EARL KITCHENER ORGANIZING BIG ARMY.

Special to Evening Telegram.

LONDON, To-day.

Premier Asquith moving a resolution in the Commons this afternoon to increase army by half a million men.

paid a vast tribute to the War Office organization and dealt with various difficulties connected with the rush measures which had been taken, which he said met the congestion.

These include an allowance of 75 cents a day to those for whom no accommodation could be found in barracks. If the grant were passed he was sure the response would be no less keen and ample than was the first levy. He could then be in a position to put something like one million two hundred thousand men in the field. That was the provision of the Mother Country herself, exclusive of the Territorials, the National Reserve and the magnificent contributions promised from India and the Dominions. It was an effort worth a sacrifice. As to the expense involved, the Premier was sure the Commons would be ready to grant money as occasion arose, but he would have it made clear that these showing a patriotic desire to help the country in the present crisis were not going to be treated lightly or in an unaccommodating spirit. On the contrary, said Asquith, they will be welcome. Every possible provision which will be made for their comfort and well being, so they can take their place and play their part under the best possible conditions. That magnificent expeditionary army in France which every one knows who has read Field Marshal French's despatch, has never done its work better, never shown itself more worthy of long centuries of splendid traditions than the last fortnight. Bonar Law, the Leader of the Opposition, expressed the Opposition's cordial support of the Government's proposals.

England may close North Sea.

LONDON, To-day.

There is a general discussion in London on the possibility that England may close the North Sea blocking it completely, if the trouble with floating mines continues. The Government's position is that shipping of neutral nations is in great danger because of German mines. England has repeatedly stated she will not resort to those mines. After mine sweepers free the North Sea of obstruction, however, naval strategists advise the exclusion of vessels which might plant more mines. Such action would limit the commerce of Holland, Denmark, Norway, Switzerland, cutting off the German source of food supply. British officials say there is abundant evidence that mine layers have operated under a neutral flag and that it is the intention to keep the strictest watch over all craft in the North Sea. The official information Bureau issued the following last night: Yesterday and to-day strong numerous squadron and flotillas have made a complete sweep of the North Sea up to and into Heligoland Bight. The German fleet made no attempt to interfere with our movement and not a German ship of any kind was seen at sea.

CAPTURE TWO GERMAN SHIPS.

Special to Evening Telegram.

LONDON, To-day.

Two German ships, Orlando and Goldbeck, the latter from Tacoma for London, have been captured by the British in the Atlantic. The Orlando left Mejillenes, Chile, on May 27, for the English Channel.

LABOR WINS.

FRANCISCO, To-day.

The labor party was victorious in

the Australian general election. According to information received here, the new alignments will be: House of Representatives, Labor, 41, Liberals, 31, Independents 1; Senate, Labor 32, Liberals 4.

"INDISCRIMINATE MURDER."

LONDON, To-day.

In the Lords Baron Wilmorine announced on behalf of the Admiralty that any person caught laying mines under a neutral flag will be court martialled. Earl Camperdown, formerly Lord of the Admiralty, characterized the alleged laying of mines in the commercial routes by Germany as indiscriminate murder.

"INDISCRIMINATE MURDER."

LONDON, To-day.

The Commons voted unanimously for a half million more recruits. The country was surprised by the announcement that 430,000 men had already been enlisted since the beginning of the war. The Government's plans are completed. The British army for the continent and for Home service will consist roughly of the following: Regular army, 1,200,000; territorials, 300,000; reserves, 214,000; Indian contingent, 70,000; Canadian first and second contingent, 40,000; Australians, 20,000; New Zealand, 10,000. Total 1,854,000. This tremendous enrolment for a country which normally has only a small professional army has thrown a light upon the Government's views regarding the duration of the war or at least upon its determination to meet all possibilities. A casualty list published yesterday brings the army's losses to nearly 19,000 men, exclusive of the past three days fighting.

NOON.

TROOP TRAIN PLUNGED DOWN EMBANKMENT.

Special to Evening Telegram.

LONDON, To-day.

A Capetown despatch says a troop train loaded with 600 soldiers for the coast for shipment to Europe was derailed. The locomotive and ten coaches plunged over a twenty foot embankment. Six were killed and twenty injured.

