Pray present me." with long empty finger ends. She made Capel a courtesy in spite of her injured ankle, and thanked him hoarsely for his kindness in taking charge of a tiresome old woman. Then with much care she was assisted into the chaise.

"They do say the boys has been having a bit of a scrimmage there by Mirroghmore Pass," said the butler; but sure you'll get through in the height of daylight, and if they medile with you, the colonel can just say he comes from Athgarvan."

"I can tell them that. Did I not use the noble Irish tongue in the old times when I was helping the dear lady who is gone, in her charities," said madane. Come, M. le colonel, let us be going. Capel took leave, therefore, kissing the young lady's hands. He thrilled at the look that came into Grace's eyes as they met his-they were infinitely sad, wistful and loving; yes, absolutely loving. With this delightful impression he sprang into the chaise, the postboy cracked his whip, the assembled men servants gave a cheer, through which came a sound of laughter, and

He rolled up his cloak under her feet, drew up one window and let down another, and was most tender in his inquiries as to her comfort. Her answers were brief, but it was evidently an effort to her to speak. Presently she see ned to sleep, and Capel cheerfully resigned himself to silence and castle building. Two hours had nearly passed when the old lady stirred and roused herself. Capel was immediately on the alert, and administered sandwicnes and wine, but madame did not seem any more inclined to talk than before.

At last madame drew in her head. "Tell The Women's flock Parliament at One Hundred Dollars Offered him to drive on while the boys are in good humor," said she.

The command, however, was neel-less. The postillion used his spurs, the horse broke into a gallop, and for cme yards a cheering, laughing, uproarious following kept pace with the chaise. They soon tailed off, however, and Capel laughingly complimented madame on her fluency in Irish. "You must have a wonderful memory," he

### A FARMER'S WIFE

Tells a Tale of Suffering and Happy Release.

Suffered From Rheumatism to Such an Extent That to Walk About Caused Stomach Trouble - Her Experience Will Prove Helpful to Others.

Only those who have been afflicte! with rheumatism can understand or appreciate fully the agony endured by its victims. Their days are days of pain, and their nights are nights of sleepless misery. And when any of those who have suffered thus are released from the thraldom of pain, how eager they are to let their fellow-sufferers know of the means by which they secured renewed health and happiness. In such cases people who are of a retiring disposition and who have an aversion to anything that savors of notoriety cast aside their personal feeling in the matter and freely give their experience for the good it may do others. Such a one is Mrs. Bradford, wife of Mr. John Bradford, a much respected farmer who lives near Bishop's sound of voices, cries, laughter, reached ville. She says: "Early last autumn I was seized with pains in my knees and wild-looking crowd of ragamuffins, but gradually increased in severity unlimbs. At first they were but slight, some armed with pikes, and some with til it was with the greatest difficulty I could move about. Liniments usually tried in such cases were resorted to without the least beneficial effect. On the contrary, I was continually growing worse, and at last I reached a stage where, if seated in a chair, it was almost impossible for me to arise, and when on my feet my limbs were so stiff that it caused me the most excruciating pain to walk. ### House of Ladies.

Wesley Hall.

An Original Entertainment-Men's Franchise Favored.

The young ladies of the First Methodist Church held a mock Parliament last night, which proved an original, amusing and instructive form of entertainment. Wesley Hall was pretty well filled when the Speaker took the chair, shortly before 8 o'clock. Previous to this, Miss Trebilcock delivered a prologue in admirable style, pre-

senting the claims of woman to the franchise, and preparing the audience for the mock Parliament to follow. Miss M. Stevens then announced deputations from the Men's Franchise Association and the Men's Christian Temperance Union, who wished to interview the Attorney-General and his Ministers, and ask for the extension of the franchise to men. Miss Stevens, on leaving the platform, unfortunately fell, and bruised her head painfully,

but soon recovered. The Attorney-General (Miss Hobbs) and her Ministerial colleagues then took their places on the platform to receive the masculine deputation, composed of Messrs. W. S. B. Barkwell, C. G. Powell, Ed Parker, Dr. Holmes, and F. H. Screaton. The gentlemen were accorded a hearty handshade by the Attorney-General. Mr. Screaton, on behalf of the Men's Franchise Association, made a forcible plea for the right of his sex to vote, and was followed by Dr. Holmes, of the Men's Christian Temperance Union.

