Honesty Goes Hand in Hand With Prosperity.

If you are not honest you may prosper for a short time, but your fall will be swift and sure.

If you are honest and find that you do not prosper your case will stand investigation, and in nine cases out of ten the reason the honest grocer does not prosper is because he uses old and infirm scales in his business, and when he thinks he is selling a pound of sugar or rice, or anything else, he really is parting with about a pound and a quarter for the price of a pound.

Are you prospering as you should?

If not, it might be a good thing to look into the scale question. We have a Ball-Bearing Computing Scale which is HONEST. We guarantee this scale and sell it on easy terms.

HAS USED WILSON'S SCALES FOR THIRTY YEARS.

C. WILSON & SON, LIMITED, TORONTO.

DEAR SIRS,—I take great pleasure in sending you cheque in settlement of the Improved Wilson Grocer Scale purchased some time ago. I consider for a large business that it is simply perfection; the Agate and Diamond Steel Bearings are so finely adjusted that I can weigh anything from an ounce to one hundred pounds. The construction and general finish is generally admired by my customers, as well as by general storekeepers. I have been using the Wilson Scale for thirty years, and have always found them superior scales in every respect. I notice that you received the highest medals at Chicago and Paris (France) World Fairs. If they were as good as the scales sold to me you well deserved the highest honors. You may refer any merchants wanting fine weighing scales to me.

Yours truly, J. G. GIBSON, 523 and 525 Yonge Street, Toronto.
