

**Gas Economy**

The particularly economical feature of the Oxford Gas Range is the fact that it burns a large percentage of air. When you realize how cheap common, every-day air is, then you'll appreciate the economy of the

## Oxford Gas Range

No other gas range on the market can burn such a large percentage of air without lessening the heat of the flame and causing a violent popping or firing back accompanied by quite a decided explosion. This invention of the Oxford Gas Range does not only save considerable on your gas bill but it gives you a greater heat.

The burners of the Oxford Gas Range may quite easily be removed and cleaned.

We would like to have you call at one of our agencies and hear all about this Range. Write for leaflet.

On exhibition and for sale at  
**The Gurney Oxford Stove Store**  
 W. C. Woods, Manager. 332 Richmond St., London 104

## MARKET PRICES

### LOCAL MARKET.

London, Thursday, June 8.

The bright, sunny morning seemed to put some life into the buyers and sellers who attended the market this morning, as sales were brisk for all the offerings, excepting garden truck. Prices were firm in nearly every line.

Grain—Oats were in good demand; there were nearly 20 loads offered; sales were made at \$1.24 and \$1.30 per cwt.

Hay and Straw—Hay was plentiful today, as there were 28 loads offered; the demand was good, at \$7.50 and \$8 per ton for most of the loads. Straw sold at \$2 per ton.

Butter and Eggs—Butter sold at 14c and 15c per lb for crocks and rolls. Eggs were scarce, at 10c per dozen by the basket lot.

Vegetables and Roots—Potatoes were in demand; for the three or four loads that were offered prices were a trifle higher, at 20c to 25c per bag; all kinds of green stuff was plentiful and sales slow at the prices quoted.

Poultry—Striving chickens were lower in price, at 20c to 25c per pair alive; the supply of other fowls was sufficient for the demand; prices were as quoted.

Dressed Hogs—Only a couple of carcasses offered, and they sold at \$8.50 per cwt.

Butchers' Meats—There was a fair demand for what was offered; no change in prices.

Wool—Washed sold at 22c and 24c per lb; unwashed, 10c to 15c; there was a good demand.

## VIGILANT SINKS A POACHER TWO OF LATTER'S CREW PERISH

The Gracie M., of Lorain, Ohio, Responsible for Tragical Occurrence On Lake Erie.

[Special to The Advertiser.]  
 Port Stanley, June 8.—A very regrettable affair took place at the head of Lake Erie this morning, when the tug Gracie M., of Lorain, which was unlawfully fishing in Canadian waters with gill nets, was accidentally struck by the D. G. S. Vigilant and sunk, two of the crew being drowned. First Officer Ingster, of the Vigilant, gives the following account of the accident:

We left Pigeon Bay at 6:55 a.m., and headed toward Middle Island passage, passing Middle Island at 8:45; at 9:15 a.m. sighted the tug to north and made toward her, heading her off; finally met her and signaled to stop, also, fired some shots across her bow. They paid no attention and ran past our stern. We put about and soon overtook them again. She again put about and dodged us. This occurred several times. She was gradually working toward the south. We finally steered almost directly after her, and when nearly abreast, she tried to cross our bows once more. We saw a collision was inevitable, and reversed our engines, but had sufficient speed on to strike her slightly with our port bow. She rolled slowly over, filling and sinking in about 5 minutes, stern first. We threw life buoys to the crew to keep them afloat until a boat could be lowered, when we rescued the captain, engineer and one fisherman, two being drowned.

The unfortunate men were: William Anderson, of Lorain, married, one daughter; Martin Oleson, of Cleveland, single. Those rescued are: Capt. William Gallbraith, of Lorain; Engineer William Rollison, Lorain, who was the owner of the tug, and David Coppelwell, fisherman, of Lorain.

Every effort was made by the officers and crew of the Vigilant to rescue all hands, but the supposition is that the two drowned men were struck by the tug or some of the numerous boxes that were floating around.

Capt. Gallbraith attaches no blame to the officers of the Vigilant. The rescued men are detained on board, awaiting orders from Ottawa. Capt. Dunn and his officers express regret at the sad event, which was purely accidental, so far as the Vigilant is concerned.

Mr. Oliver went on: "Did the Conservatives ever make a move to remove the restrictions with regard to education in the Northwest? If Manitoba had free schools it was not because the Conservatives had made them free," declared Mr. Oliver, "but because of the effort of the Liberals, who had always championed provincial rights. The Northwest school system was as absolutely a national system as any in Canada save British Columbia. He proved that the terms of the act of confederation made it the duty of the Government to continue the system in operation in the west."

In answer to the charge that the papal delegate to Canada directed the educational clauses he quoted the opinions of Archbishop Langevin, of St. Boniface, and the Bishop of Three Rivers, who were dissatisfied with the west.

Mr. Bennett had the advantage of closing the debate, but he failed utterly to dispose of Mr. Oliver's argument. He repeated the old and ridiculous charge of the existence of an understanding between Sir Wilfrid Laurier and Monsieur Barrelet, but it failed to arouse the audience.

## ALBERTA MAN SAYS WEST IS CONTENT

An Interesting Visitor to London Is Mr. Hammerstein.

