MAKING VOTES FOR LIBERALS UP NORTH

Borden Government Tearing U. Rails on Canada Eastern Branch

Chatham, N. B., WOULD.—A crew of men Monday morning began, at Blackville, the work of taking up the rails on the Canadian Eastern between Blackville and Chatham Junction. This will give Mr. Loggie four or five hundred good Conservative votes at the next election. Mr. Hazen has been given due notice of the effect of this unjust and retrograde railway policy and has not prevented the outrage. It will be a strong election canvass against him and his candidates in every constituency in New Brunswick. Fully two thousand people, between Nels and Blackville are deprived of railway facilities they have enjoyed for years and are left to waggin wheels and hoofs for communication with the rest of the country. The government tearing up rails that were laid by private enterprise for the public accommodation! Isn't this a pretty spectacle for the Conservative elector? No candidate who fails to denounce this outrage need present himself to the electors of this country.

CHRISTMAS HOLIDAYS

The International Railway will issue excursion tickets between all stations on their line at SINGLE FIRST CLASS FARE for the return journey. Good going, December 23rd. to January 1st inclusive, returning January 3rd.

A. A. ANDREW,

Dec. 18-21st. Traffic Manager

PROBATE COURT, COUNTY OF RESTIGOUCHE, S.S.

In the matter of the Estate of Patrick Quinn, late of the Parish of Durham in the County of Restigouche and Province of New Brunswick, deceased. To the Sheriff of the County of Restigouche, or any Constable within the said County, greeting: Whereas E. Josephine Owens the Administratrix of the estate of Patrick Quinn, late of the Parish of Durham, in the County of Restigouche and Province of New Brunswick, deceased, has prayed that she may be allowed to pass her accounts as Administratrix and that an order for distribution may be made in the said estate. You are therefore required to cite the heirs, next of kin, creditors and all others interested to appear before me at a Court of Probate to be held at the Murray building in the Town of Campbellton, within and for the said County of Restigouche on Tuesday, the Twentieth day of January, A. D. 1914, at two o'clock in the afternoon, to show cause, if any, why the accounts of the Administratrix should not be passed and allowed an order for distribution made.

Given under my hand and Seal of the said Court this Eighth day of December, A. D. 1913.

FRANCIS F. MATHESON,
(COURT SEAL) Judge of Probate

JOHN BARBARIE,
Registrar of Probate.
Dec. 11-61st.

LIFE THREATENED BY KIDNEY DISEASE

His Health in A Terrible State Until He Took "Fruit-a-lives"

B. A. KELLY, Esq.

HAGERSVILLE, ONT., Aug. 26th, 1913.

"About two years ago, I found my health in a very bad state. My kidneys were not doing their work, and I was all run down in condition. I felt the need of some good remedy, and having seen 'Fruit-a-lives' advertised, I decided to try them. Their effect I found more than satisfactory. Their action was mild and the result all that could be expected. My kidneys resumed their normal action after I had taken upwards of a dozen boxes and I regained my old-time vitality. Today, I am as well as ever, the best health I have ever had."

B. A. KELLY
"Fruit-a-lives" is the greatest Kidney remedy in the world. It acts on the bowels and the skin as well as the kidneys and thereby soothes and cures any Kidney soreness.

"Fruit-a-lives" is sold by all dealers at 50c a box, 6 for \$2.50, trial size 25c, or will be sent on receipt of price by Fruit-a-lives Limited, Ottawa.

THIEVES EMPTY

A FREIGHT CAR

Car Itself Was Too Heavy However And They Left it

St. Honore, Temiscouata county, was the other night the scene of one of the boldest robberies that have been perpetrated for some time.

In the dead of night, a box-car in the station-yard was completely emptied of its contents, comprising several bales of hay, and a large number of sacks of grain and flour.

The car itself, however, proved too many for them and they left it standing on the tracks.

A large amount of booty has since been recovered from the neighboring barns, where it was hidden. Eight men have been arrested in connection with the theft.

If you are troubled with chronic constipation, the mild and gentle effect of Chamberlain's Tablets makes them especially suited to your case. For sale by all dealers.

FORESTRY FACTS.

There are more than one hundred tree species found in Canada, of which only thirty are conifers. Yet these latter constitute Canada's chief timber wealth. Of these coniferous trees, or "evergreens," spruce easily takes first place, constituting over one-third of the lumber and three-quarters of the pulpwood cut in Canada in 1912. Four of the five species of spruce are of commercial importance, and at least two of these five are found in every province of the Dominion.

