To-Night's Game.

The football match between the C. E. I. and Stars this evening promises to be the best game for the season. Both teams are the longest of any in the League and have played many a hard fought game. In the olden days when the pink and green and the red and white clashed standing near the rail surrounding the field was often at a premium. A win for either team to-night will give them a lead in the first round. The league has decided to charge ten cents admission fee instead of five cents. The proceeds are for patriotic purposes and we feel sure every enthusiast will pay up with a smile.

The Nfld. Quarterly.

SUMMER NUMBER.

Established 1901; 69th Edition; the only general magazine published in the Dominion, will be issued Saturday, July 27, and for sale at all the Book stores and Agents in the Outports at 20 cts. per copy. Cable News.

GERMAN LOSSES.

PARIS, July 23. L'Homme Libre, Premier Clemenceau's newspaper in a review of the military situation, says that the German losses since March 21st are approximately 1,000,000 men.

ARTILLERY ACTIVITY.

PARIS, July 23. Artillery activity along the battle-front during the course of the night is all that is reported officially to-day from the French War Office. A brilliant French operation north of Mont Didier, the statement says, resulted in the occupation of the villages of Sully, Raineval, Souvillers and Auberville and the capture of 360 German prisoners.

TOWNS CAPTURED.

LONDON, July 23. The town of Jaulgonne on the Marne has been captured by the Americans who are continuing their advance. Three hundred prisoners were taken. The Americans on the front south of Soissons captured the town of Bussigny. The French captured Oulchy-le-Chateau on a front between the Marne and Rheims. The British captured Pete Champ Wood taking 200 prisoners and 14 machine guns. According to advices received in London the French this morning began a new attack in the region northwest of Mont Didier. The Germans are stiffening their resistance between the Ourcq and the Aisne and bringing up their heavy guns.

FRENCH ATTACK PROGRESSES.

LONDON, July 23. The French attack near Mont Didier has progressed to the west edge of the wood north of Sauvillers-Mongival, which means a total advance of two miles. This point is about 2,000 yards east of Millly-Raineval and gives the French control of the heights dominating the valley of the Aisne. Twelve hundred Germans were made prisoners.

AVIATORS' WORK.

PARIS, July 23. One hundred and thirty-seven German airplanes were brought down or put out of action by French and British airmen yesterday. Four captive balloons were burned and many tons of bombs were dropped on German concentration points. The statement is made in the official statement issued by the war office to-night.

STILL RETREATING.

WITH THE AMERICAN ARMY ON THE MARNE FRONT. (By the Associated Press.)—Information reaching the Intelligence Department of the American Army to-night indicated that the Germans were still continuing their retreat. Far behind their lines they are subject to a heavy fire by both French and American guns, which doubtless is hampering the movement of their enormous supplies.

A HEAVY FIGHTING.

LONDON, July 23. South of the River Ourcq on the Aisne-Marne front the advancing French forces are reported to have had very heavy fighting to-day. Nevertheless they have succeeded in reaching many places on the railway between Armentieres and Coucy.

RAIN HINDERES OPERATIONS.

WITH THE FRENCH ARMY IN FRANCE, July 23.—A drenching down-pour of rain over the greater part of the southern battlefield hindered the operations of both Allies and Germans last night and to-day. Further north French troops executed a remarkably brilliant minor operation between Moreuil and Mont Didier, attacking and capturing three villages around which some heavy fighting took place in March and April. They are Mailly, Raineval, Sauvillers and Amblois, all situated on the heights overlooking the Aisne River. Their possession is of great importance.

FISHING SCHOONER TORPEDOED.

PORTLAND, Me., July 23. A telephone message from Cape Porpoise just outside this harbor, said a dory containing three men from the Gloucester fishing schooner "Robert and Richard" had landed here, bringing word that their ship had been torpedoed by a German submarine. The

sinking, they say, occurred at 10.30 yesterday morning. Five other dories containing 33 men, were coming in behind, they reported.

CONGRATULATING SOLDIERS.

PARIS, July 23. (Havas Agency.)—The Municipal Council of Paris and the General Council of the Seine have sent congratulations to the French and Allied soldiers who contributed to the successes of the last few days.

BRITISH OFFICIAL.

LONDON, July 23. Advance in local operations conducted by the British troops last night were officially announced. The line was pushed forward slightly south of Herbuterne on the front between Arras and Albert and south of Merris and Meteren on the Flanders front. British positions were also improved in the Hamel sectors and north of Albert.

EPEDEMIC OF TYPHOID.

AMSTERDAM, July 23. A serious epidemic of typhoid is reported from Berlin.

WILSON'S PROCLAMATION.

WASHINGTON, July 23. President Wilson's proclamation taking over for the duration of the war the operating of the telegraph and telephone was issued to-day. It didn't include radio systems and ocean cable lines. The Government control begins at midnight on July 31. Supervision, control and operation of the wire system is placed under the direction of the Postmaster General. The President's proclamation provides that the Postmaster General if he elects may administer the lines through the owners, managers, boards of directors or receivers. It provides further that until the Postmaster General directs otherwise the present management shall continue.

