

I should like you to pay a \$20.00
 call on "Beyniss" & author of the same
 amount (the last one) comes in Exhibit.
 I have advised me strongly to hang on,
 as the chances were that, if the suit
 makes good, I could clear \$200.00. Beyniss
 I should explain, will give you shares of
 mining stock you took share of development.
 I am delighted to hear Father is
 prospering as well, & if I am the only
 one, the need here is more for money.
 I am well & am going to be better than
 I ever have been, in every way.
 I trust that in future I'll, my letter
 will be more carefully planned & that you
 will be able to read between the lines the
 desire to be sure your affectionate letter is
 every word of the heart. That's

& he is, of course, without any thing himself
 to do.

As regard to the hospital expenditure
 you speak of, I should be pleased to
 consider it if I did not regard as hardly
 me in my estimate now, but I feel that
 the money cannot be used a provision
 would not warrant the expenditure of
 all this money to come it. I am
 getting too old, too far into life to make
 upon any more side tracks & I am
 getting what may be an important
 importance to get started at the real thing.
 This time it will be to do, as this is the attempt.
 It would give me a great deal of pleasure
