A gentleman from Wolfville, N. S. says that the plum crop in the Wolfville orchards is very large. A visit to the orchard of Mr. Johnson, he says, would repay any person who is a lover of fruit. There are in his orchard nearly 7,000 plum trees, all of which are bearing under the weight of the fruit. All the other orchards in that locality are looking beautiful. All the fruit commands the highest prices in the Halifax market. —Halifax Herald.

Wolfville, Sept. 27th, 1893.

Personal Mention.

Judge Johnson, and Messrs W. F. McCoy and T. C. Allen, of Halifax, were in Wolfville this week.

Mr. Clinton Borden, returned from Boston on Saturday evening for a few weeks' visit.

Mr. W. T. Piers, who has been spending the summer in Wolfville, returned to Boston on Tuesday.

Misses Ollie Toys and Fanny Cox, of Hantsport, who here been visiting Mrs. P. O. Davidson, returned home on Tuesday.

Mr. G. W. Cox, who graduated at Acadia with the class of '80, and who won two scholarship prizes, left last week to take a post-graduate course in political economy and history at Harvard.

For some years past Mr. Cox has filled the position of post-master at Acadia Mines. On the eve of his departure from that place he was presented with addresses from the teachers and pupils of the public schools, and the members of the F. and A. M. and I. O. F. Lodges. He was also the recipient of a handsomely bound copy of Webster's International Dictionary by the teachers and pupils of the schools. Mr. Cox is a son-in-law of J. B. Davidson, Esq., of Wolfville, and has many warm friends here who join in wishing him every success in his future life.

One way to make times hard, cause distress, and to make people panicky, is for those who are able to pay their debts to withhold sums due to laborer, butcher, baker, and professional men. Money locked up and out of circulation is of no benefit to any one. A hundred dollars paid to laborers may settle a hundred claims within a week. Keep the money moving. Pay your little bills, and thus help to keep the "circulation" up. Locking money up is like taking the blood from the human body—it weakens the man and causes him to totter. Besides people always have a good word for a man who pays promptly.

The latest scheme for defrauding farmers is for a person to call upon them representing himself as a grocery man, retiring from business and anxious to get rid of his stock, and offers to sell a chest of tea for a small price per pound. The tea is tested, and found to be as represented. After the tea is delivered, if the farmer weighs it he finds it to be very short in weight, and when he gets a little down in the chest he finds the contents worthless stuff.

The lecture in the Baptist church, on Thursday evening, Oct. 5th, by Miss Phelps, under the auspices of the W. C. T. U., should draw a full house as the subject, "The Ballot for Women," is one of world-wide interest and the lecturer well and favorably known. Lecture at 8 o'clock. Silver collection will be taken.

The busy season is just commencing, and it will pay to note each issue of the paper to see what our business men have to offer in the way of bargains.
