PATRIOTISM AND PRODUCTION Patriotism without production is an as "the scrapper of the family," is in empty sound. If ever there was a Ottawa. Hearing that his brothers were enlisting with the engineers' when by your deeds you are required to be known, it is now. Now, when the Empire is at war; now, when many of the regular channels of supply are closed; now, when men in militions have been summoned from the paths of industry to the inferno of destruction; now, when Britain is fighting for Belgium's right to live; now, when the world's liberties are at stake; now, when Germany seeks to prostrate Britain even as she has prostrated Belgium; now, when Germany seeks to that his sons have kept the wires hot trated Belgium; now, when Germany seeks to prostrate Britain even as she has prostrated Belgium; now, when Germany seeks to prostrate Belgium; now, when Ge trated Belgium; now, when Germany ever since the idea of sending Can-dian contingents to the front was mooted, with pleas for the parental permission to go to the war. For a England, Scotland, Ireland and Wales with starvation; now, when the enemy is bombarding peaceful towns and villages, slaughtering innocent and harmless women and children; now, when fertile fields and fruitful gardens of other lands are lying in waste and swollen with death; now, is the time when Canada is called upon to put forth her mightiest effort to help stem the tide of destruction, to aid the Empire and to profit herself.

In entering upon the campaign in which it is now engaged, the Department of Agriculture of the Dominion has entered upon a task that should be untold good. It is not that our farmers needed altogether to be

be untoil good. It is not that our farmers needed altogether to prompted to benefit themselves, but that perhaps some of them do not enterprecently expensive the seriousness of the present and the more than probable of the present the present and the more than probable of the present the present the present the present the present that the giant conflict will continue from the most of in any other peaking the present the probabilities are that the giant conflict will continue from the most of in any other peaking the present the present that the present the probabilities are that the giant conflict will continue from the most of in any other peaking the present that the present the present the present the present the present that the present the present the present the present that the present the present

The Agricultural Department is not alone holding conferences at many points in the country, but it is engaged, in distributing large quantities of literature telling how the farmer can best serve the interests of the empire, display his grateful sense of patriodism and bring profit to himself. In brief and explicit language, that all who run may read and understand, is pointed out the needs of the situation and how, those needs can be met. waste. Everything can be utilized.

for all time. They will also aid them in that duty to the Empire which is Administration of the United Kingsuch passing and instant importance dom is thinking of catching up, with
