ROLLER SKATES IN LIEU OF STREET CARS

Chicagoans using various means of locomotion pending settlement of Street Railwaymen's strike.

Chicago, June 14.—The first day of the big Chicago street car strike passed without serious mishap. No surface cars were run and only a few trains on the elevated. There was nothing resembling regular service, except on the suburban lines of the steam railroads, and these were far from adequate. A brick thrown through a window of an elevated train was the only violence. The strike was the big question before the regular meeting of the City Council tonight. Various resolutions looking to a settlement were proposed, but nothing was accomplished. All manner of vehicles was pressed into service, even roller skating among some of the younger generation, but tens of thousands walked to their places of employment. The streets had the appearance, except for the general good humor with which the situation was accepted, of the avenues of some city in the war zone from which the population was fleeing. By a vote of eleven to three the finance committee of the City Council decided to take under consideration for two weeks the request of Chief of Police Healey for an emergency appropriation of \$477,364 to employ 1,000 additional patrolmen for strike duty.

WOODSTOCK WOMAN GETS WORD SON IS SERIOUSLY WOUNDED IN ACTION

Special to The Standard.
Woodstock, N. B., June 14.—Havelock James Gillespie, who left here with the Brighton Engineers, First Contingent, was severely wounded on June 13 in France, information having been received to that effect yesterday afternoon from the Adjutant General, Ottawa, by his mother, Mrs. H. P. Gillespie, with the addition that fuller particulars would be sent when received.

Appearance when on parade. At the inspection on Saturday, June 13, Capt. Willis of Halifax, spoke of their work as being most efficient. The health of the school has been good, the only exception being a little outbreak of measles (three cases). The new head master is Rev. W. W. Jones, M. A., who seems to fit well into the vacancy caused by the retirement of F. T. Handsombody, Esq., who was head master from 1897 to 1914, and has taken up the work with an evident determination to make it a success. The change in name is certainly a right move, making the institution to appear what it really is, a feeder to Kings College.

FISHERMEN SAVED.
Boston, June 14.—Seb Harriet brought to port today Capt. Nickerson and three of the crew of fishing schooner Washakie, who went adrift last Sunday. All of the 12 men who were missing have now reached shore.

THE 'BACK TO NATURE' FOOD

Under the leadership of Dr. Harvey Wiley, the famous pure food advocate, the people have learned that the real food value of grains lies in the darker portions—the parts which are eliminated by the modern millers. It is these which build muscle, bone, brain, blood. The white parts are not food—they only produce heat and stimulation. A steady diet of white bread, made of bleached "snow-white" flour, and of refined cereals, causes indigestion and is a prolific source of constipation. Dr. Jackson's "Roman Meal" is the only "back to nature" food. It contains all the dark, nourishing parts of wheat, rye and flaxseed, which is as odorless and tasteless as white flour. It is the coarsest and darkest food known, and can be made into porridge, the most delicious pancakes, puddings and all baked products. It aids digestion and positively prevents constipation. Ask your doctor. All grocers, 10c and 25c.
