POTASH

may be obtained from all the leading fertilizer dealers
in the highly-concentrated forms of

**MURIATE of POTASH
or SULPHATE**

For Tobacco, Sugar Beets and Potatoes apply Sulphate of Potash. On all other field crops, as well as in the Orchard, Muriate of Potash will give entirely satisfactory results. Potash is not merely a stimulant, it is a direct plant food, and has a beneficial after-effect. As a rule, to secure best results, Potash ought to be applied along with a Phosphatic Fertilizer early in spring. Any reader of THE FARMING WORLD who desires to obtain copies of publications treating of the results of Fertilizer Experiments in Canada and elsewhere may secure the same GRATIS by addressing

THE DOMINION AGRICULTURAL OFFICES OF THE POTASH SYNDICATE,
Rooms 1102-1105 Temple Building, TORONTO, CANADA.
