

Operators and Miners Agree

To Settle Their Differences Outside of the Strike Commission.

And the Basis of Negotiations Has Already Been Decided.

Scranton, Pa., Nov. 21.—The mine workers, through their representative, have agreed with the mine owners to attempt to adjust the differences existing between them, outside the anthracite coal strike commission. The proposition was made on a compromise basis, and negotiations, it is expected, will be at once entered upon with a reasonable hope of settlement without the aid of the arbitrators. The rough proposition to form the basis of negotiations is a ten per cent. increase in wages, a nine-hour day, and trade agreements between the miners and the company by whom they are employed. The only one of the four demands not touched upon is that of weighing coal by the legal ton. While both sides have expressed a willingness to settle their difficulties among themselves, it is not to be construed that it carries with it the acceptance of the terms proposed. The strike is mentioned only as a basis, it is understood, from which a settlement is to be effected. It is possible that the foundation already laid can be wrecked by either party holding out too strongly against some question, thus leaving the whole matter in the hands of the commissioners who, in the meantime, will act as a sort of board of conciliation rather than as a board of arbitration. Few persons were aware that an attempt would be made at an outside settlement until it was practically so intimated by Judge Gray, chairman of the commission, who read a carefully prepared announcement from the "bench." The move, one of the most important in the whole history of the coal strike, created a mile sensation when it became known. The surprise was all the greater when it would be remembered that numerous persons from the President of the United States down to many organizations from the National Civic Federation to the small boards of trade of the mining towns failed to bring the two parties together. It is said it was all brought about by both parties seeing that proceedings before the commission would be interminable. It cannot be officially stated which party made the proposition first. The attorneys for both sides are averse to talking, but those who were inclined to say something, differ in their statements. An attorney for one of the miners said it came from the miners' side, while one lawyer for the miners said it came from the operators. Another representative of the miners said it was a "spontaneous proposition." It is believed, however, that the operators were the first to make the proposition. Wayne Maccreagh, who carried on such a brilliant cross-examination of President Mitchell, is said to have been bringing about the present situation. He went to New York after he finished with Mr. Mitchell, and had a conference with certain persons connected with the coal industry, among them, it is reported, J. P. Morgan. He was in New York today in connection with the matter. The commissioners were informed of the new turn of affairs last night, and acquiesced in the proposed arrangements.

On the 8th page of this paper will be seen the announcement of the grand holiday sale to take place at the Army and Navy Clothing Store, 117 Government St. As will be seen, great bargains are promised in all departments of clothing and boots and shoes. The stock is very large and all new and of good quality. The first invite inspection of their goods by the public as well as a special notice of those which are said to be exceptionally reasonable.

PUBLIC RECREATION.

From Nelson News. A good site has been offered free to the citizens' committee for the purpose of a public library and gymnasium. At the request of the donor of the site, J. Macdonald, a plan for a building such as would be suitable for the proposed institution, according to the proposed plans, the building, which would be of brick and stucco, would cover the ground floor and be three stories high with a basement. The gymnasium would take up the basement and a portion of the ground floor. On the ground floor would also be a ladies' room, smoking room and gallery overlooking the gymnasium. On the first floor would be the library, librarian's office, museum for mineral specimens, and recreation, and board rooms. The second floor would be given up to a lecture and committee rooms.

BOUNDARY LOGGERS.

Geo. Herzig, district deputy grand master, accompanied by James H. Schofield, grand superintendent of works of Trial Lodge A. F. & A. M., of Rossland, have this week on an expedition to the boundary loggers of the order. On Monday Phoenix lodge will visit the boundary loggers at Greenwood. J. Stihlwell and C. E. Kerr will meet the two officials at Grand Forks on Wednesday evening, where a new lodge of the A. F. & A. M. will be instituted.

ANOTHER BIG HOTEL.

English Company Expect to Build a Monster in Montreal. Montreal, Nov. 21.—Hy J. Joseph, representative of the Waring Contracting Company, of London, England, is here negotiating for the purchase of a large block of land in the West end of the city, and says that if it can be secured at a reasonable price, the company, which has built many large hotels in many parts of the world, will enter upon the construction of the largest hotel in Canada.

Perpetual Motion.

When George Stephenson was asked, "Do you believe in perpetual motion?" he replied, "Yes, if you lift yourself by the waist-band of the trousers, and carry yourself three times round the room." Just so, and a woman would just as soon believe that she has not to pay dearly for common premium soaps, in the low quality of soap, in ruined hands and clothes. She would be kept in perpetual motion trying to do with common soaps what she could so easily do with Sunlight Soap—Octagon Bar. 216

PAPAL REPRESENTATIVE.

Discussing at Manila Prospective Negotiations. Manila, Nov. 21.—Governor Taft and Monsignor Gait exchanged formal visits today and discussed in a general way the prospective negotiations which will be commenced and the amount of work still undetermined. Monsignor Gait, who is the papal representative at Manila, made a formal address to him. On his arrival he presented a letter of introduction from Cardinal Rampolla, and also expressed the personal views of the Pope. He said that he accepted the mission because he knew that Governor Taft was an upright and sincere man.

UNITED STATES GENERALS.

