
WANTED!

Recruits to enlist in the Army of Sunday
School Teachers

WILL YOU VOLUNTEER?

In North America, every Sunday, it is estimated there are one million and a half earnest people teaching in the Sunday Schools. Think of it—1,500,000! Yet, there is need for more than twice as many.

What an opportunity for older class and Bible Class members!

It is only natural that the Sunday School should look to these older classes for its leaders. Out of these classes should come the recruits to carry on His work.

Teaching, to be successful, must not be mechanical. The successful teacher reaches the scholar through personality, and the application of the principles of teaching. The volunteer must be trained if he would be efficient.

Hence the **New Standard Teachers Training Course.**

This course, consisting of eight books for the first two years, each written in an understandable way by an eminent specialist on his subject, is unlike former courses. They, for the most part, consisted simply of information. This new series, the second year of which is just published, shows HOW information is to be utilized. It has been approved by the International Sunday School Association and nearly thirty of the leading denominations.

The eight books, at 20c. each prepaid, are:—"The Pupil," "The Teacher," "The Teacher's Study of the Life of Christ," "The School," "Teaching Values of the Old Testament," "Teaching Values of the New Testament, Acts, Epistles and Revelation," "The Message of Christianity," and "Training the Devotional Life."

ASK US FOR FULLER INFORMATION

P.S.—A letter has been received from a worker 77 years of age who is studying the series. He says—"I have been a teacher in——Sunday School for some twenty years, and my object in taking this course is to acquire greater efficiency." **This is the right spirit for service.**
