TERRIBLE DISASTER AT HALIFAX

A most terrible disaster happened at Dartmouth, opposite Halifax, on Friday night last. The following account is taken from the Chronicle of Saturday:

In the first district of Queen's, William Campbell, Esq., was chosen by a large and representative convention held at Hunter River on Monday last, as the Government candidate.

Senator Howland then gave a statement of facts regarding the modest project which he had since the commencement of the collection of the amount of money collected up to the present time and how it is invested.

At once a great cry went up and the crowd soon burst through the high wicket fence at the head of the wharf where the accident occurred.

In the Port Augustus-Balfast district of Queen's County, Messrs. Nicholson and Rose gave meeting with great success in their canvass and their election hardly admits of a doubt.

His Lordship here explained that the land in question had not been paid for by money belonging to the parish, as was thought by some.

At the conclusion of the speeches of Farnell and Balfour, and allowed to be passed without challenging a division.

TRADE WITH THE EMPIRE

It is not only in France and Germany that intemperance is being manifested in the proposal in the United States to impose a duty on imported wine.

FRAUDULENT DESIGNS FRUSTRATED

A case has just been brought to a close here which proves the superiority of the Dominion system of Savings Banks over that which exists in the United States.

On Thursday evening last Father Strubbe preached a powerful temperance sermon to an immense congregation of whom not one was Catholic.

Some three years ago Edward Kelly, son of Edward Kelly, of the County of Wick, Ireland, was introduced to the Dominion Savings Bank at Winnipeg.

It was not only in France and Germany that intemperance is being manifested in the proposal in the United States to impose a duty on imported wine.

Regarding the use of liquor as a stimulant he said it was altogether unnecessary, as it had been proved by Dr. Hincks, of Montreal, Dr. LaFavre of Hamilton, and others that there were many other things that could take its place, and that the use of liquor as a stimulant did more harm than good.

Superintendent Jenkins, of the Canada Pacific Telegraphy Company, tells the Montreal Gazette that he declined to proceed with standing order legislation of the postponement of consideration of bills from one session to another.

Some three years ago Edward Kelly, son of Edward Kelly, of the County of Wick, Ireland, was introduced to the Dominion Savings Bank at Winnipeg.

He explained how the people of the parish to which he was attached in Montreal, who were nearly all laborers of one kind or another, had collected seven thousand dollars a year, for a number of years.

It was not only in France and Germany that intemperance is being manifested in the proposal in the United States to impose a duty on imported wine.

It was not only in France and Germany that intemperance is being manifested in the proposal in the United States to impose a duty on imported wine.

He was, he said, a temperance worker and believed in true temperance, but he did not believe in those persons who make a great ado about temperance, and at the same time commit adultery, beat their neighbors, and commit every other kind of sin.
