Here and There

Shipments over the T. and N. O. Railway during the month of May amounted to \$29.15 tons of silver ore.

The movements of the mackerel schools will, when observed, be broadcasted from radio apparatus erected for the purpose by the Canadian Marine Department.

Mrs. Dan Otto, of Stratford, Ont., set 33 eggs and hatched 34 ducklings from them. One egg was apparently of the double yolk variety and both yolks were hatched.

A new direct passage service between Canada and northern Ireland has been inaugurated by the Canadian Pacific Steamships, Ltd. Three steamers have been assigned to the route.

James Edwards, of Port Robinson, declares he has a chicken out of this year's hatch which out-freaks most chicken freaks. This one has four legs, four wings, two backs, two necks but only one head. It has been preserved in alcohol.

One hundred and fifty families are to be brought into British Columbia and settled under private enterprise in the valleys east and south-east of Fort George. W. A. Lewthwaite announced, following his return from England recently.

A Swedish scientist claims to have perfected a process for the manufacture of "artificial" wood from 50 per cent. sawdust and the balance chalk and chemicals. The product is as hard as oak, and can be planed, sawed, bored, nailed, painted, stained or polished. It will not deteriorate in water.

A start on the actual work of electrifying sections of the Canadian Pacific Railway's main line through the Rockies may be made next year. D. C. Coleman, vice-president of western lines, says that traffic demands and financial conditions would determine when a start would be made.

The decision of the Government of the province of Quebec to grant a bonus of \$4 per acre for land cleared will result in an approximate outlay of \$250,000. Clearance in the past few years has amounted to approximately 40,000 annually, but the total this year is expected to be 60,000 or more.

Speaking to the Canadian Club in London, Eng., recently, E. W. Beatty, President of the Canadian Pacific Railway, contrasted the "stirring tortoise-like slowness" of Canada's population policy with Australia's progressiveness. "We Canadians would be wise to keep our gates open for brains as well as brawn," he said.

One hundred and fifty delegates of the Canadian Weekly Newspaper Association will tour the British Isles next summer, and hold their annual convention in London, according to decisions reached at the final meeting of the convention here. The party will leave about the first of June, and will attend the British Empire Exhibition. The tour will last about six weeks.

Up to the end of 1922 dividends paid by the gold and silver mines of northern Ontario amounted to over \$123,134,000. Cobalt camp was discovered late in 1903 and hardly began producing until 1905. Dividends paid out of Cobalt mines amount to \$93,863,320, which represents practically 50 per cent. of the gross value of production. Porcupine mines have paid \$28,472,988.

George E. Buchanan, of Detroit, head of the "On to Alaska with Buchanan" movement, will have 52 boys and 24 adults or members of the boys' families when he personally conducts his party from Vancouver July 18 via Canadian Pacific "Princess" steamer. Buchanan thinks, with President Harding, that a trip to Alaska is a liberal education to any boy who takes it. He puts up one-third of the expense, the boy earns one-third and the boy's parents put up the remaining third.

PILES

Do not suffer another day with itching, bleeding, or protruding Piles. No surgical operation required.

Dr. Chase's Ointment will relieve you at once, and afford lasting benefit. 50c. a box; all dealers, or Edmanson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp to pay postage.

Canada Faces the Future With Confidence

CANADIANS have always been noted for courage, optimism and faith in their country.

As money-makers, sheep are hard to beat. In every Province from Prince Edward Island to British Columbia are found many flocks returning generous profits to their owners.

for feed, labor, interest and depreciation, the net profit per pig was still \$4.63.

Profits from Sheep

As money-makers, sheep are hard to beat. In every Province from Prince Edward Island to British Columbia are found many flocks returning generous profits to their owners.

We Must Cut Production Costs

Canada is meeting with the keenest competition in the marketing of her products. To hold her own and regain her place on the world's market, she must reduce cost of production.

The only way to do this is to increase production per acre, per cow or per other unit.

But improved quality, also, is essential to meet market demands.

The quantity and the quality of the products and the cost of production in competitive countries is beyond our control.

Prices of agricultural products are regulated by world supply and demand.

Hence, decreasing production will not help the Canadian farmer.

Poultry Pays

Poultry makes money for those who adopt modern methods, whether East or West. Little Prince Edward Island markets co-operatively in carlots, shipping annually upwards of one million dozen eggs. The British Columbia Poultry Men's Exchange markets in the same way, thus saving ruinous glut in their local market.

There is a market for good Canadian horses, whether light or draught.

Grow Seed

Canada's Northern grown seed possesses extra vitality. There is a large market for it to the south. Canada exports seed potatoes, but imports other seeds. She has the opportunity to grow seeds for herself and for export.

The Future

Ten years from now the pessimists of today will have been forgotten. Britain has removed the embargo against our cattle. She wants our beef and bacon, our cheese, butter, eggs and apples, our wheat and flour. As the population of the United States increases, she will compete less and less against us on the British market. Eventually, she will herself be an importer of many other food stuffs besides wheat from this country.

Canada has the men, the climate, the land, the stock and the potential markets necessary for agricultural success. Let us farm with all the industry and science we can muster. Let's get to work and pay our debts. Canada is moving forward with confidence in its future. Let us keep going ahead.

Money in Mixed Farming

In recent years, at different points on the prairies, oats fed to steers have brought from 70c to \$1.07 as against the Fort William price of 42c per bushel, while barley used for the same purpose has brought as high as 99c as against the Fort William price of 57c per bushel. Farmers marketing their coarse grains in this way lower marketing cost, have a sure market and make money on their grain, while at the same time they market their roughage, otherwise often wasted.

The cattle embargo is now off. Steers are worth more money and certain to make good money for the Canadian farmer from now on.

Money in Pigs

The Dominion Experimental Farms have proved by actual test that there is a profit in feeding pigs. Last year at the Central Farm, Ottawa, after paying

W. B. MOTTERWELL, Minister. Dr. J. H. GRISDALE, Deputy Minister.

"I Was Terribly Weak After Baby Was Born"

Mrs. H. McClure, Norwood, Ont., writes:

"After my baby was born, I was terribly weak and run down, with pains across my back. I had heard so much of Dr. Chase's Nerve Food that I decided to try it. Three boxes proved enough to make me quite strong and well again. I also used Dr. Chase's Ointment for a rash which broke out on the baby, and the rash disappeared completely in a short time."

DR. CHASE'S NERVE FOOD
