

PUT UP THE HEAVY, HOG-PROOF IDEAL WOVEN WIRE FENCE

You want a fence that is so heavy, stiff and strong that it will discourage any attempt at rooting. After an argument with the IDEAL your hogs will become thoroughly discouraged of trying to get under it. The IDEAL is undoubtedly the fence for you.

The IDEAL is the fence the railroads purchase because of its weight and quality. No. 9 hard steel wire throughout. Heaviest galvanizing on any fence. But the IDEAL lock is the BIG reason why you should buy the IDEAL fence. No lock equal to the IDEAL in gripping-tenacity has yet been discovered. Chances are there never will be. When stretched up, IDEAL is a very handsome fence. Every strand measures exactly true. Every lock is

correctly applied. You see, the IDEAL is manufactured by the most improved fence machinery, in a plant that is considered a model among fence factories. With such superior manufacturing facilities the natural result is a fence overshadowing others in quality—and that is IDEAL fence. For further reasons read our free booklet.

The EDISON PHONOGRAPH

THE Edison Phonograph differs from all other sound-reproducing instruments because it was invented and perfected by Thomas A. Edison, and because it is constructed on a principle which is more nearly perfect than that of any other instrument made for the purpose.

The first Phonograph ever made was made by Mr. Edison, and from that invention was perfected the Edison Phonograph which today is considered the most perfect instrument for reproducing music, voice and other sounds. For you the Edison Phonograph means constant and varied entertainment of the kind for which you would pay theatre and concert prices to enjoy otherwise, but which, with the Edison Phonograph, you can enjoy in your own home. No method of spending an evening can be pleasanter, whether you use it for the enjoyment of yourself and family, whether you invite friends to hear it, or whether you use it for informal entertaining, either for a program or dance. It is always there, always ready to be turned on; it is easily operated, and the cost is slight.

Edison Amberol Records

Mr. Edison did not consider his Phonograph good enough with Records that played only two minutes, so he experimented until he produced a Record which will play more than four minutes. It is no larger than the other Record. It is played on the same Phonograph by means of an attachment which your dealer has. It more than doubles the enjoyment of the Phonograph.

Music formerly unavailable for the two-minute Record, on account of its length, can now be heard in full and to better advantage.

There is an Edison dealer near you. Go and hear the Edison Phonograph, and especially ask to hear the new Edison Amberol Records.
