London, Tuesday, April 21.

THE BEFOGGED LONDON "TIMES." The London Times affects to believe that a great change has taken place in the public ppinion of Canada since the election, basing that belief on "echoes of the election which are carried over the Atlantic." The accounts brought over by Canadians make it plear to the Times, among other things, that many of Mr. Blake's personal and political friends voted Conservative, and that it is thought not unlikely that Mr. Blake may again come forward as leader of a new party "which will adopt a policy in favor of imperial connection even more pronounced than that of the present Conservative party." The Times knows very little of Canadian politics when it can write in this way. We do not believe that one man among the many personal and po-litical friends of Mr. Blake voted Conservative at the last election; and as for the expectation that a party under his leadership is likely to be formed with an imperial connection policy, it is too ridiculous to be entertained outside of old London.

people of that country. We think we may venture to say that such thoughts are not entertained by Edward Blake, but, on the contrary, that he has always regarded Americans and American institutions as United States has risen 79 per cent.; the worthy of respect and admiration. It could hardly be otherwise, considering of the same race, we have a common anguage, our systems of government are very nearly identical, we are neighbors, and in spite of absurd fiscal policies we carry on a large trade with each other, and we know each other infinitely better than we know our other kinsmen across the sea. We have nothing but kind thoughts for the people of Great Britain and Ireland; but it is folly for the London Times to suppose that we are incapable of exhibiting a manly and generous respect for the citizens of the United States, as well as for the citizens of the United Kingdom.

WOULDN'T TAKE MR. CARLING. Mr. Carling is finding it uphill work to get a seat. The other day the Toronto Empire published a report that a seat was to be found for him in Algoma, in which an election is now pending. It seems, however, that the Algoma Tory leaders do not wish to have a defeated candidate foisted upon them. They were importuned to take Mr. Carling, and Mr. Creighton, the Empire manager, at the eleventh hour and by freight train, rushed to Sault Ste. Marie, to offer inducements to Mr. Mac-Donell, the nominee of the Conservative convention, who, it was hoped, could be prevailed upon to retire. The terms offered were rejected, and Mr. Carling is again in the cold. It is now reported that "The Advertiser" is an organ of news he will be given a seat in the Senate. Such a disposal would be in accord with the idea he will be given a seat in the Senate. Such -not a very elevated one, it is true-that when a Conservative candidate is rejected by the people that moment he becomes a fit subject for preferment at the hands of his political leaders. The Senate was not formed to be a refuge for politicians discarded by the populace, but that is the chief use to which the so-called upper chamber has been put.

The coolest neads in Mark Lane and the Baltic agree that there will soon be a fall in the price of wheat, but not to the same level as before. Our own impression is that dollar wheat has come to stay for the summer, but as there is very little in farmers' hands in Ontario, the fact is not of material moment to them. If they are able to get over \$1 per bushel for the

On chicory 2 cents per pound duty has to be paid in Canada; it is free when sent into the States, and the count means to find his market in the Republic mostly. The plant is like the parmip. It is a smooth, white root, and can stay out through the winter like the parsnip. Thus the farmer can harvest it any time from September to May. It is a vegetable, and can be cooked and eaten like the parsuip. It is a bitter vegetable, like cof-fee, but perfectly healthful. Cattle and sheep eat it and thrive. The process of making chicory for the market is simply to slice it and dry it brown like dried pump-If the Times writer was capable of understanding Mr. Blake's letter he could never be led to believe that imperialism his way east from the territories, that chickers likely to form any part of Mr. Blake's was likely to form any part of Mr. Blake's ory does not adulterate coffee. In view of the fact that a general elecance of these contests can scarcely be over rated. It is understood that the Liberal and some remarkable surprises are promise Though it is scarcely to be expected that Mr. Gladstone and his friends will capture the seats with the large majorities in favor of the Tories, they are represented as having a fighting chance in more than one of them, while the seats with the small majorities may be won by them. If the contrary should be the result, Lord Salisbury is expected by many to regard the evidence as pointing to a Conservative success in a general election, which would almost immediately be decreed. In this opinion, however, the Liberals do not concur. They say they would cheerfully welcome present defeat if they could speed on the general election that they confident ly believe will bring them triumph.

CAMPBELL'S LATEST POEM Not long ago we had occasi appreciatively of a poem in the April number of Harper's Magazine called "The Mother," written by our distinguished countryman, Rev. W. W. Campbell, whose identity, were it not for the frequent appearance of his name in the magazines, would be almost hidden under the parochial cares incident to his calling at Southamp ton, Bruce county. It is a pleasure to quote the following words of well-deserved praise from the Chicago Inter-Ocean on the same

piece of poetic work:

"The nearest approach to a great poem which has cropped out in current literature for many a long day is "The Mother," in Harper's Monthly for April. It may be a self-condematory confession, but we must say that the name of the author, William Wilfred Campbell, is new to us. A subject inviting poetic treatment and rich in the pathos which gives to poetry into flavor, and stamps it as being the choicest vintage of literary expression, is so

But the pathetic side grasp. He was the ...ureate of man in his child period. This one little poem by William Wilfred Campbell, which will probable share the common fate of current literature in its precipitate march to the grave, touches a finer chord in the heart than was dreamt of in the poetry of Homer."

Chatham Bahner.

Eggs were quoted in Detroit on Saturday at 13 cents; duty, 5 cents; price in Chatham, 8 cents. There is no mistaking the meaning of the figures. The Canadian farmer's wife who lought 12½ pounds of sugar in Chatham on Saturday gave 12½ dozen of eggs for it. The American going to Detroit market the same day got 35% or the same number of eggs. What pounds for the same number of eggs. What a blessing the N. P. is to the farmer, to be

Hit is right for Patti, for Henry Irving, for Langtry, for the vast army of English actors, lecturers and preachers to come here for the sole purpose of making and carrying away what is a considerable fortune—and I doubt if any one will deny their perfect right to do so—why should that be used as an argument against the Chinese any more, indeed, than it be urged against emigrants who go to California, to Australia for gold to India, to China, to Japan for fortunes, which they propose to make and bring away?
