Mrs. Robert Beers fell on Water street last evening and dislocated one of her hips.

SALMON CREEK, March 24 .- The heavy freshet has done much damage in this locality, but by timely efforts many of the bridges were saved. The piling which was being driven for the railroad bridge at Chipman was so what torn out of position, and a few barns were destroyed on the meadows, also the abutments erected by Sayer & Holly, to which they had intended to attach booms to inclose their lumber in the mill pond. Quite a number of logs have been left on the yards and the snow being all gone, the lumbermen think there is a poor lookout for stream driving.

News has reached this place of the death of Alexander Baird, formerly a resident of Chipman, but who was a number of years resided in Nashua, New Hampshire. One child survives him. His wife died a few years ago.

ANDOVER, N. B., March 24.—The new organ for Trinity church has been placed in position in the church, and in color of wood and style of finish tiarmenizes with the woodwork of the chancel and makes the church look prettier than ever. On Saturday evening an organ rectal was given. Thos. Rogers of Carlingford presided at the organ and showed to good advantage the tone and volume of the instrument. Mr. Rogers was formerly organist of a large church in England and is a performer of high rank as well as a competent teacher of instrumental music. This community is to be congratulated upon having such an artist as a resident. The following programme was given: Prelude, Facut Portem. Rissini, Rogers; hymns, A Few More Years Shall Roll; O Praise Ye the Lord, choir; Te Deum (T. R. Matthews), choir; instrument, Mozart's Motell, No. 1, Rogers; solo, O Rest in the Lord, Mendelssohn's Elijah, Miss Rogers; anthem, How Beautiful Upon the Mountains, choir; instrumental, Lejus Animacu, Rossini, Rogers; solo, The Hills of God, Mrs. F. Sadler; instrumental, Haistone Chorus, from Handel's Israel in Exypt. Rogers; solo, He Was Despised, from Handel's Messiah, Miss Rogers; Instrumental, Bridal Entre, Bellini, Rogers; hymn, The Radiant Moon, Rev. Edward Medley, choir; postlude, March for the organ, Hall, Rogers. After the recital the choir was invited for refreshments to the residence of D. R. Bedell, where a social time was spent, Rev. The Rev. Bacon Hillock, rector of Trinity church, has tendered his resignation to the bishop, and it is feared he may sever his congregation. Mr. Hillock is an earnest, scholarly and practical preacher and his place will be difficult to fill. He is extremely nopular with all other denominations and place will be difficult to fill. He is extremely popular with all other feacuninations and unites with them in every work of a religious or moral character. Mr. Hillock will be much missed as a citizen, as he is public spirited, affable and generous. It is to be hoped he may yet be induced to remain. The agricultural society held a meeting on Saturday and decided to buy seeds and pigs.

On Saturday afternoon, Fred Betts, son of Geo. Betts, an employe of Ezra Stiles & Son's planing mill, lost three fingers off his left hand, besides the hand being dreadfully mangled and torn. In some way the hand came into contact with the machine, with the result above noted. Dr. S. C. Murray dressed the wounds.

This afternoon, Seymour Steeves of Albert was quite badly hurt, one ear being torn and his face much bruised. Mr. Steeves was on the top of a load of hay which he was driving into a barn, and not being aware of the narrow space between the top of the load and the top piece of the doorway, came violently into contact with the structure.

Dr. S. C. Murray has returned from Toronto, where he had been attending a meeting of the Canadian Home Circle, P. W. F. Brewster and Dr. L. Chapman of Albert have gone to Frederiction in the interest of the bill for the incorporation of Albert for a water

supply and fire protection.

YOU can judge the value of an animal and most articles in commerce by appearance and price. — With Seeds it is different.—Any seed must be valued by what it will grow and not by a "cheap" price.

Poor Seeds are those of uncertain growth and product—they are as valueless as the broken-down mule. It is extravagant waste to use them. "Cheap" Seeds may give greater profit to the seller but the user is the loser.

"GOOD QUALITY" in Seeds is the foundation of worth—it is the result from selecting and improving strains, together with care and intelligence in growing and means success to the user.

Steele-Briggs Seeds are known for their "Good Quality" and "Worth." More of them are sold and used in Canada than any other kind. Buy your Seeds from dealers who sell Steele-Briggs Seeds