This summer an expert soil analyst was engaged by the Forestry Branch of the Dominion Government to substantiate the findings of the forest surveyors in cases where there was any doubt as to the non-agricultural character of forest areas to be reserved. A novel use has been found for the waste liquor from sulphite pulp mills as a binder for cinders and similar materials used in the construction of tennis courts.

That sawdust and other mill waste can be profitably manufactured into briquettes for fuel is evident from the fact that a large lumber company in British Columbia is erecting a \$50,000 plant, which will have a daily output of about thirty tons of such briquettes. They will sell for about five dollars a ton at the mill.

During September and October, 1912, several hundred bushels of pine cones were gathered by the Forest Rangers on Dominion Forest Reserves. This work is often made easy by the squirrels, which store large quantities of green cones in holes for use in the winter months. The Rangers spread out the cones in some dry place, and when the scales open, the seeds are shaken out, and the following spring the best of them are planted in the forest nurseries.

Paper cannot be manufactured by the Krupp works, Germany, for infantry use in rough country. They are so light that a soldier can easily carry one and yet the resistance is greater than that of a metal field-piece of the same calibre.

The lock-gates and sills of the Panama Canal are all made from "Greenheart," a large tree found in the dense jungles of Northern South America, especially British Guiana. The wood will bear, without crushing, a weight of six tons to the square inch, and will remain sound one hundred years under water, being immune to the attacks of the salt water teredo. A single log costs several hundred dollars.

TAKE UP FARMING IN NEW BRUNSWICK

Wealthy Men From Old Country Settle Near Woodstock.—Ship Met by Mr. Hoag

St. John, Dec. 17.—Among the arrivals in this country a few days ago were two farmers from Kent, England, who, through the efforts of H. T. Hoag, have succeeded in finding a suitable farm in this province and placing their capital of some \$15,000 on 300 acres of land near Woodstock, where they will raise stock.

Mr. Hoag was requested to meet the ship in order to see if some of the passengers could not be persuaded to locate in this province, as no other official from New Brunswick was meeting the boat. He found accommodation for two farmers from Kent, with their families—fourteen persons in all—in this city, and put Messrs Cowper and Acott, the business-like agriculturists, in touch with A. B. Wilmot, who came down from Fredericton and sent the men up to see Mr. Hay, another member of the provincial immigration department, at Woodstock.

The purchase of the farm, which joins Premier Flemming's property, was consummated on Saturday, the two families having left St. John for Woodstock on the previous day. Building operations on the farm will be commenced as soon as the weather permits.

SOME COWS FROM GLENGARRY

Among the records collected by the dairy division, Ottawa, this season are some from Glengarry that show the average yield of 155 cows to be 4,540 pounds of milk, 3.5 test, 159 pounds of fat. Included in that is the yield of one herd of 9 cows including one three-year-old that averaged 6,209 pounds of milk, 3.3 test, 205 pounds of fat.

It will be noticed that this herd produced 1,669 pounds of milk and 44 pounds of fat above the average of the 155 cows. Another herd averaged 220 pounds of fat, or 61 pounds per cow, above the average; with fat reckoned at thirty cents per pound, this is equivalent to over eighteen dollars per cow, indicative of the thousands of dollars extra that might be coming into a district if the cows were kept up to a higher producing level.

One noticeable feature of this section is the large number of poor yields from two and three year olds. But it is not only the heifers that are responsible for lowering the average yield. There are cows from six to ten years old that gave only 2,500 pounds of milk and 102 pounds of fat, which compared with that average of 4,540 pounds of milk and 159 pounds of fat.

So that instead of a contrast of only eighteen dollars, it is found that there is an actual difference of over forty one dollars in the cash received from mature cows in the same period. This is surely a statement strong enough to cause every dairyman to examine closely into the performance of each cow he keeps. Milk records are easily kept and a composite sample from each tenth day's milk can be tested once a month. Is not this worth doing?

Nursery on Sands.

At Southport the Mayoress, Miss Willett, has put into practice an excellent idea for the shore. She has instituted what is described as a "Luggage Office for Babies." This is a kind of nursery on the sands, in which children can be left with responsible people in order that their mothers may enjoy a few hours' respite from their care.

A Savings Account As An Investment

A savings account in the Bank of Nova Scotia is an ideal investment for three reasons. First, it has the most important requisite—Safety. Second, it is always readily available in cash. Third, the interest is certain, and, if you do not wish to use it, is compounded for you twice a year.

Capital and Surplus, \$17,000,000.
Total Assets over \$78,000,000.
Independent Outside Audit since 1906.