PEACE RIVER COUNTRY TO BOOM

No Discard Over School Question—Great Development North of Edmonton.

Mr. Alfred von Hammerstein, of Athabasca Landing, in Northern Alberta, is a visitor in the city. He is interested in the development of the resources north of Edmonton, such as coal oil, which is believed to be there in large quantities. He is on his way to Petrolia to buy additional machinery from the Oil Wells Supply Company, at that place.

Mr. von Hammerstein is a German, who has lived during the past nine years in the Northwest, and has taken a considerable interest in public and general affairs in that country. He was at one time publisher of the Herald, a prominent German newspaper in Edmonton.

To the Advertiser he stated that it was a complete surprise to him to discover so much agitation in this neighborhood over the question of Northwest schools, because in the Northwest for a dozen years past, he said, all schools in that country have been operated with a complete absence of any kind of discord. He declared that the provisions of the provincial establishment measures now before Parliament, so far as concerned education, were so far as he knew, completely satisfactory to practically everybody in the Northwest. The separate school in that country is not under church control, but is wholly dominated by the ordinary regulations applied by the Legislature to the public school. There is absolutely no distinction between the public and the separate school with regard to religion. In every school in the Northwest only secular education is permitted until 3:30 in the afternoon. During the last thirty minutes religious teaching is allowed, if desired by the board of trustees, this teaching being, of course, according to the dominant religious complexion of the district.

Mr. von Hammerstein states that in this he is neither Liberal nor Conservative. He has never attached himself to either political party. He is, however, warmly favorable towards the Government's G. T. P. policy. In this regard he states he did what hundreds of Conservatives in the Northwest did last November. The new railway is so absolutely necessary for the development of the Northwest that there was very little difference of opinion in the Territories as to the propriety of the G. T. P. policy. The people want the railway and want it just as soon as possible. Many settlers at present are located 60 and 70 miles from railway communication, and they are naturally keenly anxious to get such communication without delay. Mr. von Hammerstein thinks that the pushing of the railway through the Peace River country will result in a development there beyond the most sanguine expectations of any person who has never been in that region. There will be, he says, both agricultural and mineral development. He is a veritable enthusiast with regard to the Athabasca and Peace River country, the best proof of which is that last year he conveyed thither thousands of dollars worth of developing machinery, and on his present trip purposes purchasing more machinery.

Asked concerning the recent Edmonton bye-election, Mr. von Hammerstein stated that the Conservatives and Liberals fought heartily in re-electing Mr. Oliver as minister of the interior, believing thoroughly that his knowledge of western conditions and his ability as a public man well warranted his choice for the cabinet position by Sir Wilfrid Laurier.

A Persistent Backache

Can have but one cause—diseased kidneys, which must be strengthened before backache can be cured. Why not use Dr. Hamilton's Pills? They cure the kidneys quickly, make them strong and able to filter disease-breeding poisons from the blood. At once you feel better, stronger, brighter. Kidney health is guaranteed to every user of Dr. Hamilton's Pills. Get a 25-cent box from your druggist, and refuse substitutes.

Learn to cook for one cent per meal without waste of heat. No steam or odor. Every afternoon, Room 2, Oddfellows' Block.

Many a man remains a bachelor to the finish because he is afraid that if he marries the girl of his choice he also has to give up his family.

After Dinner

To assist digestion, relieve distress after eating, or drinking, and to prevent constipation, take Hood's Pills.

Hood's Pills

Where Disease Germs Breed.

No Need to Fear "Germs" if the Stomach Be Healthy.

The ideal breeding-place for disease germs is a weak stomach and digestive system. The food, instead of being assimilated, turns into a sour, stinky fermenting mass, causing gases, distress after eating, bloating, nausea and flatulency. The poisonous germs that are given off from this undigested food enter the blood, and pimples, boils and blotched skin is the result. Nervousness and sleeplessness come more often from weakened digestion than from any other cause. Rheumatism and gout are directly caused by an acid condition of the stomach.

No ordinary food digestive can give lasting relief. It is absolutely necessary, if one wishes to be well, to use M-I-O-na, the only known remedy that soothes and heals the mucous membrane of the stomach and digestive tract, stimulates the solar plexus, and strengthens the nerves of the stomach. This remarkable remedy puts the whole digestive system in so healthy, clean and sweet a state that fermentation of the food cannot exist, and disease germs in the stomach will be destroyed, and all food will be so well assimilated that a rapid and healthy increase in weight will quickly result.

M-I-O-na is a guaranteed cure for all diseases of the stomach, excepting cancer, a guarantee being given by W. T. Strong, with every package he sells, agreeing to refund the money should the remedy not give perfect satisfaction.

Get a Safe Refrigerator

In cheaply-made Refrigerators articles of food absorb moisture and become contaminated and unsafe.

Our "Special" Refrigerator is built on sanitary principles. Its improved construction insures a constant circulation of pure, dry air, with minimum ice consumption. There are no open joints to catch dirt and every part can be removed for cleaning.

It will last twice as long as a cheap Refrigerator and will soon save enough ice to pay for itself.
