HILTON'S NEW Patent Washing Machine.

WHAT IS CLAIMED FOR IT:

1st.—It is the best ever offered to the public for the following reasons, viz: It will do its work quicker, easier, and better than any other machine, cleaning effectually and perfectly, no hand rubbing being necessary, and without the slightest injury to any article submitted to its operation, neither breaking nor misplacing buttons or other fastenings.

2nd.—Its range or scope of action is greater, acting singly upon a lace or linen collar, and accommodating itself to the heaviest article of bedding without change or adjustment of the machine.

3rd.—It is durable, not likely to get out of order, and when so easily repaired, being constructed in such a manner that any of its parts can be supplied by the manufacturer without the presence of the machine, and adjusted to its place by any person, which is evident at first sight of the machine.

In witness of the above read the following: We, the undersigned, having used Mr. Hilton's Patent Washing Machine one year, can fully endorse the above claims:—Wm. Knapley, S. A. Eakins, Jos. Benjamin, W. W. Hull, Jas. Manson, Isaac Moore, G. Street and others. Strathroy, Ont., February, 1872.
