This is why it is so interesting to read the experience of other people, and many will find in this letter their own conditions described.

Mrs. Thomas Williamson, Picton, Ont., writes: "For the last twenty years I have had trouble with my nerves. I suffered from sleeplessness, and, of course, my system was often in a run-lown condition from nervousness. At different times when I would have severe attacks, I was under the doctor's care, but this only gave me temporary relief. Twice I was to a sanitarium in Toronto, where I secured some relief at the time. This past summer I suffered from another nervousness heakdown, and it was then that I demmenced using Dr. Chase's Nerve Food. I took a treatment of this medicine and can now get up in the morning and do my work, which was something I could not do previously, because I used to get strangely confused. My appetite is prod, and I can sleep well, too. Generally speaking, I am so much better that I am proud of my improvement. I cannot speak too highly of the splendid results I have secured through the use of Dr. Chase's Nerve Food."
