### DR. WILLIAMS' PINK PILLS MAKE WOMEN WELL

Just because she is a woman there are times when every woman needs help and strength in the form of a blood-purifying tonic. To thousands of girls and women Dr. Williams' Pink Pills have proved a blessing because they enrich the blood, give strength and restore tone to the aching nerves. The anaemic girl who is languid and pale, the wife whose back feels like breaking, the matron whose health fails as she reaches middle age—all such sufferers, Dr. Williams' Pink Pills are invaluable, because ill health in woman is usually caused by poor blood or insufficient blood. These pills have cured thousands of others, why not you? Mrs. D. Madine, Wallbrook, N. S., says it is impossible for me to say too much in praise of Dr. Williams' Pink Pills. I have been a great sufferer from these troubles that make the life of so many women almost constant misery. Pains in the back and side racked and tortured me. My nerves seemed to give out and at times I could do no house work, and only women who have similar suffering know what I endured. I tried medicine after medicine without any benefit, and was finally persuaded to try Dr. Williams' Pink Pills, an improvement, and as I continued their use my health and strength returned and I now feel as well as ever I did in my life, and I am relating my experience merely in the hope that it may lead some other suffering woman to renewed health. I may add that my mother suffered from rheumatism so badly that she had to use a crutch and Dr. Williams' Pink Pills completely restored her to her usual good health.

### Two Poultrymen Meet.

Perhaps the incubator is about to solve the question of the high cost of living. A certain farmer down East was telling us the other day, at his meeting with an incubator agent. "Well Sir," he said in relating the story, "that fellow was a talker you bet, he gave me more hints on scientific poultry management in ten minutes than I could get in reading all winter." "He was full of ideas I kin tell you," said he, "but he had the bug in his mind on the market fully equipped with barometer, thermometer, lightning rods, smoke condenser and maxin sound sinner and said the thing would hatch anything from brook trout to swine." "He said they were only puttin' out four or five hundred thousand this year just to get them advertised." "I said to him I didn't calculate there was much in poultry anyhow." "There may not be," says he, "the old-fashioned way but you fellows are way behind the times; you want to waken up; you got opportunities, says he, right around the corner. Then I said, 'I got my start in poultry,' says he, 'my hens want layin' either; hens must have meat,' says he, 'so must bein' pretty dear I used my head some.' 'Then I placed a deadline behind the barn a few paces, tied the old shotgun to a log postin' at the dearin tied a piece of binder twine to the trigger and carried the other end up to bed with me. Then I set the alarm clock for one o'clock a.m. and went to sleep. When the alarm went off I woke up and pulled the string. In the morning I generally found from one to fifteen dogs layin' around the carcass. I had fresh meat for my hens all winter and sold enough dog skins to pay for the rest of the feed the hus ear."

This morning's severe wind caused a little excitement on Front street this morning, upsetting a delivery rig belonging to Mr. Ed. Kellaway. As soon as it was righted, a blast of wind again upset it, and a "hard express" wagon got excited and started off rapidly, but he was soon stopped.

Misses Katie Dulmage and Ruth Sinclair rendered a piano duet.

The president then called on His Honor Judge Deroche who had kindly consented to give a talk on "How we are governed." This proved very interesting as well as instructive. He took up the subject in a very comprehensive way, dealing with first, the answers, and then the administrators, what constituted the various governing bodies of our land.