PASSAGE OF MARNE COST GERMAN DEAR.

LONDON, To-day.

A Paris correspondent to the Express quotes a message received from the front stating that the allies at last have got into their stride and the passage of the Marne has cost Germany dear. The message says they fought their way step by step, tired though they were; but at Marne on the 7th the French army got in. The German positions were no longer erected than they were swept away by the French artillery fire. Germans held on steadily but lost heavily, and finally succeeded in getting across the River under a torrent of fire. The British army was not so heavily engaged during the day. There are approximately one million six hundred thousand men in the allies' fighting line.

SERVIANS CAPTURE AUSTRIAN TOWN.

NISH, To-day.

The Serbians occupied Semlin across the River from Belgrade this morning, after a bloody battle. Semlin is an important town of Austria-Hungary in Slavonia.

RUSSIANS SINK AUSTRIAN STEAMER.

PETROGRAD, To-day.

An Austrian steamer has been sunk by a Russian battery located on the banks of the Vistula.

12.45 P.M.

FRENCH RECAPTURE MUELHAUSEN.

LONDON, To-day.

Despatches from Basel, Switzerland, state the French have recaptured Muelhausen.

KAISER AT LUXEMBURG.

LONDON, To-day.

A despatch from Amsterdam says that the German General Staff and Emperor William are now at Luxembourg, where the Germans are encamping in 700 tents.

GERMANS FAIL IN TURNING MOVEMENT S. E. OF PARIS.

LONDON, To-day.

A correspondent of the Times at Bordeaux sends the following: It is now beyond doubt that the German turning movement to the southeast of Paris has been defeated, and there is a dawning hope that the Allies' left, which has borne the brunt of the enemy's blow since the fighting at

Mons began, is now about to take revenge. The Germans have been fighting desperately to guard their line, which was in considerable danger from the Allies' left. They have been forced to retreat from the onslaught of the British, and the withdrawal of the German right is now bound to assist the French in forcing back the centre, unless the Germans desire again to find themselves obliged to follow the Imperial Chancellor's advice and "back their way through."

The German check in front of Meaux and Verdun line has had this echo throughout the field of operations. On the extreme French right the enemy's division bearing down upon Nancy has been thrown back behind the forest of Champenoux.

GERMANS WEAKENING IN NORTH BELGIUM.

LONDON, To-day.

An Amsterdam despatch says the Belgians are back again in Tervuren. The Belgians continue a vigorous offensive throughout the Province of Antwerp, according to a despatch, and in East Flanders they have driven the Germans from the vicinity of Aerschot and Diest.

GERMANS FORTIFYING.

ROTTERDAM, To-day.

A courier's Belgian correspondent says the Germans are fortifying themselves in Ninove, Alost, Mains and Aerschot, Belgium. They are making any real effort against Antwerp and most of their attacks on Belgians of recent dates are merely feints to keep the Belgians occupied.

Monday's fighting at Melle, 5 miles southeast of Ghent, was undecided.

2 P.M.

Special to Evening Telegram.

KINGSTON, To-day.

The Hamburg-American Line steamer "Bethanie," towed into harbor here as a prize by British cruiser, has on board 400 Germans who have been taken prisoners. The "Bethanie" left Genoa July 25th for the West Coast of South America. She is 4,847 tons.

Official.

Sept 11th, 1914.

The Following Bulletin Posted at St. Pierre.

OFFICIAL.—To the left the allied troops crossed the river Marne between La Fere sous Jouarre, Chilly and Chateau Thierry and pursued the enemy. During the pursuit the British army captured numerous prisoners and took a number of guns.

During the four days battle the allies have advanced over twenty miles between Chateau Thierry and Vitry Le Francois. The Prussian guard was thrown back North of St. Gaud and Marselles. The engagement continues very violently in the region between Mailly and Vitry Le Francois. In the centre and at the left the situation unchanged. On the River Ornan and Mont Ailly both adversaries are maintaining their positions. In the neighborhood of Nancy the enemy has gained a slight advantage on the Saline Road. On the other side the French have made good progress in the forest of Champenoux.

The losses are considerable on both sides. The moral and sanitary conditions of our troops are excellent. Absolutely no confirmation has been received in regard to news published by German newspapers on the fall of Maubeuge. Another German standard, that of the 94th infantry, was taken at Senlis by Hussars.