THE FOOD SITUATION.

LONDON, July 23. Speaking at a luncheon given in his honor to-day the American food administrator gave a most reassuring review of the food situation. We can say emphatically that all anxiety as to the great essentials of food is now past, said Mr. Hoover. In practical results we have turned the corner, he continued, our loaf will improve in quality and we can deliver it without restriction. Our meat and fat supplies are ample. The period of our anxieties in the matter of food is in all essentials now past. Mr. Hoover paid a tribute to the late Baron Rhonda's work in the successful rationing of the British people in that he said he laid down his life but not until the national peril had been met and past. Mr. Hoover said the Allied food administration for the next harvest takes a new phase, and the submence no longer threatens the day to day supply.

10.30 A. M.

AIR RAID BY BRITISH.

LONDON, To-day. (Official.)—In a raid carried out on the afternoon of the 22nd inst. the main station of Offenbourg (Baden) was hit and bursts were seen in the sidings. One hostile machine was destroyed. All our machines returned. On the night of July 22-23, repeated attacks, attended with good results, were carried out against the enemy's airdromes. Fires and explosions were seen and other targets were engaged with bombs and machine guns.

WAR REVIEW.

LONDON, To-day. (By the A. P.)—Entente troops of the Soissons-Rheims salient continue to gain ground both on the west side of the front and on the south at the Marne and towards Rheims, notwithstanding the increasing resistance of the enemy and the bad weather that is prevailing. On the southern part of the line, while the latest gains recorded are not as great on the whole as those of previous days, they nevertheless added positions of strategic value to the Allied line for the further prosecution of the efforts to clear this territory of the enemy. In the fighting more prisoners, guns and war stores have fallen into the hands of the Americans and French troops. As a diversion, the French to the northwest, midway between Soissons and Amiens, have delivered a blow against the German line which

World's Best Shot

IN UNITED STATES ARMY.

Philadelphia.—Capt. Lee has been assigned to the Small Arms Firing School at Camp Perry, Ohio. At this school soldiers are to be instructed in the use of small firing arms. One of the instructors will be Capt. Lee. Lee differs from many champions, in the fact that he is a capable strategist. That he knows something about firearms is proven by his title, "the champion all-round shot of the world." This is no empty title. The world is a mighty big place—and there are many, many excellent shooters with every kind of a firearm—so when this young man of 30 years reaches on the championship title following his name, it is proof positive that he has something on all the rest of us.

How He Came of His Name.

Wherever firearms are handled they know of "Tackhole" Lee. Maybe you would be interested in knowing how he came to be known as "Tackhole." Brush up your memory and go back to the days you went out in the fields to shoot and fastened the target to the trunk of a tree, with a tack in the centre of the bullseye. The fellow who could hit the head of the tack was "some shooter." The head of the tack was too big a mark for Lee. He could hit the hole the point of the tack made, and therefore he became known as "Tackhole" Lee. Lee would be a pretty good man to turn loose in quest of the Kaiser. He invariably bags what he goes after, and if he could get within sight of the Kaiser he wouldn't take long to end this war and make the world free for all peoples and put an end to German domination. If we were commanding the United States army we would like to have a lot of fellows in our front line who could shoot with the same accuracy as Lee. Generals would be more or less excess baggage—the same as managers are to high-class baseball teams.

Lee is such a good shot with the rifle, revolver, pistol and shotgun that we do not feel like delving into his records for fear that you will think we are trying to put something across that isn't just so. While he has been shooting since he was 12 years of age Lee did not go into official competition until 1912, and the following year and every year since, excepting 1916, when he didn't compete, he has won the rifle championship of the United States. In 1914-15 and 18 he scored 2,000 out of a possible 2,000, and in 1913 and 1917 he scored 1,999 out of 2,000—for a total of 9,998 out of a possible 10,000 in five years. This will just give you a faint idea of how closely he gets to the bullseye.

Beat The World's Best.

He won the Martin invitation rifle match in 1914—with three of the best small bore men in the world competing—with a score of 999 out of 1,000 possible. This was with 100 shooters. In the International rifle match in 1914, with 50 picked men from England, Canada, Australia and the United States competing, Lee scored the possible 500. These and many other notable performances are credited to Lee with the rifle.

He is just as proficient a shot with other arms. He is the present revolver and pistol champion of the United States, with 432 out of a possible 500 with the pistol—a world's record, and 477 out of a possible 500 with the revolver.

A year ago some friends persuaded Lee to take up the shotgun and see what he could do at the traps. He did. He never handled a shotgun until the spring of 1917, and after shooting less than 300 shells Lee entered the Alabama State championship trap-shooting tournament—for, as we failed to tell you before, Lee lives in Birmingham—and was runner up. He won the Sweepstakes with 147 out of 150, and in the championship race on the same day broke 98 in 100, tying for second and winning on the shoot-out with 29 straight. In other words he broke 265 targets out of 270 in his first competition—and in the rain at that.

Therefore, you will believe us when we tell you he is just about the slickest thing with firearms in all this world—and a creditable acquisition to the United States army.
