Rhodes Scholars Exams, 1905.

To the Editor of The Telegraph:
Sir,—Will you be so good as to announce, in your journal that the examination connected with the appointment of the Rhodes scholars for the year 1905 will be held throughout Canada about the middle of January next, and that the committees of selection or universities making appointment will be expected to furnish to the trustees the manes of the selected scholars during the month of April.

Many of the Oxford colleges complete their entrance lists for October during the summer term, and in order that the scholars may be entered at the various colleges with due regard to their own preference it has been found necessary to fix upon these earlier dates for examination and election. I am communicating with the various colleges interested, but a notice in the press will no doubt reach more specify the individual candidate. Believe me,
