## GOOD ROAUS.

If the government should invest the entire royalty collection for this year in the construction of new roads, the tent of the Yukon territory's resources are as yet scarcely surmised. Districts which three years ago were not considered worth the effort involved in planting stakes, or the expense necessary in recording a claim are now known as heavy yielders of gold.

Other districts which have not known ly are showing indications which will keepers themselves. soon place them on the list as producers

It is a fact that from the very beginning the territory has advanced in the face of obstacles which seemingly could not be overcome. Chief among these has been the lack of good roads. Men have toiled knee deep in mud with fee from restauran' keepers. heavy packs on their backs, up and money have been taken before any effort was made on the part of the gov-

ernment to relieve the situation. It is time that a better condition pre-

vails throughout the district. Large sums their main business. In my opinion, have been spent in the construction of public highways, but a beginning only has been made. The mining district adjacent to Dawson must in the end be upon them, and would drive many covered with a network of roads. small restaurant keepers out of busi Every mile of roadway constructed means an extension of the working area of ground and a consequent addition to the output of the district.

principle that the government cannot trict is de dent upon good road almost as much as upon good claims.

RESULT OF DECISIVE ACTION. The dog question has been solved in would get the worst of it." . a very effective manner, notwithstandmay seem unnecessarily severe to many people. It is a case in which the end has clearly justified the means. Dawhalf-maddened dogs, is entirely freed from such nuisances and in fact it is which existed only a few weeks ago.

The whole matter merely illustrates what may be accomplished by applying strong and decisive measures in dealing with a serious question. An emergency existed, which, as soon as its importance was fully appreciated was dealt with promptly and effectively. If similar action should be taken in connection with the garbage question, that problem could soon be adjusted in an equally satisfactory manuer.

The dispatches of last evening held ont the hope that President McKinley's wife may yet recover although her condition, according to the last reports, were still precarious, Further information will be awaited with much anxiety.

COME IN FROM THE CREEKS. Miners from the creeks and their friends, and their friends' friends are all invited to come into Dawson on the twenty-fourth and join in celebrating Victoria day. The published program of sports insures a day of enjoyment which will easily compensate for the expenditure involved. A celebration in Dawson cannot be regarded as a complete success unless the creeks join in helping to make it such. Suspen t of work for one day will not in
