There was some difference of opinion between the policeman who arrested the private and the citizens who witnessed the arrest. The latter claimed the man could have been placed in charge of a number of his companions and taken to the barracks. Instead of that, although he appeared to be able to walk, he was chased by the policenan, and hauled for a block by the back of the neck. There the private showed that he was a first-class fighting man by refusing to go to the station. Two other officers were called upon, and they got him half a block further. But he patrol was called, and he was given ride of half a block to the cells.

# Change The Vibration It Makes For Health

A man, at odds with his stomach, tried leaving off his usual diet, and adopted a breakfast of

# Grape-Nuts

His health began to improve for the reason that once in a while one will reach a place where the system becomes clogged and the machinery doesn't work smoothly.

A change of this kind puts aside bulky food of low nutritive value and takes up food of the highest value-partly pre-digested and quickly changed into good, rich blood and healthy tissue.

Although Grape-Nuts is not always on the bill of fare, nearly every hotel has it in the kitchen, and the guests can get it if called for.

"There's a reason" why Grape-Nuts restores health and strength. Look in pkgs. for the famous little book, "The Road to Wellville."
