ATHLETICS FOR ALL THE PUBLIC SCHOOLS

New Movement Has a Successful Inauguration - Organization Meeting.

A new movement for the uplifting of the physical welfare of the youths of this city has been inaugurated, and the six schools of Brantford are incorporated in an effort to promot the interests of the reform, which will e known as the Public Schools Athetic League. An informal meeting has been held and five city schools were represented, while the sixth i nterested although not represented The organization has been, as far as mittees are concerned, perfected and the executive will be composed of Mr. E. C. Kilmer, chairman; Mr. Foster, vice-chairman; Mr. Rowe, treasurer, and Mr. G. H. Roper, executive secretary.

The athletic sports included in the category of the league include hoskey, baseball, basketball, swimming and standard efficiency tests. An important rule divides all aspirants for diplomas into classes or sections for weight. Age does not count, and the man of 80 pounds is in the same schedule of the slender youth of this avordupois. The various weights are up to 80 pounds, between 80 and !-95, between 95 and 110, between 110 and 125, and an unlimited class.

When efficiency has been attaine ! n any branch of sport, a bronze bar qualified for, and various bars obtained can be formed into a belt of honor. The awards divided according to the sections.

Standard efficiency consists of efficiency in running, jumping, throwing and swimming, and in natation the unlimited man must be able to cover 50 yards in 35 seconds, which means he will have to travel in the water fairly fast.

The hockey committee has been ormed, and is made up of a boy rom each of the six schools, supplenented by Messrs White, Dixon, Bingle and Roper. Meetings will take place in Room D. in the Y. M. C. A.
