TOWN TOPICS.

A child's amassing ye, takin' notes, An' faith he'll prevent it.

The Supreme Grand Orange Lodge will be here next week, but Geo. Stewart, the photographer, is here all the time.

A Good Passing.—The most useful gift you can make is to give a Writ Pen. Apply to D. McGillivray, agent, Goderich.

The recent cold wave made everyone shiver except those who had got their spring overcoats from the fashionable tailors, F. & A. Priddy.

The Women's Christian Temperance Union will meet regularly for the transaction of business every Tuesday afternoon at 2:30 o'clock, in Knox church. Every woman interested in the work is cordially invited to attend.

The "leafy month of June" came a little early this year; or rather the leaves came early and filled out so well that a week ago it almost looked as if summer was here. The drop in the thermometer during the past few days betokens that you can depend on nothing well, nothing except that H. B. Sellers will bill for photography in every line at his studio.

Now that the cold wave has passed by, you can settle down to housecleaning, and before you do so call at Saunders & Son's and see their pretty wallpapers at astonishingly low prices. A full stock of Kalsomine, mixed paints, stove polish, carpet tacks, carpet, lining and everything required in housecleaning. They have the reputation of being the cheapest house under the sun.

The Indian who put a single feather on the ground and lay on it, to get an idea of what a feather bed would feel like, was no smarter than the man who thinks to get an idea of Rhyas stock by sample or price. The stock must be seen as a whole, not by the piece, and the prices that are asked must be considered relatively to quality, before it can be understood how moderate and reasonable they are.

The local committee of the Orange body in this town are making strenuous exertions to make the reception of the Grand Supreme Lodge a success in every way. The Palace Roller Rink has been secured for the holding of the grand banquet on next Wednesday evening, and arrangements have been made by the town council to have the edifice brilliantly illuminated by electric light.

A silver collection will be taken at the door. Doors open at 7.30. Exercises commence at 8.

How to BUILD UP A TOWN.—To build up a town, prevent any untoward effort of the people to push forward its development. Let everyone push in different directions, and oppose a union of forces, and the town will remain in the agony of death. Don't encourage any kind of industry or enterprise; that would be forcing things. Don't encourage anyone to locate and start a manufactory. Don't encourage your local paper, as it matters not whether your town and its attractions are known abroad. If an enterprise springs up in your locality, don't take any stock, or give it any encouragement, rear back on your dignity, as you were never consulted. If any are thriving in business pull them down. By this way a town will boom. Oh, how it will boom!

At the opening of the 21st annual convention of Railway Conductors at Exeter recently 1500 were present. Mr. and Mrs. Aulsebrook and Miss Eva, of Goderich, and Mr. and Mrs. Dorsey, of Winnipeg, formerly of Goderich, were present. Conductor Aulsebrook, with his wife and daughter, returned home on Wednesday evening from what has been a most enjoyable trip.

The Toronto Mail says of Mrs. Agnes Thomson, who will sing at the Aarinksen concert on Tuesday, May 28.—"Her songs were rendered with much purity of expression and tone, and with a degree of artistic finish that was a measure of her earnestness and study of late. Her graceful execution of the furniture created a perfect furor, applause and cries of bravo resounding from every part of the auditorium."

THE AARINKSEN CONCERT.—The concert to be given on the evening of Tuesday, May 28th, promises to be the best ever given in Goderich. No expense has been spared in securing the best talent, and the program to be given on the occasion is of the highest grade of vocal and instrumental music. Amongst those who will take part is the great Canadian castrato, Mrs. Agnes Corlett Thomson, who's beyond question the leading lady singer of the Dominion, and she will be accompanied by the Toronto String Quartet, and Miss Annie Langstaff, another star of magnitude. A musical treat of no ordinary kind is in store for the people of Goderich on the 28th.

THE TOWN COUNCIL.

The Minutes of Last Semi-Monthly Meeting.

The council met last Friday evening, the 17th inst. All the members present except councillor Holt.

The mayor read a letter from Mr. J. T. Garrow, Q. C., in respect to the legality of bonusing the Oke's Organ Co., of Clinton. His advice was to the effect that the statute in regard to the matter prohibited the town from bonusing this company. The matter was referred to the special committee.

A communication from the Reliance Electric Manufacturing Company was read, offering to furnish two 50-light dynamos and 40 arc lamps of 1000 candle power and change 25 of the town's arc lamps to the same current for one of the 35-light dynamos now in use and \$1,600. Referred to special committee.

