LOCAL LIVE STOCK.

There was a rather heavy, run of inferior or pedding" cattle on sale towards the close of last week, and for this class there was very little demand. The market dragged somewhat Monday and Tuesday, but the supply easing off prices became firmer, and sales ruled at quotations. The latter grades sold well throughout, but drovers were scarcely satisfied with the business transacted. Sheep and lambs were in light supply and fair demand. Good lambs selling at 5 to 5½. live weight, and inferior 1c. lower, but not wanted. Sheep sold readily at prices quoted for good grades. Hogs were steady at unchanged rates, with only a few on sale. George H. Hosmer says he has had enough of pedestrianism, and as soon as he gets through with a match he has still on hand llock, he will go off to the country to fatten up for next season's rowing. Hosmer says he will be ready for any man in America, bar Hanlan. He thinks either Hamm or Conley can beat Teemer, although the latter is a good one.

Baseball pays in the States. The Providence Baseball Club last year received \$51,398, and expended \$41,651, leaving a balance of nearly \$10,000. President Von-der-Ahe, of the St. Louis Club, is building eight brownstone houses with his share of the profits of the club's games. The Athletic Club of Philadelphia cleared over \$26,000, and several. other clubs made as high as \$10,000.

If the muscles are well set, then a comparatively short space of time will be required to bring a subject to an edge. It is difficult to keep him there for any length of time, however, for his condition will begin to fluctuate in spite of all the trainer's effort, and the more he tries to keep him there the staler he will become. The man should be increasing in weight for the last week prior to

A cablegram to New York quotes from the Mark Lane Express of Monday the following review of the above trade during the week:—

"The weather has been mild and rainy. Trade has inclined toward lower prices. In some provincial exchanges prices have declined is.; in London prices continue to get lower to-day. Only the choicest English and foreign wheat maintain former prices. Flour is very quiet and lower. Barley is very dull. Foreign wheat is still lower; the decline appears to be unfathomable; the overproduction seems likely to continue and increase; in the meantime the trade must suffer from the plethora of the supply. Maize is weaker. Eight cargoes of wheat arrived off coset; two were sold, four were withdrawn and four remained, including two of No. I California. Cargoes on passage are inanimate. The sales of English wheat during the past week were 61,317 quarters at 40s. 6d. during the corresponding week last year.

INTEREST AND DIVIDEND INVESTMENT. The New England and Colorado Smelting Company has located its Smelting Works at Pueblo. Colorado, that being the central point in which the ore products of Arizona, Colorado, New Mexico and Utal can be easily marketed, and to which fuel, lime, and fluxes can be cheaply transported. It has secured from the Colorado Coal and from Co.. and from the Board of Trade, Pueblo, Colorado, valuable land grants and other subsidies, and its unidings and machinery will be constructed immediately.

Advantageous arrangements have also been made with the Atchison. Topeka, and Santa Fe the Chicago, Burlington, and Quincy, and the Denver and Rio Grande Railroads for cheap freight for its Ores and Bullion. The ore products of Arizona, Colorado, New Mexico, and Utah for six years has been \$193.

In 1883 alone it was \$45,508,953, and is largely in excess of their smelting facilities This ore product being naturally tributary to Pueblo, its smelters are taxed day and night to their utmost capacity to convert it to bullion, which commands ready cash in the nearket. Increased facilities are therefore immediately required. The smelting of ore in large quantities generally admits of about TEN DOLLARS PER TON PROFIT, and as the Company designs a smelter capable of treating 300 TONS OF ORE PER DAY, it should not only return 7 PER CENT, ANNUAL INTEREST upon the Company's Bonds, but should also pay LIBERAL DIVIDENDS to its Stock. Prominent among its managers are several RE-PRESENTATIVE MEN OF MASSACHUSETTS, such as Hon. E. R. Tinker, Collector of Internal Revenue, North Adams, Mass.; Hon. Edward Howard, late President of the 5. Howard Watch and Clock Co., Boston; Chas. H. North, of Chas. H. North & Co., Pork and Beei Packers, Boston; Hon. Albert Palmer, late Mayor of Boston, and others,

A LIMITED AMOUNT of the Company's Stock and Bonds are offered fo for a few days only. The Bonds bear INTEREST AT 7 PER CENT.. payable semi-annually, are SECURED by a FIRST MORTGAGE upon the payable semi-annually, are Side the payable semi-annually, are side to the Stock is \$1.25 per share (Par Value \$10), but will be advanced to \$1.50 per share on the 15th day of March, 1881.
