London, Thursday, Aug. 12.

Playing With the People. When the Manitoba school question was before the Dominion Parliament Sir Charles Tupper, striking a theatrical attitude, announced his determination to devote his life to the pass- deavors. age of the legislation therein crystallized, and if need be to die for it. That is only a month or two since, yet within the last week Sir Charles Tupper sent Mr. George Taylor, M.P., up to North Grey to tell the electors of that constituency that he had taken it all back-that he no longer intended either to live or to die for remedial legislation! On the strength of this recantation, the chief Conservative whip asked the electors to vote against the election of Hon. Wm. Paterson. The experience proves that either Sir Charles Tupper was not sincere when, last spring, he professed his readiness to become a martyr for a principle, or he is insincere now.

In the matter of trade with Great Britain the first month under the new Canadian Government shows up well. The British trade returns for July show that the imports from Canada increased 7 per cent, while the imcreased by 2 per cent. The exports to Canada, as compared with July of last year, increased 6 per cent.

In either case, he has proved himself

to be at best a Buckram Knight.

Not Cold Water.

Rev. Dr. McKay, of Woodstock, and other outsiders who have undertaken to discuss the question of the causes of Mr. Beattle's temporary victory in the recent election in London, seem to be under the impression that it was cold water and a rush of temperance sentiment to the head which brought about the result. Let us ask the rash expounders to possess their souls in patience until such time as justice. It will be found that the fluid turned to account to secure the election of Mr. Beattie was of an altogether different consistency from cold water.

It must cause men like Hon. Geo. W. Ross some curious reflections to observe that, after all their efforts and sacrifices in the cause of temperance, there are a certain class of people who never think of thanking them for what they do for the cause. but simply attack them for what they do not do.

Settle the Northwest.

New Zealand farmers have arrived in There is also prospect of considerable emigration from Australia to Manitoba and the Northwest. The Winnipeg Canadian prairies as a desirable place of settlement, supplemented as they are by increased immigration into Canada from Great Britain last month. as stated in our cablegrams. Some of this immigration is no doubt the result of the mining boom expected in Northwestern Ontario, and in the Rocky Mountains, between the Northwest Territories and British Colum-

We have now and have always had the greatest confidence in this country as a place of settlement for the man with a little money, able and willing to work for more. In our great West, we have boundless resources. Lands lie capable of affording sustenance to many millions of persons. There are immense coal fields, rich forests of trees, great deposits of gold. silver, iron, nickel, copper and other useful minerals. We have the richest

cultivated state for speculative or

The following interesting paragraph appears in the Toronto Telegram. which is owned by Mr. John Ross Robertson, M. P. for East Toronto: "It will not take longer than the date

of the first Conservative caucus for the ex-Premier to find that even if be permitted to hold the post of leader of the Opposition his tenure of the place will surely be temporary. The party's best friends acknowledge that a new leader is needed. They know more than that. They know that if any effective fight is to be made the Conservatives must take counsel Sir Charles aspires to a dictatorship. If he be sucessful in attaining his desire the Tories are doomed to ineffectiveness and futility. Young men are needed to fight the young men who are to sit in the seats of the Ministers. Sir Charles believes that he can lead the Opposition; a majority of his fellow-Oppositionists diffrom him. They will be doing

Importance of the Dominion's Latest Acquisition.

miners on British territory. in the old survey were discovered late the census has shown, with lamentable last autumn, and during the winter Much of the money so exmight as well have been in locating the boundary between the two countries, made the corrections, transferring a strip of territory from three to seven miles wide from Alaska to Canada. Over 200 miners were af-

Moore says there can be no doubt their necessity, and filled them with as to the correctness of the new survey. All of Millier and Glacier creeks and part of several other streams, which they ought to have perform- rich in gold digging, are now claimed by the British authorities. It appears that the miners concluded

machinery, there was little money left that the United States Government did not care enough for the territory to run them. At times most excellent to establish a Government fort, inasmuch as Prof. Oglebe was permitted to locate such boundary lines as he chose without the assistance or pres-ence of American officials, and no efwere handicapped in their service, and forts were made to prevent the police from enforcing their regulations over that portion of Alaska territory, Oglebe sending his field notes and observations to Ottawa in charge of his son. He told Moore he would remain in Fort Cudahy until the arrival of American surveyors and check his work if they desired.

IN LABOR CIRCLES.

Bradstreet Summarizes the Situation

The Cleveland Strike. Bradstreet's Weekly Review says: Labor is more disturbed than usual. The great strike of garment workers here has much extended; the strike at Cleveland has broken out again, and involves several other branches of labor; the iron furnace men of the Shenango Valley resist a reduction to the wages of May, 1895. though Mahoning Valley workers do not; the iron works throughout the country are striving to cut down cost in order to keep in operation; the iron mines of the Gogebic range are stopping; the suspension of cotton mills has become more general, and over four million spindles are said to be idle at Fall River alone, and probably three-eighths or more of the entire producing capacity in the country; the rubber works have mostly stopped, and, notwithstanding the light-weight opening a number of woolen mills are cutting down the working force, and also wages have

The strike or lock-out at the Brown oisting works, Cleveland, is practically at an end. Of the 800 men who went out on strike, 500 are now engaged in other employment. The Brown Company has 335 men at work, and has received 25 applications for em-

New York, Aug. 13.-A special from Pittsburg, Pa., says: The Penn-Railway Company is giving its employes a strong object esson in silver. The company pays here by check on the Merchants' and Manufacturers' Bank, of Pittsburg. When the holders went to the bank yesterday to get the cash for the checks they were surprised to receive silver dollars. One engineer, who had been preaching silver, received 117 cartwheels as his wages for July. He made a vigorous complaint, but had to take the silver. The bank officials say they are overloaded with silver, and want to work off the sur They will pay out today \$17,000 in

WILD WEST WAYS

Three Men Fatally Shot and a Conven-

tion Disrupted. Muskogee, I. T., Aug. 13.-Two men were shot and killed and another mortally wounded at the annual convention of the National Party in the Cherokee Nation, held ten miles north of Tehelequah, the capital. The parties killed were Eli Wofford, chief of police of Tehelequah, and Charlie Proctor, deputy sheriff. Leonard Williams, sheriff, was wounded fatally. The row originated over the spilling of whisky. Wofford shot Williams and the latter returned the fire, killing Wofford immediately. It is said Wofford's brother killed Charlie Proctor and escaped. The affair has created intense excitemen't, and will serve to break up the convention, which would have lasted through the week.