Moved by Humber, seconded by Colborne, that two electric lamps be placed in the roller rink for the use of the Grand Orange Lodge.—Carried.

The village of Saltford offered to furnish \$100 towards defraying the expense of placing two electric lamps, one at the Maitland bridge and another at the railroad bridge. Referred to waterworks committee, to be reported upon at next meeting of the council.

Mr. H. W. C. Meyer, of Wingham, wrote to the council, asking the transfer of the charter for a branch of the C. F. Railway from Wingham in the possession of the town to him, promising to take immediate steps in the matter. On motion of deputy-reeve Smith, seconded by Nicholson, the matter was left with the mayor and reeve, with power to act.

A communication from the publishers of the Illustrated Signal-Star was read, asking the council for extra on the contract price, in consideration of the large increase in the size of the publication. Moved by reeve Proudfoot, seconded by councillor Smith, that it be left with the committee on pamphlet, with power to pay the sum contracted for, and to report as to the extras.—Carried.

A petition from the residents of Palmerston street, asking for the extension of the drainage system on said street, was referred to the waterworks committee, as was also another from the residents of Cameron street, asking for the repairing of the drains.

Moved by Nicholson, seconded by Cantelon, that the waterworks committee have power to secure the services of an expert for testing the steam pumps. Carried.

The council then adjourned.

The fishing tug Silver Spray, with passengers from Kincairdine, arrived in port on Sunday morning.

A new mainmast was placed in the schooner Ontario last week, and it is expected that she will be ready for sailing in a few days.

The schooner Dauntless, of Wallaceburg, with a cargo of coal for J. S. Platt, arrived in harbor on Saturday afternoon.

The dredge Challenge, which is still working between the piers, lost some time the past week by rough weather.

The steamer Campana of the Beatty line made her usual call on Saturday and took on passengers and freight for Thunder Bay.

