KITCHEN EXPENSES

Reduced by Ready Cooked Grape-Nuts

"Modern food saves gas bills (cooking, labor, and doctor's bills), and food I refer to is Grape-Nuts," says a Chicago woman.

"We have used Grape-Nuts over a year. I weighed, when I began using it, about 100 pounds, but have gained 22 pounds since. I have recovered entirely from dyspepsia since using this delicious food. My husband and children enjoy Grape-Nuts as much as I do, and they have all been decidedly benefited by its use."

My baby is very much healthier than my other two children were at his age. I attribute the difference to the use I have made of Grape-Nuts Food.

"Of course it is a great advantage to have a food that is already cooked and sure to be in good condition. This is not always true of many cereals."

A HOME WEDDING

Marriage of Mr. Edward Bryer, of Metcalfe, and Miss Carrie Patterson, of North Ekfrid.

On April 24 the home of Mr. Thos. Patterson, North Ekfrid, was the scene of a very pleasing and interesting event, when his second daughter, Miss Carrie Patterson, was married to Mr. Edward Bryer, of Metcalfe. Notwithstanding the inclemency of the weather guests were present from Toronto, St. Catharines, Alvinston, Kewwood, Watford, Appleton, and other places, both far and near.

As the clock rang 4, and as the strains of wedding music played by Mrs. Joseph Kettlewell, eldest sister of the bride, pealed through the drawing-room, the bridal party entered, the bride wearing the term of her father, and took their places under a beautifully decorated wedding arch. The bride was richly attired in cream tulle, trimmed with satin ribbon and cream lace, and carried a huge bouquet of deep red roses. Miss Dora Smith, of Watford, cousin of the bride, who was handsomely gowned in white tulle, acted as bridesmaid. The groom was supported by Mr. Sylvester Brown. The ceremony was performed by Rev. Thomas Jackson, of Appleton.

Congratulations being over and best wishes given, the guests, about 120 in number, repaired to the dining-room, where the wedding breakfast was joyfully spread. After the dejeuner the bridal party, accompanied by the merry guests, were photographed by Rev. Thomas Jackson, of Appleton.

The evening was spent in games, songs, speeches, recitations and instrumental music.

The bridal party were the recipients of numerous and costly presents, which bespoke the high esteem in which the couple are held by their many friends.

A ROYAL MINT

FOR CANADA

Mr. Fielding Announces the Government's Intention to Establish One.

Kingston Locomotive Contracts Discussed in the House—Mr. Blair's Explanation.

Ottawa, April 30—Before going into committee of supply today Lieut.-Col. Prior pressed the claim of British Columbia to better terms from the Dominion. Incidentally he referred to the proposal to establish a mint in Canada, which elicited from Mr. Fielding the statement that the government intended to introduce legislation at this session authorizing the establishment of a royal mint in Canada, but upon the question of an assay office he was not prepared to make any definite statement at present. In supply good progress was made with the estimates on capital account for the Intercolonial Railway.

Late this evening, on the question of the contract let to the Kingston Locomotive Works, a discussion of some length ensued. Mr. Blair and Mr. Sutherland explained the circumstances under which the contracts were let, and the advantages to be derived from having the locomotives made in Canada.

The \$2,000,000 item for rolling stock was allowed to stand.

The house adjourned at 12:35 a.m.

A Comparison—1844-1901.

Before me lies a copy of an old New York Central time table, printed in 1844.

Contemplating it, I am led to make some comparisons that give a striking object lesson of the progress of the United States in 57 years.

In 1844 it took 30½ hours to travel by mail train, Albany to Buffalo.

In 1901 by the Empire State Express, it takes five hours and 37 minutes.

In 1844 the fare, Albany to Buffalo, was \$11.50.

In 1901 the fare is \$6.15.

In 1844 the route, Albany to Niagara Falls, was by rail to Syracuse, thence via Oswego Canal and Lake Erie; distance 333 miles, fare \$10, time 32 hours.

In 1901 the distance by New York Central is 305 miles; fare \$6.15, time 6 hours, 14 minutes.

In 1844 the cars were lighted with candles; the sleeping cars; meals were obtained at primitive taverns, and the physical conditions of the roadway made long and tiresome journeys necessary, and a journey an irksome undertaking.

In 1901 the cars are lighted by both gas and electricity; they consist of sleeping, parlor, and dining cars, and the physical conditions of the roadway made long and tiresome journeys necessary, and a journey an irksome undertaking.

where a person may sit and study the ever changing scenery, and the constant succession of cities and towns that make the New York Central famous wherever printed books or papers are found.

call this an object lesson of what the United States has done, because what the great transportation companies have accomplished is only an example of what has been done in many other lines of business, although we must admit that transportation companies have led the way to the marvelous development of the country.

EIGHTY MILES AN HOUR.

Vienna, May 1.—Herr Kress, the aeronaut, on Sunday exhibited his airship at Tullnebrach. The airship is complete except for the installation of 25 horse-power and Herr Kress expects to make his first ascent in June. He expects that the ship will travel from 40 to 80 miles an hour.

The World Over

Throughout the civilized world one fact is becoming plainer and plainer day by day—Japanese Catarrh Cure is the one sure, permanent cure for Catarrh. Careful letters come from the far-off corners of the earth, Europe, Australia, United States, and Canada, telling of the positive lasting cures performed by Japanese Catarrh Cure, when all other remedies had afforded only temporary relief. The fact of people sending thousands of miles across seas and continents for the few boxes that cure them, proves that for Catarrh in every form nothing on the face of the globe equals

Rev. G. Edgar Heal, Fullholding, Isle of Wight, ENGLAND: "I regret that I cannot obtain Japanese Catarrh Cure here, and inclose a postoffice order for six boxes. Japanese Catarrh Cure is the only medicine of the many I have tried that has done me any real good."

Mosses, Cornell & Co., RICHMOND, AUSTRALIA: "Inclosed find order for six more cases Japanese Catarrh Cure. We must say this has proved itself an article of undoubted merit. It will have an enormous sale here when more widely known."

J. S. Hamell, 615 W. 29th Avenue, Omaha, NEBRASKA, U.S.A.: "I have tried about every Catarrh remedy made on this side of the line, but never got the slightest permanent benefit. Some time ago I sent to Canada for a box of Japanese Catarrh Cure, and from the first application it seemed to touch the spot. Catarrh entirely left me before the box was used up."

Bellevue, N.B., Goose Bay, NEW-FOUNDLAND: "I must say Japanese Catarrh Cure cured me perfectly after a course of other advertised cures had failed."

Mrs. F. F. CHILLIWACK, B. C.: "My husband tried all the advertised remedies and many doctors, but in every case the Catarrh returned. He was cured by using Japanese Catarrh Cure, and since finishing the treatment has not the slightest sign of Catarrh."

Japanese Catarrh Cure is 50 cents a box, at all druggists, or sent postpaid by the GRIFITHS & MACPHERSON
