A Few Minor Accidents Reported London Street Railway Handled the Crowds in Fine Style.

The big school picnic is over. Although postponed on several occasions though the vagaries of Jupiter Pluvius, it was carried to a suc cessful issue yesterday afternoon, and must be reckoned as one of the best ever held by the schools of the city.

The crowd is estimated between 6,000 and 7,000. Some think there were more present, while others figure

the attendance somewhat less. From early morn until late at night the youngsters entered into the day's sport with unwearying enthusiasm. On the way down they let everybody in the city know that they had taken possession of the day, and it was distinctly their holiday. They cheered and sang and shouted to their heart's

care of. The majority of the baskets were crowded, but the ravenous youngsters with appetites that would do credit to Samson, made sad havoc of this feature of the entertainment. In the afternoon the sports programme was continued. The crowd was augmented by many thousand grown-ups, who seized the opportunity to throw off some of the restraints of business, and in spite of creaking joints and rheumatic limbs, they assisted in providing a few laughs for

A Beautiful Spot. Springbank never looked prettier. The grass was dry, in spite of the practically continuous downpour of the past three weeks, and was very pretty and green. The woods never were more inviting. The sun shone with unwonted but altogether welcome brightness, and assisted in making the day very bright and cheerful. From every standpoint the day was

Lingering Weakness Following Disease

CAN BE BANISHED BY THE WON-DERFUL TONIC POWERS OF DR. WILLIAMS' PINK PILLS.

How often it is that the victims of disease—fevers, measles, la grippe or any other contagious troubles are weak and ailing, even after the disease itself has disappeared. They do not pick up strength as they ought; remain listless, tired and discour-The reason for this is that the blood has been impoverished by the ravages of the disease through which the victim has passed. Strength will not return until the blood is enriched. The blood can be enriched by no other medicine as quickly and as surely as by Dr. Williams' Pink Pills for Pale People-to enrich the blood and strengthen the nerves is the whole duty of these pills-thousands have found them beneficial in bringing strength after disease had left them weak and run down. Among those who owe good health to these Pills is Miss Laura Hisco, New Ross, N. B., who says: "Following an attack of measles I was left greatly run down and suffered from a bad cough I was advised to use Dr. Williams' Pink Pills and procured half a dozen boxes. Before they were all gone had regained my strength; my cough had disappeared and I was once more enjoying perfect health."

The experience of Miss Hisco is that of many others. Dr. Williams' Pink Pills make new, rich, red blood This new blood strengthens the nerves and banishes such ailments as rheumatism, neuralgia, lumbago, dyspepsia etc., and brings the glow of health to pale cheeks. The Pills are sold by all medicine dealers, or at 50 cents a box, or six boxes for \$2 50, from The Dr. Williams' Medicine Company, Brock-

Given up by Doctor

"I had dropsy, and was told by my family physician that there was no chance for me. My family also gave me up. My limbs and body were swollen one-third larger than natural, water collected around my heart and I had to be propped up in bed to keep from smothering. I took Dr. Miles' Heart Remedy until I was entirely cured. This was in 1902, and I am now able to do any kind of work on my farm. My cure was certainly marvelous."

L. TURLEY CURD. Wilmore, Ky.

Dr. Miles' Heart Remedy has been wonderfully successful in relieving heart trouble. Its tonic effect upon the heart nerves and muscles is a great factor in assisting nature to overcome heart weakness.

Semi-Steel Fire-Pot-Not Gray Iron

FIRE-POT of a furnace should be able to endure tremendous heat and to repel the attacks of sulphur

The material commonly used for a fire-pot is gray iron. The Sunshine fire-pot is Semi-Steel.

Now, avoiding technical terms, gray iron has what may be called "open" pores. Through these "open" pores the destructive sulphur fumes attack the iron and hasten disintegration.

On the other hand, Semi-Steel is a close-grained material, with a smooth-as-glass surface which practically seals or "closes" up the pores. Semi-Steel easily repels the attacks of gas fumes and thus greatly prolongs the life of the fire-

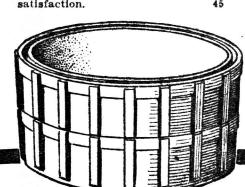

A Semi-Steel fire-pot weighs 20 per cent, heavier than the same size and pattern in gray iron. It is therefore better able
