PEACE DELEGATES

Send a Note to the Leader of the Turkish Delegation--A General European War Not Thought to Be Likely.

(Courier Leased Wire).

LONDON, Jan. 29. — The note drafted by the peace delegates of the Balkan allies was delivered by Stojan Novakovitch, head of the Servian delegation to Rechad Pasha, the leader of the Turkish delegation shortly after noon to-day.

The determining factor impelling the allies to this course of action was replete in reports during the night and again this morning and verified the action of Turkish troops stationed on the Tchatalja lines, a large portion of whom appear to be unwilling to follow the lead of the young Turks. It is considered here that in view of the internal complications in Mahmound Shefket Pasha the new grand vizier, may yield before the energetic act of the allies.

The gravity of the situation at Constantinople is shown by the large naval forces concentraed by the European powers, especially Great Britain, France, and Italy at the entrance to the Dardanelles. Even Austria-Hungary, which in the past, together with Germany, had refused to join the other European powers in naval coercive measures, has now ordered two warships at Pola to be kept in readiness to start for the east at any moment. While the clouds are gathering in Constantinople, the astronomers who make a study of the European firmament, consider that the general peace of Europe is not in danger As a proof of this, they point to the fact that Italy has just disbanded 100,000 of her soldiers, who served in the war in Tripoli.

Rechad Pasha this morning expressed the hope that the European powers realizing the unfair treatment which had been inflicted on Turkey and which had caused the aggravation of the situation would help the Porte to surmount its present difficulties, thus ensuring the co-operation of the Ottoman Empire in the plans of the powers for the definite political and economic settlement of the whole Eastern problem. Several members of the Bulgarian peace mission are leaving London to-day, including, M. Theodoroff, the Bulgarian Minister of Finance and Lieut. Tsanoff, a graduate of Harvard, who has been acting as attache, and who is returning to join his regiment.

Canadian Farm Impliments Came Out Best in a Severe Test

EXPERIMENTS.

(Courier Leased Wire).

ST. PETERSBURG, Jan. 29—An extensive series of experiments with agricultural implements was carried out by the Russian Department of Agriculture during the season of 1912 with a view to putting an end to the dependence of Russia on American manufacturers. Over 100 reapers, mowers, hay rakes and other implements manufactured in Canada and various European countries were put to work under the supervision of officials of the department. A considerable number of these implements according to an official report just issued successfully stood the tests under varied and difficult conditions — notably those coming from Canada. Others of those tried were found adaptable to Russian conditions, and it is stated that they can be manufactured equally well in Russia.

A packed house greeted Mr. Enos Bacon, "The Yorkshire Nightingale," at Sydenham Street church last evening. While his singing is truly wonderful, he is also an exceptionally clever elocutionist and his monologues and poetical interpretations splendid. It was two hours of bright, clean wholesome enjoyment.
