sted.

Following is the method of procedure in putting on a load of Bordeaux mixture and insecticide. The wagon is driven alongside the lower platform to correct position. If power is used to elevate water the pump is at once started. Then the water is started running from the supply tank into the mixing tanks. The lime and copper sulphate solutions are stirred, the proper amount of lime put in one of the mixing tanks, and of copper sulphate in the other. The Paris green or arsenate of lead is then mixed and put in one of the mixing tanks—Paris green in with the copper sulphate and arsenate of lead with the lime. The water is shut off as soon as the mixing tanks are full and while one man stirs the mixture (a separate paddle for each tank), the other places a strainer in the wagon tank and lets...

Another in preparation. A quantity of this solution contains two pounds of copper sulphate, thus giving a unit measurement.

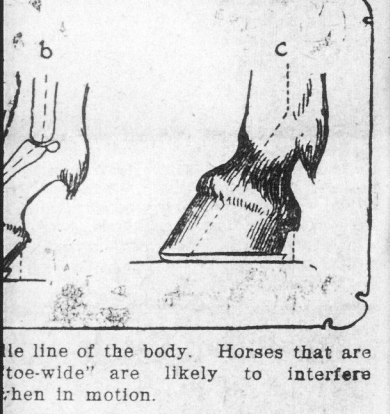

It is quite certain that the great dominion which has entered upon this course of independent fiscal negotiations which had in the force of circumstances stop when they were. The process was...

Every farmer should allow the poultry a share of the milk, instead of feeding all to swine. It has been proven that when milk is added to the grain ration, young chicks gain nearly twice as fast in weight as when grain alone is used, and as skim-milk and buttermilk contain nearly all the elements of food, eggs are more easily produced by hens fed upon such than when they are not so provided.

The power in gasoline is really marvelous. The man who has used gasoline power for years does not marvel at it as does the recent purchaser. A gallon of this liquid will easily carry five passengers ten to fifteen miles, or it will grind need cheaper than the man who has used it. Great is gasoline.

It is extremely cold weather it is so important to give the hens work to do by scattering millet and small grains in the scratching room. On warm days they do not need this so much if they have plenty of range.

HORSE'S HOOFS

Mr. MacMaster said there was a firm determination in Canada to build up with the co-operation of Britain, a great, powerful nation. The true policy was to lead all encouragement possible by giving Canada a reasonable preference. Colonel Seeley said if Britain's refusal to adopt a policy of preference led, as Mr. Balfour claimed, towards disavowal of the government, surely signs of disavowal should begin to appear, and he declared the exact opposite was the case.

BEATING FOREST FIRES IN WEST

London, July 21.—The forest fires are still burning, but the fire fighters are getting the upper hand, and it is believed the worst is over except in the case of Soudon, which is in grave danger, and may be wiped out at any moment. In the Crow's Nest Pass, the bush fires are still burning, and much valuable timber has been consumed in the neighborhood of New Michael. News from Arrow Park shows the blaze there has been particularly costly and many ranchers lost their all. A large force of fire fighters there have cleared open spaces and are thus checking the progress of the fire.

BALFOUR ON PREFERENCE IN BRITISH HOUSE

Takes Last Opportunity Before the Next Imperial Conference

London, July 21.—In the house of commons today Hon. Mr. Balfour took the last opportunity before the next imperial conference to raise the question of imperial preference. He remarked that the consistency wherewith every colonial statesman since Canada made its first appeal for fiscal arrangement in 1843 had pressed on the mother country the one policy and he declared the views of these great colonial statesmen were not merely commercial—they had in view the idea of an empire with mutual good offices in the matter of tariffs as one of its bonds.

CANADA'S TRADE PACTS

Appeals for Preference as Policy of All British Statesmen—Hon. Mr. Asquith Replies — Mr. McMaster and Col. Seely Take Part in Debate.

Canadian Associated Press
London, July 21.—In the house of commons today Hon. Mr. Balfour took the last opportunity before the next imperial conference to raise the question of imperial preference. He remarked that the consistency wherewith every colonial statesman since Canada made its first appeal for fiscal arrangement in 1843 had pressed on the mother country the one policy and he declared the views of these great colonial statesmen were not merely commercial—they had in view the idea of an empire with mutual good offices in the matter of tariffs as one of its bonds.

