Let us then drink the draught,—you

ERTON. N. S.

About three years ago I was sick with consumption, which was brought on by a heavy cold. I employed a doctor who advised me to use emulsions. I did so but they did me no good. I was growing weaker fast—my cough was very bad—with night sweats; in fact my parents had given me up as I belong to a consumptive family. Two of my sisters and one brother have already died of that dread disease. As my appetite was very poor, a friend advised me to use Dr Norton's Dock Biood Purifier. I got six bottles, the use of which soon gave me a craving for food. Soon my cough was better and I began to gain in strength. I used twelve bottles of the medicine and by that time had gained forty-four pounds in flesh with good health. Have had no symptoms of any lung trouble since and believe that Dr Norton's Dock Blood Purifier saved my life. ERTON. N. S.
