

## THE RECORD OF ONE YEAR'S LIVE STOCK EXHIBITS

To obtain 111 prizes at the British shows during 1908 may be deemed a very fine performance. One hundred and eleven is the number of prizes that the live stock department of Messrs. William Cooper & Nephews of Berkhamsstead and Toronto, have gained at the British shows to date.

This number includes 54 firsts, 12 seconds, 12 thirds, 12 champions, 10 reserved champions and 5 specials. Amongst the championships is that for a Shorthorn bull at the Royal Agricultural Society of England's show, which was gained by Sir Richard Cooper's famous Chiddingstone Malcolms.

Sir Richard Cooper is head of the firm

of William Cooper & Nephews, and is the famous breeder of Shorthorns, Shropshire sheep and Red Polls. On his estate in Sharnstone, near Lichfield, in the Old Country, the famous Cooper herd of Shropshires are kept. These were established many years ago by the purchase of males and females from amongst the most prominent breeders in Great Britain. Since

then the herd has been kept in a high state of efficiency by the addition from time to time of many well known prize winning bulls and heifers.

The Toronto branch of William Cooper & Nephews will be glad to forward to anyone interested a copy of their very handsome book, "Pedigree stock and their export."

# Every Safe Lock Shingle is made to meet the rigid requirements of the British Government for Admiralty and other Public Service

to proper size for Safe Lock Shingles. The only shingle with galvanized edges.

The only shingle sold with a positive protective guaranty against lightning, backed up by a free insurance policy signed and sealed by the manufacturers, the Metal Shingle & Siding Company, a \$200,000.00 Canadian corporation.

Every Canadian farmer who expects to put up a new barn or house or to re-roof old buildings is directly interested in this extraordinary free offer.

Think of it! A straight-out lightning insurance policy free from conditions of any kind. It is the most liberal roofing offer ever made to Canadian farmers.

Insurance records show that one-half the fire losses on barns in Canada result from lightning. The property loss in these cases amounts to many thousands of dollars every year.

Safe Lock Shingles have been on the market for more than ten years, and in all that time no building covered with them has ever been harmed by lightning.

This proves to us that Safe Lock roofing is a positive guaranty against lightning.

Anyway, we are willing to show our faith in Safe Lock Shingles and will protect you from lightning without one cent additional cost to you, directly or indirectly.

Safe Lock Shingles are sold at the same price as shingles known to be inferior in quality of steel, galvanizing and construction.

Safe Lock Shingles lock positively and securely on all four sides. They cannot be blown off, nor can they be pulled apart through the warping of the sheeting, or in any other way.

And remember this—No other shingle is a Safe Lock Shingle.

Safe Lock Shingles can be found in every part of the Dominion of Canada, where they have been subject to storms of all degrees of severity.

No building covered with Safe Lock Shingles has ever been unroofed.

We want you to know what some of the users of Safe Lock Shingles say of them.

R. T. McLAUGHLIN, Fair View Farm, Alba, Ont.—"The 'Safe Lock' makes your shingles absolutely wind and water proof. They are the best shingles on the market to-day."

F. B. DOUD, Branchton, Ont.—"The Galvanized Steel roof is apparently as good as when put on in 1898. The 'Safe Lock' Shingles make a lasting, storm-tight roof, and give clean easterly water. I am satisfied that I put on a good roof."

W. J. McPHERSON, Berryton, Ont.—"The 'Safe Lock' Shingles that I purchased from you ten years ago have given splendid satisfaction. The roof has never leaked a drop, and they seem to be just as good as the day they were put on."

I. C. PAYNE, Cayuga, Ont.—"It must be ten years now since I bought the metal 'Safe Lock' Shingles, and up to this time I have no reason to regret their purchase. We have had wooden roofs put on since which are open in spots from the splitting and shrinkage of shingles. No difficulty, so far as I have noticed at least, has arisen with your Metal Shingles, and the roof seems compact and durable. So far as I have been able to see, I have seen no wear or injury to the shingles during the ten years' use, and cannot see but that the roof is just as good as when it went on."

MURDOCK MCKENZIE, Bear Line, Ont.—"The 'Safe Lock' Shingles have never given me any trouble, and they appear to be as good to-day as the day I put them on. I am well satisfied with them, as I believe them to be the best roofing that can be used on barn buildings."

GEO. HARDY, Ashgrove, Ont.—"It will be eight years in June since the barn was shingled. I never had any trouble with it in any way, and it appears to be as good as when put on. I have been recommending your shingles as the best that can be got."

MRS. JAMES STEWART, Pendleton, Ont.—"In reply to your letter asking about shingles I bought from you over five years ago, I looked the roof all over to-day, and they seem to be in as good condition as when they were put on the roof. The shingles don't seem to be any the worse for wear, and they will last for years."

Send to-day for our book, "The Truth about Roofing" and full details of our Fire Insurance Policy payable in cash if your Safe Lock Roof is damaged by lightning.
