Here, in British Columbia, we hear the din of the battle afar off, but we regard it with a mild interest. British Columbians do not appear to think that the Protestant religion is in danger because the Legisla. ture of Quebec has given \$400,000 of the money of the province to the Jesuits as a compensation for property appropriated by the Government.

## A SILLY MOTION.

"Silly" is, we find, an unparliamentary word but it is nevertheless at times an exceedingly useful one. No other word in the dictionary so well characterizes the

act of a Nova Scotia member of Par liament in placing on the notice paper a motion to annex the New England States to Canada. Such a motion is silly in the extreme. No one in either the Atlantic States or Canada dreams that such a thing is even remotely possible. The member who would seriously submit such a motion for the consideration of the The report of the manœuvres was submit-Parliament of Canada would be set down ted to Parliament. The admirals formby sensible men on both sides of the House as a fool. They might be too isfied with the conduct of the officers and polite to tell the honorable member what they thought of him in plain terms, but they would take some way of letting him the Americans, and of all Americans the people of the New England States are the most patriotic. "Uncle Sam" is a Yankee from the crown shall not be an empty boast. Whether of his head to the soles of his boots. And of his head to the soles of his boots. And who is "Brother Jonathan" but a des-cendant of a strait-laced New England Puritan? The man who has got it into his head that the New England states, the cradle of the Republic, and around which the traditious of the American nation lux- and the defence of the colonies and India, uriantly cluster, are ready to declare that the strongest fleet in the world and when the Republic is a failure and to transfer the British people once make up their their allegiance to the Queen of Great minds they are bound to carry out their British, must be a crank.