ARBITRATION THE TALK, BUT TOO MUCH ASKED

Little Result in Mediation Yet, Though There is Hope

Montreal, July 21.—(Special)—Arbitration was the main talk in connection with the strike on the Grand Trunk today, but so far there has been little result. The representatives of the men wired Hon. McKenzie King, minister of labor, that they would accept arbitration if they could secure their own arbitrators, naming two men who had arbitrated a number of disputes in the United States, which would practically assure them the result of the arbitration.

MORE VIOLENCE

Men Injured in Bellville, Ont.; Stones Thrown in Vermont, Revolver Drawn by Strike-breaking Conductor—Passenger Trains Run; Some Freight Moved.

STRIKERS IN TORONTO AWAITING NEWS

The committee of striking Grand Trunk Conductors and trainmen meets in the Palmer House, Toronto, every day, and keeps in constant touch by telephone and telegraph with the leaders and committee in Montreal. This picture shows a group of the strikers in front of the Palmer House waiting for news from strike headquarters.

SIR WILFRID IN MELVILLE; HAS ONE DAY OF REST

Premier Enjoys a Ball Game Between Teams Made Up in Party—Saskatchewan Town a Prairie Wonder.

Toronto, July 21.—(Special)—Sir Wilfrid Laurier and party arrived at Melville (Sask.), this morning, and the premier is enjoying the first day's rest of his tour. This town is the surprise of the west. It has a population of 2,000 with banks, hotels, churches and all accessories of a thriving town, and few years ago there was nothing there but a wilderness.

Every farmer should allow the poultry a share of the milk, instead of feeding all to swine. It has been proven that when milk is added to the grain ration, young chicks gain nearly twice as fast in weight as when grain alone is used, and as skim-milk and buttermilk contain nearly all the elements of food, eggs are more easily produced by hens fed upon such than when they are not so provided.

TALK OF "SCANDAL" AND "RESTITUTION"

Stormy Scenes at Meeting of Directors of Flour Mills Company in London.

London, July 21.—At a meeting of the directors of the Pillsbury Washburn Flour Mills Company Limited today, the atmosphere was stormy. The directors, who were gathered in a large hall, were discussing the company's financial situation, which had been reported as one of the worst in modern times.

DR. CRIPPEN NOW REPORTED IN SPAIN

Paris, July 21.—A special to the Matin from Vernet-les-Bains says that, according to a telephonic message received there, a man answering the description of Dr. Hawley H. Crippen, wanted in London in connection with the disappearance of his wife, was seen at Puigorda, a town just across the frontier in Spain, on Wednesday night. The police at Vernet-les-Bains, the little French watering place at the foot of the Pyrenees mountains, are positive in their belief that Dr. Crippen was in their little city last Sunday.

ANOTHER STEP TOWARDS THE CANADIAN NAVY

Ottawa, July 21.—(Special)—The naval department has issued invitations to Canadian and British shipbuilders to consider the question of constructing the vessels of the Canadian navy in Canada. It is stated that the ships will be built according to the plans of the British Admiralty, which are secret, but which will be submitted to approved firms who can satisfy the department that they have had experience in such work and have shipyards in Canada or are prepared to establish such.

JUDGE McLATCHY'S STATEMENT OF PLANS—WEDDING IN A TENT IN RUINS OF TOWN—MORE CONTRIBUTIONS.

The Boston Post man in Campbellton wires his paper quoting Judge McLatchy as follows: "We must have houses to save the lives of those who lost everything else in the world. If Campbellton is to be rebuilt, the working people who have lived here must rebuild it. But it will be impossible to keep them here unless some provision is made to house them through the winter."

POWER POSSIBILITIES OF NOVA SCOTIA RIVERS

Halifax, July 21.—(Special)—The royal commission on technical education met in Lunenburg and Bridgewater today. The chief evidence concerned fishing, boat building and lumbering. T. G. Nield said Nova Scotia's rivers could develop 300,000 horse-power and Liverpool river alone 50,000.

SCHOOL BOOK AUTHORITY DEAD.

Boston, July 21.—The death of Ayres M. Edwards, an educationist and school book authority, occurred in this city today. He failed to recover from an operation performed last week. Mr. Edwards was superintendent of schools in Bethel and Pittsfield (Mass.), but gave up school teaching to become New England manager of a large school book publishing house. He was a member of the Leviston Commandery, Knights Templar. He is survived by his wife and a son.