Few of Them Have Had a West Point Training. The New York Post publishes the following regarding superior officers in the United States army. Since the promotion of Col. John I. Rodgers of the artillery to brigadier-general the number of army officers who held brigadier-general's commission in the volunteer ranks of 1862 to 1865 has shrunk to six. This is a surprisingly small number in consideration of the fact that these commissions were given away by the dozen at the outbreak of the war with Spain. Most of the colonels in the regular army and many of the lieutenant-colonels were made ten per cent. increase in wages, a nine-hour day, and trade agreements between the miners and the company by whom they are employed. The only one of the four demands not touched upon is that of weighing coal by the legal ton. While both sides have expressed a willingness to settle their difficulties among themselves, it is not to be construed that it carries with it the acceptance of the terms proposed. The strike is mentioned only as a basis, it is understood, from which a settlement is to be effected. It is possible that the foundation already laid can be wrecked by either party holding out too strongly against some question, thus leaving the whole matter in the hands of the commissioners who, in the meantime, will act as a sort of board of conciliation rather than as a board of arbitration. Few persons were aware that an attempt would be made at an outside settlement until it was practically so intimated by Judge Gray, chairman of the commission, who read a carefully prepared announcement from the "bench." The move, one of the most important in the whole history of the coal strike, created a mile sensation when it became known. The surprise was all the greater when it would be remembered that numerous persons from the President of the United States down to many organizations from the National Civic Federation to the small boards of trade of the mining towns failed to bring the two parties together. It is said it was all brought about by both parties seeing that proceedings before the commission would be interminable. It cannot be officially stated which party made the proposition first. The attorneys for both sides are averse to talking, but those who were inclined to say something, differ in their statements. An attorney for one of the miners said it came from the miners' side, while one lawyer for the miners said it came from the operators. Another representative of the miners said it was a "spontaneous proposition." It is believed, however, that the operators were the first to make the proposition. Wayne Maccreagh, who carried on such a brilliant cross-examination of President Mitchell, is said to have been bringing about the present situation. He went to New York after he finished with Mr. Mitchell, and had a conference with certain persons connected with the coal industry, among them, it is reported, J. P. Morgan. He was in New York today in connection with the matter. The commissioners were informed of the new turn of affairs last night, and acquiesced in the proposed arrangements.

MINER'S FALL ENDS FATALLY.

Thomas Borden Succumbs to Injuries Received in Le Roi Mine. Roseland, B. C., Nov. 21.—Thomas Borden died here today as the result of injuries received by falling from a manway in the Le Roi mine on Wednesday. He was a well known miner, having worked as shift boss and superintendent in the Le Roi mine, and also Commander, King Solomon, Summit and other properties.

RUBBER.

Seconds to Be Marked in Future to Prevent Deception. Toronto, Ont., Nov. 21.—The Rubber Association of Canada, at a recent meeting, at which representatives were present from all over the Dominion, decided that in the future all shoes shall have a hole punched at the back in order to prevent unscrupulous dealers from selling "seconds" as firsts.

TROUBLE AT HALIFAX.

Halifax, N. S., Nov. 21.—A sensation created at the meeting of the City Council last night when the deputy sheriff served an injunction on Mayor Crossly as representative of the city to prevent him from carrying out the order of the council in refusing to accept \$76,000 from Andrew Carnegie, and also from informing Mr. Carnegie of the council's action. The aldermen who supported the resolution refusing to accept the offer have retained a legal firm, and the suit will be heard in the Supreme court on Tuesday next.

TO ENLARGING FLAGS.

Colors of Royal Canadians to Have Battles Placed on Them. Ottawa, Ont., Nov. 21.—(Special.)—The flag of the Royal Canadian Regiment presented by the Duke of York last year are being sent by the Militia Department to the war office in order to have the King's cipher substituted for V. R. and the honors acquired by the Regiment emblazoned thereon. Dr. A. South Africa, Cape Colony, Palestine, and hundreds of other parts of the Orange Free State, Transvaal, the flag of the Royal Canadian Dragoons will be sent later.

THE CANADIAN GAZETTE.

The Canadian Gazette tomorrow will contain the announcement of the appointment of Chief Justice Taschereau, Justice Armour and the commission to revise the Federal statutes.

100 MEN'S OVERCOATS.

Left from last season, half price for cash, B. Williams & Co. VANCOUVER CRICKET CLUB. Banquet at the Annual Reunion. Vancouver, Nov. 21.—(Special.)—The annual reunion of the Vancouver Cricket club took place last night around the banqueting board. H. Bell-Irving, president, with Captain Harry Senkler in the vice-presidency, read a letter from Lord Hawke regarding the visit of the English eleven to Vancouver. Lord Hawke said they would return to England in April, and he feared the season would be too early for cricket. The organization of the Builders' association is now complete.

Will Build To C... Grand Trunk Looking Trade of the West... And Intend to Extend Railway Across Continent... Officials Are Now at to Look Over Ground... Montreal, Nov. 21.—(Special.)—To have another transcontinental railway, built by the Grand Trunk Company, the undertaking of construction of from 2,500 miles of track, and an expenditure of \$100,000,000. The new system will run from Montreal, Manitojap, Saskatchewan, Assiniboia to Peace River, or Pass, then through British Columbia to the terminus on the Pacific Coast at Port Simpson. Work will begin as soon as the necessary legislation can be passed. It is expected that five years will be required to complete the project. "Like our Grand Trunk line, extending from Port Arthur to Chicago, the new line will be a single-track line, with a double-track section at the terminus on the Pacific Coast at Port Simpson. Work will begin as soon as the necessary legislation can be passed. It is expected that five years will be required to complete the project. "The new system will run from Montreal, Manitojap, Saskatchewan, Assiniboia to Peace River, or Pass, then through British Columbia to the terminus on the Pacific Coast at Port Simpson. Work will begin as soon as the necessary legislation can be passed. It is expected that five years will be required to complete the project.