The Attorney-General suavely replied that personally she admitted the justice of their claims, but her colleagues might differ from her. She promised that the matter would be taken into their most serious consideration. (Laughter.)

The full Parliament (the Ontario Legislature) then assembled, the Speaker (Miss Lou Owrey) wearing a jaunty official hat, trimmed with ostrich feathers. The Government and Opposition were ranged at her right and left, respectively: The personnel was as fol-

Opposition whip, Miss Ethel Weldon; Opposition page, Miss Ada Hayes. Miss Owrey delivered the address from the throne, announcing the

programme of the session. Bills would be introduced, she said, asking a reasonable grant of money to aid in celebrating the 50th anniversary of the emancipation of women; to assist in constructing a ship canal from London o Port Stanley; to fix the hours of labor from 8 a.m. to 8 p.m.; to allow servants to stay out all night once a week; to confer the title of countess on the warden of any county who held office for two terms; to make civil service officers elective for five years; to permit juries of women only in special cases; to compel street railway companies to support widovers whose wives had been killed by the trolley ears; and to fine and imprison wives who refused to support their husbands. Among the petitions received were the following: From the Men's Comfort Association, with 500 signatures, asking that the interval between housecleanings be extended from six months to two years; that bachelors over 30 rears of age be taxed for the support of homeless and neglected children; to compel the London Street Railway Company to lower their car steps to enable women to enter or leave without the use of a step-ladder, or the qualifications of an acrobat; to admit men to the study or practice of law; to prohibit men from slaughtering birds for millinery purposes; to pro-

hibit men from manufacturing crazy quilts, and painting coal scuttles, etc. The Government was asked if it intended to legislate in regard to preventing men from invading such occupations as dressmaking, millinery, etc., and from wearing high hats in public places; if it intended having & curfew bell rung at 10 p.m., warning men off the streets, unless accompanied by their wives; and if a bill would be introduced compelling men to con-

sume their own smoke. The debate on the franchise question then began. Miss Ware moved the granting of the men's petition, in a fluent and well reasoned speech. Miss Fields, with much vigor and eloquence, seconded. Speeches on the Government side were delivered by Miss Harvey, Miss A. Jolliffe, Miss Beaumont and Miss Graham, and on the Opposition side by Miss Belton. Without exception the addresses would have done credit to any deliberative body. The ladies not only expressed themselves Parliamentary debaters. The subject matter was also excellent and many

neat points were scored. The House went into committee of the whole, and passed the Men's Franchise Bill clause by clause, without amendment. The bill carried by 16 to 12, amid much applause. The clever participants were heartily applauded on retiring.

The programme was embellished by solos from Miss Fowler, Dr. Holmes, and Mr. Knowles, and a duet from Miss Hartson and Mr. Fetherston. Rev. Dr. Daniel presided.

Some Women Already Know the Answer.

"How far may a woman go in encouraging a man to propose mar-riage?" A great metropolitan newspaper gives a prize of a hundred dollars for the best answer to this question. Some woman will laugh seriously. The brightest women will see that the real answer is a pretty one: The strongest, most "fetching" sort of encouragement that woman can hold out to mankind is the irresistible attraction of thorough womanliness; no other influence quite so captivating; no other characteristic so awakens the deepest admiration of men and moves them to express that admiration sincerely. It is not only a woman's privilege but her positive duty to increase by all means at her command her charm of genuine womanliness.

WOMEN'S POSSIBILITIES. There is no need of the suffering and weakness which most women undergo because of "female complaint." It isn't right, it isn't natural. The assurance that it ought to be and could be overcome was felt 30 years ago by Dr. R. V. Pierce, of Buffalo, N. Y. It came upon him as a settled conviction that the women of America might be made a stronger, healthier, happier and far more attractive race of women. so today largely because of this con-

viction and what Dr. Pierce has done to carry it out in practice. He devoted the best years of his life to the study and cure of the diseases peculiar to women; he became eminent in his profession as a specialist in this particular branch of practice; through wide experience he discovered new remedies to cure disorders of feminine organism. After careful research and thorough tests in his extensive practice, he invented and put upon the market the medicine which has since become famous as Dr. Pierce's Favorite Prescription.