CLERGYMAN, STOCK BROKER, NOW SUICIDE

Tragic Tale of Englishman Who Ends Life in New York

London, July 21.—Atheletan Corntorf, who committed suicide in New York yesterday, is said to be identical with a London stockbroker of that name whose creditors, ignorant of his fate, met today in the bankruptcy court. Corntorf was a man of excellent attainments. He has been a clergyman serving pastorates in this city and at Nottingham. He was married and leaves a family.

EIGHT IDLE MONTHS

Reverses in Business in London Bring Him to the States—Nothing Better There and He Kills Himself in Park as Creditors Hold Meeting.

London, July 21.—(Special)—As the result of repeated conferences extending over several weeks, a definite agreement was reached this afternoon between the C. P. R. Company and its conductors and trainmen and all possibility that the C. P. R. men will follow the example of the Grand Trunk men and go out on strike is now removed.

CRUSHED TO DEATH IN AMHERST FOUNDRY

Halifax, N. S., July 21.—(Special)—Edward Higgs an employee in the rolling department of the Canada Car Company in Amherst, met with an awful death this evening. He was the engineer on the night shift. While oiling the coupling boxes of the rollers he slipped and fell between the heavy rollers. One arm and shoulder were frightfully mangled and one leg broken and crushed.

SUSSEX TESTS FIRE FIGHTING EQUIPMENT

Sussex, N. B., July 21.—(Special)—Because of the recent fire scourge in Campbellton Chief Dale, of the Sussex fire department, gave a demonstration of the equipment here before the town council near the railway crossing tonight. He had 1,300 feet of hose stretched and six powerful streams of water were found to be most satisfactory. The pressure was near the 82 pound mark.

POWER POSSIBILITIES OF NOVA SCOTIA RIVERS

Halifax, July 21.—(Special)—The royal commission on technical education met in Lunenburg and Bridgewater today. The chief evidence concerned fishing, boat building and lumbering. T. G. Nield said Nova Scotia's rivers could develop 300,000 horse-power and Liverpool river alone 50,000.

C. P. R. AND MEN CONFIRM AGREEMENT

There is Nothing Left to Do Now But to Sign the Document

Montreal, July 21.—(Special)—As the result of repeated conferences extending over several weeks, a definite agreement was reached this afternoon between the C. P. R. Company and its conductors and trainmen and all possibility that the C. P. R. men will follow the example of the Grand Trunk men and go out on strike is now removed.

WOULD FILL BOOK

Summarizing It, Mr. McNicol Says Company Has Granted Very Large Percentage of the Demands—It Will Date from May 1 Last.

London, July 21.—(Special)—As the result of repeated conferences extending over several weeks, a definite agreement was reached this afternoon between the C. P. R. Company and its conductors and trainmen and all possibility that the C. P. R. men will follow the example of the Grand Trunk men and go out on strike is now removed.

CLOTHES, CUFF-LINKS AND WATCH STOLEN

Woodstock, July 21.—(Special)—Harry Lewis, a young Englishman, was arrested today on charge of stealing a suit of clothes, a set of cufflinks and a silver watch from his employer, Thomas Craft. Lewis was brought before Sitting Magistrate Holyoke this afternoon, and was sent up for trial.

THREE DROWNED NEAR MONTREAL; SHIFTED IN BOAT

Montreal, July 21.—(Special)—Three men were drowned at a picnic of the Montreal Light, Heat & Power Company, this afternoon, at Maple Grove. Four were in a boat and it capsized through the men changing positions.

KILLED AT PRESQUE ISLE

Presque Isle, Maine, July 21.—One man was killed and a man and a boy terribly injured when a hay wagon was struck by a Canadian Pacific Railway train at Blake street crossing here today. Stephen Cahill, aged 34, was almost instantly killed. He leaves his wife and one daughter. William Currier, aged 23, sustained serious internal injuries and was badly hurt about the forehead, while Freeman Tweedy, the eleven year old son of Henry Tweedy, had both legs broken. Currier has a chance to live, but young Tweedy is in a critical condition.

THREE YEARS FOR ATTACK ON MAN IN TORONTO HOTEL

Toronto, July 21.—(Special)—Whit Byrom, a young gambler and spendthrift, from the United States, who lay in wait in a bathroom in the King Edward Hotel one night last week and murderously attacked W. L. Page, of Chicago, in an effort to get some money, was this morning sentenced to three years in Kingston penitentiary.

BEATING FOREST FIRES IN WEST

London, July 21.—The forest fires are still burning, but the fire fighters are getting the upper hand, and it is believed the worst is over except in the case of Soudon, which is in grave danger, and may be wiped out at any moment.