OFFICIAL FROM PETROGRAD: The Russians are occupying Austrian town of Soutchava and Gafna near Rumania frontier. The Cossacks brought from Frampol 17 officers and 445 soldiers and large equipments. Another Russian infantry regiment captured 700 soldiers south east of Semastasia and also a regimental box containing 150,000 crowns. The Serbians have crossed the Save and after a terrible battle occupied Semlin at 4 a.m.

Two Games Monday.

On Monday morning at 10.30 the final game in the League post-series will be played when the Red Lions and Wanderers will play off. The decisive defeat which the former administered to the Shamrocks on Wednesday afternoon would tend to the belief that they are good enough to give the Wanderers a run for their money, particularly in view of the fact that they have now the assistance of Anderson. In the afternoon at 2.30 an exhibition game between the College Cubs and B. I. S. will take place at the request of the "fans" and supporters of these clubs. It will be remembered that both these lines tied for the honors of fourth place in the League series, and different opinions are expressed as to which is the better team. As there will be the last game for the season it is expected that all the "fans" will turn out in their glory to help stave away the out-of-the-spring of 1915. We will probably publish the line-ups to-morrow.

S. S. DURANGO.—S. S. Durango will sail from Liverpool to-morrow.

The Aylward Case.

To the Editor Evening Telegram.

Dear Sir,—In your issue of the 9th inst., under the caption "Wholesale Robbery," the following appeared:—

"A young woman named Hannah Aylward, aged twenty-one years, belonging to an out-harbor is now in the clutches of the law and will be detained to stand her trial charged with committing a series of thefts. Accused had been engaged as a domestic with Mr. R. J. Rennie, who three weeks ago dismissed her on a charge of stealing. Mr. Rennie believing that he had been victimized, investigated and discovered that he was minus a valuable gold watch, and an expensive photo album. Mr. Rennie then lodged a complaint with the police, and Constable Tobin was not long in rounding up the accused, although the latter in an attempt to evade capture, went to a remote section of the city in service. Since her arrest it has been brought to light that a considerable quantity of other articles than those already mentioned were removed from Mr. Rennie's residence."

The injustice of the above must be apparent to all because upon the conclusion of the case of the complainant Mr. Rennie, upon motion of Hon. Mr. Gibbs, K.C., who acted as counsel for me, Judge Conroy dismissed the charge.

The conduct of a reporter in sending a report of this character to his paper merits the severest punishment. Perhaps it is because I am a defenceless girl that I am treated in this manner, but I presume that justice can be obtained. But it costs money to obtain it.

A cruel wrong and injustice has been done me by Mr. Rennie and his wife. Upon the slightest suspicion application is made by Mrs. Rennie for my arrest for the theft of a watch and an album. The latter article, according to her own admission has been missing for some months and the watch, which was locked in a cabinet in her bedroom of which the key was held by her had been taken, although it was not even hinted that there was a second key or that the cabinet drawer had been opened in evidence of being forced open in any way.

The crying injustice of your report is contained in the allegation that I made an attempt to evade the police by going to a secluded part of the city and that other articles had been missing. I did not go to a secluded part of the city, but found employment in a good and respectable home on Barnes Road one of the principal thoroughfares of the city. I could not afford to live idle. I am poor and must work to do for myself but a crippled father and young helpless brothers and sisters who reside at King's Cove.

Now that the case has been disposed of, and my innocence fully established, reparation is due me. This I await.

Yours truly,

HANNAH AYLWARD.

[We willingly publish this communication of Miss Hannah Aylward, and regret sincerely that anything should have appeared in our columns which in any way wronged her or gave her pain and annoyance. The charge against Miss Aylward was dismissed, as we stated in our report yesterday, and she left the court fully acquitted of the charge laid against her.—Ed.]

Sulphate of Ammonia.

St. John's Gas Light Company.

Dear Sir,—I have analyzed a sample of Sulphate of Ammonia made at your Works, and I found 20.5 per cent. of NITROGEN. Sulphates of Ammonia and Nitrate of Soda are the two principal Nitrogen manures.

Sulphate of Ammonia is less soluble than Nitrate of Soda, consequently it is a safer manure to use during a wet season.

Yours truly,