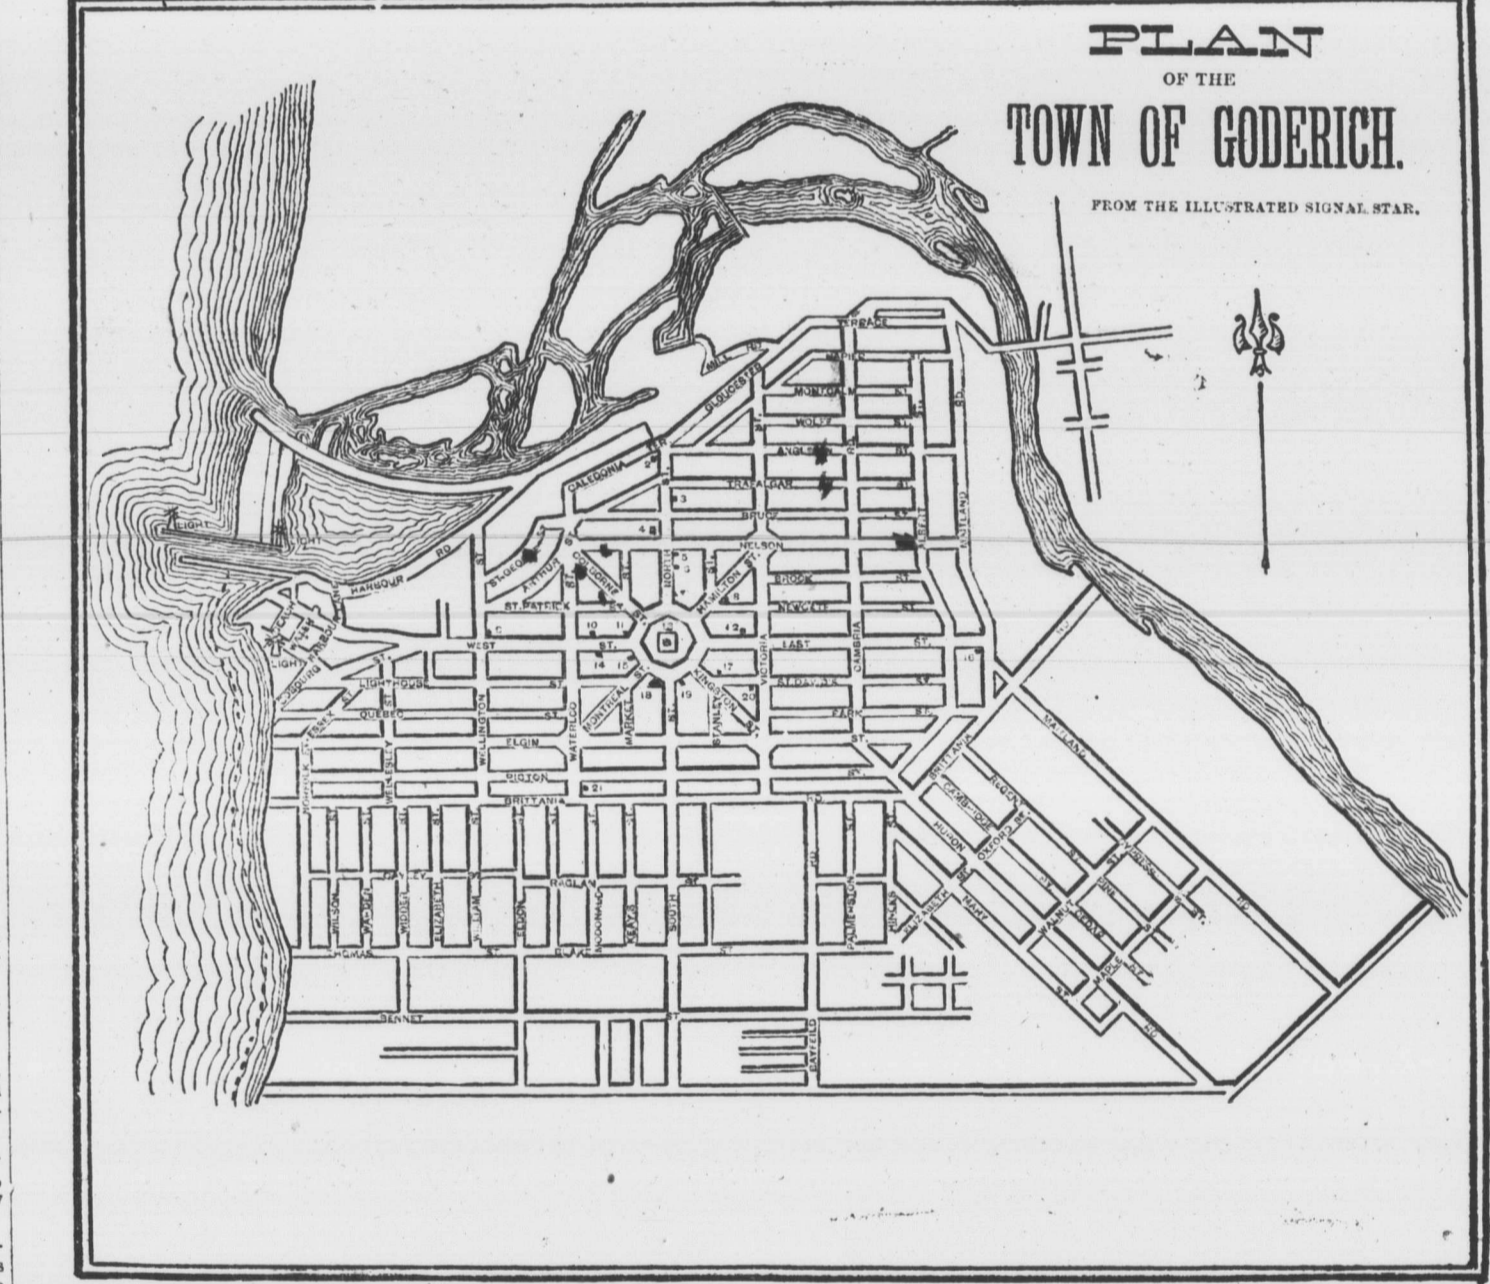

The steamer Ontario, of the Beatty line, arrived in port on Monday, and after discharging cargo and landing passengers, left for Sarria.

The Beatty line steamer United Empire arrived on her regular trip last Wednesday morning, and after taking on passengers and freight left for Lake Superior.

The schooner Goldhunter, with a cargo of lumber, arrived in port last week. After discharging the Goldhunter took on a cargo of hay, and sailed for Serpent river on Wednesday.

Miss Lu Patterson, who has been in Selmona city, Kansas, for over a year, has returned to Clinton, preferring residence in Canada.

Mrs. W. B. Dickson and Miss Kate McCormack are back to Brussels. They arrived there from Helena, Montana, on Wednesday evening, having visited relatives and friends at Chicago, Detroit, and London.

