

No less inside the house than out, every surface calls for protection. Daily use means daily wear upon the surface of everything used. Appreciate the principle of surface protection.

Agricultural machinery has to stand severe exposure. Their surface protection is absolutely indispensable if rust and corrosion are to be kept at bay. Rust cannot penetrate till the surface is broken. Save the surface and you save all.

### Anything worth owning is worth preserving

GOOD money put into a home, a barn, a silo, or automobile needs protection as much as good money put into a bank

A wooden house is a wonderfully enduring thing if given reasonable protection. What is true of wooden houses is true of all things made of wood, be they in the city or country, be they stable or garage, wagon or desk.

And what is true of wood is true of other materials. Steel and iron from bridge and skyscraper to roof of shed—they last or they rust, depending upon whether or not they have surface protection.

If protected the surface is an impassable barrier to rust, rot, friction or disintegration. If unprotected it is an open door.

Whatever other good purpose paint and varnish may serve, in every case they save the service—their first and greatest service to property.

Your property is safe only when the surface is safe. The chief purpose of all paint and varnish is to save the surface so save all.

THIS ANNOUNCEMENT is issued by the Canadian Save the Surface Campaign Committee, for the purpose of educating the public in the Preservative and Protective value of Paint, Varnish and Allied Products for the Conservation of Property, and has received the approval of the Canadian Trade Commission in the following words:

"The realization of the above objects will lead to employment during the Reconstruction Period and bears our entire approval.

THE CANADIAN TRADE COMMISSION

*Harry M. Tanner*  
Commissioner."

Corrugated Sheets      Barn Ventilators  
Silo Roofs              Barn Roof Lights

THE GALT ART METAL COMPANY, LIMITED

Galt, Ontario

## Get This LOUDEN

### Bird-Proof Barn Door Hanger

and have the barn door hang and run right for all time. This is positively the finest Barn Door Hanger on the market. As its name implies, birds cannot build in the track. The track is hollow with closed ends. No ice or snow in winter or trash in summer can possibly get in to clog it. Runs on two strongly braced roller bearing trolley wheels, always smooth and easy running. Hinged so as to make it flexible and to allow the door to swing outwards and upwards if occasion requires.

#### ASK FOR LOUDEN LINE

If your Hardware man will not supply you, we will direct; mention his name, width of your door. Over 50 years of experience and practical experiments go to make Louden goods efficient and reliable. We make

## SAFE!

### BEFORE & AFTER

Quiet 'till you want them—a quick, clear, odorless flame—then out to stay out. No accidents.

#### EDDY'S SILENT 5 MATCHES

represent the last word in a general-purpose match for household use. They will light anywhere, and a chemical solution extinguishes them instantly when blown out. No odors, no afterglow. See that you get SILENT 5's, and look for Eddy's name on the box.
