C. E. B. TO USE ELECTRICITY
Owing to the fact that hydro has proved such a success in C. E. B. shops here it is understood that provisions will be made in the C. E. B. shops for the installing of electric pumps for the water service of the road at various places in the province. Recommendation will also be made to have electric lighting in the stations along the line where hydro has been installed. These would include Hampton, Norton and Apohaig. The station at Sussex is already lighted by electricity—Monter Transcripts.