WENT AGAINST HIM.—The following from the report of the Middlesex assizes has a local interest:—"Bixal vs. McDonagh was an action for libel brought by a firm of Strathroy brewers against Rev. W. McDonagh, of the Front Street Methodist Church, Strathroy, who, in a sermon delivered Dec. 3, 1888, and advertised during the week as a sermon on municipal matters, had taken as his subject, 'How Barabaa got out of jail.' There was a large congregation present, and the different statements claimed to have been made by the defendant, in the course of that sermon, are:—'What is beer? What is the filthy stuff made in the town? Made out of the dirty canal water at the back of the town?' 'What is beer? Look at the pretty stuff made in this town—made out of the filthy creek water at the back of the town.' 'The beer that is manufactured at the brewery is made from the dirty, rotten water that flows through this canal—pointing in the direction of the creek that flows north of the brewery. Mr. Oler, for the prosecution, said that the action was brought to vindicate the character of the plaintiff. Mr. McDonagh would not retract the statement, and so, to properly deny the statements, he asked the jury to decide whether a minister could or could not use his pulpit to slander his fellow citizens, whether Mr. Oler, for the prosecution, whether the temperance question was for the plaintiff, or for the defendant. The jury gave a verdict for \$30 and full costs. 3,000 was the amount claimed."

The Y. W. C. T. U. entertainment, which was to have been held on May 23rd, has been postponed until Tuesday, June 4th, when an address will be given by Rev. J. H. Simpson, of Brucefield, on "Woman's Work and Influence."—"A good musical program, under the supervision of Miss Wynne, will be provided."

The Horseman Publishing Co., Chicago, is after a fellow named Hesley, who, it is stated, has been travelling through Canada collecting subscriptions to their paper and making no returns. The circular from The Horseman says:—"That others of our friends who have not been victimized by this man may be on their guard against him, his description is given herewith: Between fifty and fifty-five years of age; he is about five feet six inches tall and looks like a man who would weigh 140 pounds, but really is heavier; gray eyes, dark brown hair well tinged with gray; moustache and whiskers of the same description, the latter worn short and close cut, in the form of side-burns. His hair is thin and bald on the crown of the head. His complexion is sallow and features rather pinched. He was born in Quebec, can speak French, and for fifteen years was a commercial traveler for ready-made clothing houses in Hamilton and Toronto. Almost every hotel-man in Canada knows him. If any of our friends meet this man, they will confer a favor upon us by telegraphing us at once at our expense."

Reeve Beck, of Saltford, has returned from his trip east. Some say he was in Ottawa with Mr. P. Kelly, of Blyth, agent the Goderich postmaster's appointment, while others contend that he went no farther than Toronto.

Obit.—An old and esteemed resident of the town departed this life on Sunday last, in Mr. John Craig, who died at the residence of his son William. For something like forty-three years he had been a resident of Goderich, and was one of the old settlers. For a considerable period he had been indisposed, and of late his malady had assumed such serious complications that he was unable to take needed nourishment. The funeral took place to Maitland cemetery on Tuesday afternoon, and was largely attended.

MASONIC.—Right Worshipful Bro. J. Ross Robertson, Deputy Grand Master of the Grand Lodge of Canada, will visit Maitland Lodge No. 33 at Goderich, on Thursday, the 6th of June, and will deliver to the Masonic Brethren his lecture, entitled "Masonry 100 years ago in Canada." This will no doubt be a most enjoyable and interesting Masonic event. R. W. Bro. Robertson, being a masonic student of no mean order, and having devoted a large amount of time and money in masonic research, it is to be hoped that there will be a large turnout of the fraternity, as it is "without money or price." All visiting brethren are cordially invited to be present.

On the evening of Wednesday, June the 5th, an attractive program will be presented, to which all are invited.

"THE ILLUSTRATED SIGNAL-STAR"—This handsome pamphlet, which has received strong encomiums from all qualified to judge, is now being rapidly placed in circulation. From newspaper men and artists we have already received flattering comments. It is quite true that, like everything else turned out by Goderich workmen, it has received unfavorable comment from one or two jaundiced persons, but up to date we have heard of no person competent to judge, from a literary, artistic or typographical training, who has done any carpentry. The publishers promised a good article, and the promise has been more than faithfully carried out. The people who decry the Illustrated Signal-Star were never known to help the town in any respect. The sale of the pamphlet has thus far exceeded our most sanguine expectations, and this fact is worth more to us than the barren opinion of any hypocritical nobody.

Judge Stclair and wife, of Hamilton, are in town.

Last Friday while Jas. Blashill was carrying a pail of hot water at the Brussels slaughter house his foot slipped and he fell. The result was one of his arms was scalded and one side of his face also got a touch. He was laid up for several days.
