Send for This 264 Page Book Full of Valuable Facts on Silage

HERE'S our new edition of "Modern Silage Methods." It beats anything we have ever put out heretofore. Index alone covers ten pages, 66 illustrations. Gives full, reliable facts on home-made silos, pit silos, cement, concrete, woodstave, hollow tile, metal, etc., modifications of all kinds. When you read it you will be able to make an unerring choice of the best silo for your needs. We do not make silos—therefore can offer suggestions impartially. We cover different climatic conditions—tell how to build—suggest best sizes—crops—how to feed for best results—everything that's worth knowing about silage. We send this book for 20c. Send for your copy today. Also let us tell you the latest news story on

Silver's "Ohio" Silo Filler

The machine that has drive pulley, cutting cylinder and blower fan all on the main shaft. Write for catalog and our four-color folder. We send these two books free. Enclose 20c to cover duty and postage and we send "Modern Silage Methods."

Why the NEW Series 17 Studebaker is the GREAT Value of the Year

To any man who knows cars or who has kept in touch with the new cars of the year in any way whatever, there is no necessity for our saying more than "Read the reasons listed at the side".

Buying a car is merely a matter of getting the biggest value, the most satisfactory car for the price you pay. Every man who owns or operates a farm knows from long experience the QUALITY that the name of Studebaker insures. And the unexcelled manufacturing facilities, the GREAT financial resources, the long manufacturing experience and the largely increased volume that the remarkable popularity of the new cars has produced has made possible many refinements and a REDUCTION in price to \$1165 that makes this new SERIES 17 Studebaker FOUR the GREAT value of the year. See it before you decide on any car. Handsome catalog on request.

Facts To Know When Buying Cross-Cut Saws

The name "Simonds Crescent Ground" on a cross-cut saw, means that the saw will cut 10% more timber, same time and labor being consumed, than any other brand of saw made to-day,—this we guarantee.

This is a broad statement but one which we stand behind. No saw has yet been returned owing to its having failed to fulfill the above guarantee.

The advantage of the Crescent Grinding, in Simonds Cross-Cut Saws, is that it prevents binding in the kerf and enables the operator to push as well as pull the saw—points experienced sawyers appreciate,

Always buy a saw with a sharp cutting edge—not a soft saw—because the former lasts longer and keeps its edge better.

Simonds Steel is the only steel which we are sure, will take a temper to hold a cutting edge longer than the ordinary saw.

The illustration shows a Simonds Cross-cut Saw, No. 325, with a hollow back instead of a straight back.

When you buy a saw, it will pay you to get a Manufacturer's Brand Saw, with the name "Simonds" on the blade, at about the same price as you will pay for a low-grade special saw.

Ask your dealer for the Simonds Cross-Cut Saw and write direct to the factory for further particulars.
